Moscow Is Quiet As Chou Departs

MOSCOW (AP)—Chou En-Lai had a farewell talk with Soviet leaders Friday that seemed to have no curative influence on the Soviet-Chinese split. Then the Chinese Premier and his entourage took a plane for Peking.

Chou's eight-day visit did nothing that informed observers could see to resolve the bitter dispute between Moscow and Peking that has fractured the whole Communist world.

Chou and his delegation of experts talked with the new Soviet leaders headed by Leonid Brezhnev and Alexei N. Kosygin "in a frank, comradely atmosphere," a communique said.

Girls Sniff Polish Fumes; Stage Riot

HELENA, Mont. (AP)—Wildly intoxicated on fumes from fingernail polish, officials said, 20 girl delinquents staged a window-breaking riot Thursday night in the State Vocational School for Girls.

Three housemothers, two maintenance men and Supt. Frank Johnson subdued the girls. Six deputy sheriffs arrived later to help lead them off to security units.

Johnson said leaders of the riot were under the intoxicating influence of ethylacetate in fingernail polish, the same substance that intoxicates persons who sniff airplane glue.

Using their bare hands the girls broke nearly 20 windows as they shouted obscenities and complaints at school personnel. Several girls were cut, Johnson said.

"This is an incredibly poor situation, but it is all we can do," Johnson said.

Johnson said the riot provided the second indication within one week that inmates have been sniffing ethylacetate.

"Last Sunday, a sister of one of the inmates tried to hide a package of airplane glue under a bush," Johnson said. "We saw the sister hide the package and confiscated it."

"A couple of them are still a little wild," Johnson reported at mid-day today. He said sniffing ethylacetate could cause brain damage.

Twelve other inmates in the same cottage with the rioters did not participate in the melee.

Stomachs Roll At Rutgers

NEW BRUNSWICK, N. J. (AP)—About 250 students at Rutgers University had upset stomachs Friday and health officials were trying to determine what caused the outbreak.

No one was known to be seriously ill. Students began reporting to the infirmary in numbers last night, a university spokesman said, and more took ill today.

Dr. Carl R. Ruch, director of student health, said they were suffering from gastroenteritis, a stomach ailment characterized by nausea, vomiting and diarrhea.

There have been about 230 cases at the men's college and 30 at Douglas College for women.

A spokesman said that the students eat in university dining rooms and that the ailment can be caused by food, but the cause of the outbreak is not known yet.

Need A Job?

The following companies will recruit on campus next week:

Monday—Arthur Andersen & Co. (also women); General Electric Co.; Socony Mobil Oil Co. (also women and summer work for graduate students in chemistry); Hoffman & Rink, CPAs; U. S. Information Agency.

Can beer be too cold?

Maybe we shouldn't care how cold people drink beer... just so they drink Budweiser. (After all, we're in business!) But we do care. And if you think that's unusual, you ought to see the care we take to brew the beer. For instance, we could save a lot of time and money if we weren't so stubborn about our exclusive Beechwood Ageing and natural carbonation. But we are... and we have to pay the price. In fact, we know of no beer produced by any other brewer that costs so much to brew and age.

That's why, after we go to such fuss to brew all that it taste into Budweiser, we want our customers to get it all out. And this is a fact: chilling beer to near-freezing temperatures hides both taste and aroma. 40° is just right.

To make it easy for you, we've asked all the bartenders to serve Bud at 40°. Also, every refrigerator is designed to cool Bud at 40°.

Of course, if you're on a picnic or something and the Bud is on ice and nobody brought a thermometer... oh, well. Things can't always be perfect.

Budweiser
that Bud...that's beer!

Chuck says he paid 300 bucks less for his Coronet than you did for that turtle of yours

You really know how to hurt a guy

"Chuck's a swinger," says she. "His Coronet is quick and clean, with a lean and hungry look. It's equipped with a 426 cubic inch mill that will mock your turtle at the strip or on the street. He's got four-on-the-floor, buckets, belts, carpets, console, spinners, and a padded dash. And he said that everything but the four-speed stick and the 426 was standard." Then she broke his back by asking, "Didn't you pay extra for some of that jazz?"

Don't let the truth hurt you. Better see the all-new, hot new Dodge Coronet before you buy a (cuckoo), a (cuckoo-cuckoo), or even a (cuckoo-cuckoo-cuckoo).
