**Join IBM's new computer systems science training program**  
Who: graduating engineers and scientists in all disciplines.  
Why: become a problem-solver and advisor to users of IBM computer systems in areas such as:  
• real-time control of industrial processes  
• communications-based information systems  
• time-shared computer systems  
• graphic data processing  
• computer-controlled manufacturing systems  
• management operating systems  
• engineering design automation  
When: as soon as you graduate, IBM will give you comprehensive training, both in the classroom and on the job.  
Where: in all principal cities of the U.S.  
How: see your placement director, visit the nearest IBM branch office, or write to E. P. Andrews, Jr., IBM Corporation, Room 312, 1120 Connecticut Avenue N.W., Washington, D. C. 20036.
