# The Daily Tar Heel

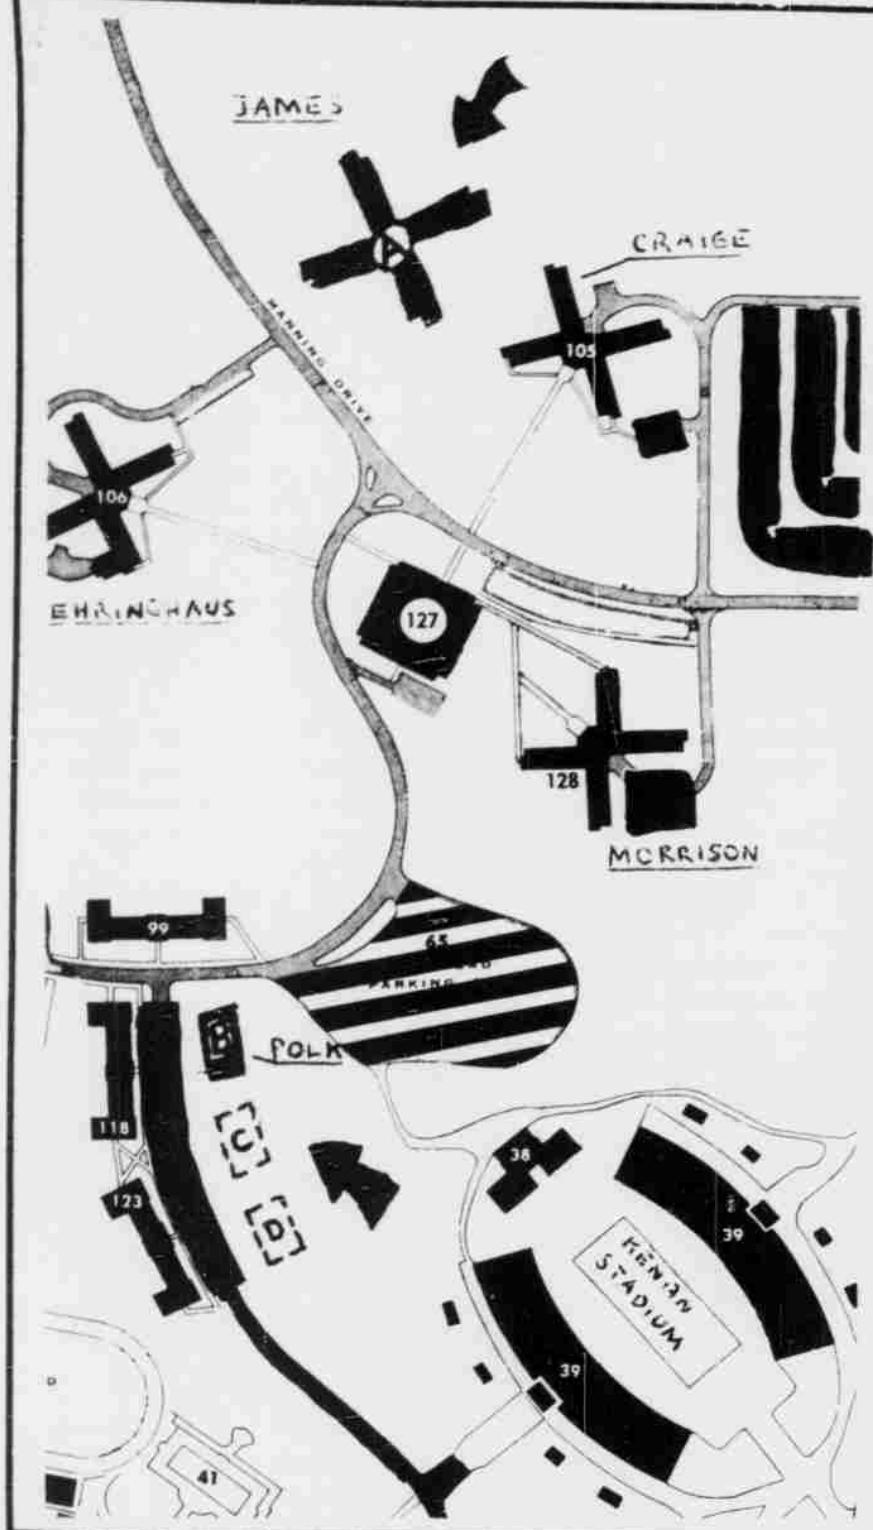

The South's Largest College Newspaper

CHAPEL HILL NORTH CAROLINA THURSDAY, OCTOBER 23, 1965

## The Governor

Gov. Dan K. Moore spoke on  
the importance of public edu-  
cation in Hill Hall yesterday.  
Read his opinion on page three.

Founded February 23, 1893.

THE PINWHEELS at the top of the diagram are actually men's residence halls. Hinton James residence hall (A) will be out past Craige. James Knox Polk residence hall (B) will be in the woods across from Parker. Buildings C and D are still in the planning stage.

## New Dorm To Be Named For UNC's First Student

By ANDY MYERS  
DTH Staff Writer

Rumor has it that Hinton James, the first student at UNC, walked all the way from Wilmington to Chapel Hill to come to school.

Therefore, it is fitting that UNC's newest residence hall, named for James, will be located somewhere between Chapel Hill and Wilmington.

Hinton James Residence Hall, expected to be completed by September 1967, will be on Manning drive out past Ehringhaus and Craige.

Dean of Student Affairs C.O. Cathey said Hinton Hall will look just like Morrison Residence Hall on the outside, but more inside room will be devoted to social facilities.

Three other residence halls are in the planning stage, according to Cathey. Located in the area between Scott residence college and Kenan stadium, the three structures will house 1,000 men each.

The first of these three has been named James Knox Polk Residence Hall. The building will house 50 men on a floor and will be 21 stories tall.

Polk is the only UNC alumnus of UNC to become president of the United States. He graduated in 1818 and returned to study for his masters here. He was awarded an A.M. degree in 1822.

Cathey said the housing

## Board Declares Petition Invalid; Rejects Attempt To Add Names

### Ingram Refutes Editorial Attack

The following statement was issued by Attorney General John Ingram yesterday afternoon concerning an editorial appearing in The Daily Tar Heel Tuesday, Oct. 26.

Several points were raised in Tuesday's Daily Tar Heel which need to be clarified.

UNC has had two recalls in its history. In both recalls the President of the Student Body established the dates of the recall elections. In dealing with this recall, every effort has been made to follow the procedures established by these two precedents, and it was on the basis of these two precedents that President Dickson, in consultation with the Chairman of the Elections Board, and myself, expressed his intention to have the recall on Nov. 9, 1965, the date of the regular fall election.

Mr. McCrary asks, "Was it

really necessary to copy all the names off the petition onto file cards and then make another alphabetical list?"

No it was NOT necessary, and if fact that procedure was

not followed. No file cards were used and only one list was made, categorizing the names according to the first letter of the last name.

This was necessary in order to speed up the process of checking the names against the University enrollment list and insuring that the same name did not appear on the petition more than once. In fact, several names have been found which appeared twice.

Mr. McCrary implies that there has been a conscious effort on the part of the president to slow up the validation process. President Dickson asked the chairman to have the petition validated by last Friday. On numerous occasions I have heard him ask Mr. Tyndall to speed up the process of validation.

Unfortunately, the validation has not preceded as fast as it was originally foreseen.

It is true that Article V, Section 1 provides that the dates of all elections shall be established by an act of the Student Legislature. However, Article V is entitled "Elections, Recall, Initiative and Review."

It is clear that this title and other provisions of the constitution draw a distinction between elections and recalls, initiatives and reviews.

The section of Article V which deals specifically with recalls provides that the President shall direct the Elections Board to conduct the recall. Setting the date of the recall is a fundamental part of directing a recall to be held.

Other provisions of the Constitution specifically dealing with initiatives and reviews make it clear that the President sets the dates of the vote.

To interpret the phrase "the dates for all elections shall be established by the Student Legislature" to include recall, initiative and review would mean that provisions in the same Article of the Constitution are in conflict.

UNC gets no money from the state to build student housing. Residence halls are built by funds from private sources, room rent, grants and matching federal funds.

However, Cathey said, the legislature has set the limit of \$3,000 per student for housing. This applies to both women and men.

Thus, since women's residence halls require more money to house fewer students, women will be housed in renovated men's residence halls in the future.

The Student Legislature does not meet this Thursday. Its next regular session will be on

### Viet Cong Hit Bases

DA NANG, Viet Nam (AP) — Viet Cong guerrillas launched simultaneous attacks with mortars and infiltration teams at an air facility near Da Nang and at the Chu Lai airfield shortly before midnight yesterday.

U. S. Marines are based at Da Nang and Chu Lai. A Marine Corps spokesman said "a couple of aircraft were destroyed" at each air installation.

The spokesman said two helicopters were destroyed at what is known as "Da Nang East Air Base" just across the Da Nang River from the big Air Force base here. The main base in Da Nang was not attacked.

Members and guests of the society took opposing sides of the question or called for civil disobedience which does not infringe upon the rights of others.

Though he praised the use of civil disobedience in such areas as the field of civil rights, Otis said, "Civil disobedience is haphazardly abused in the current rush of 'get out of Viet Nam' protests.

#### Conservative Speaks

William Otis, secretary of the Carolina Conservative Club, denounced "irresponsible and indiscriminate use of civil disobedience" in recent weeks.

Though he praised the use of civil disobedience in such areas as the field of civil rights, Otis said, "Civil disobedience is haphazardly abused in the current rush of 'get out of Viet Nam' protests.

"A sincere dedication to the concept of the law requires us to constantly question its human relevance," he said.

"Of each law we must ask ourselves, 'Is this a law that I should obey?'" he said.

GOVERNOR DAN K. MOORE stressed the importance of public education in a speech to 600 educators in Hill Hall yesterday. The Governor said that such education is a "pedestal responsibility" of state government and must get the attention it deserves. See the story on page three.

By JOHN GREENBACKER  
DTH Political Writer

The presidential recall petition was declared invalid by the Elections Board last night after 55 signatures on it were disqualified.

A final attempt to add more signatures to the petition was rejected by the board, and pro-petition forces said last night they intend to appeal the board's decision to the Constitutional Council of Student Government.

The petition, which demands Paul Dickson's recall as president of the student body, failed to attain the endorsement of 15 per cent of the student body after false or duplicated signatures had been eliminated from consideration.

The petition needed 1,863 signatures for a recall election to be held, and a total 1,917 signatures were presented to the board for investigation.

Elections Board Chairman Alvin Tyndall said yesterday the full investigation of all the petition's signatures would not be completed once the board had ruled it invalid.

Pro-petition forces made a final effort to head off the board's ruling last night when freshman class vice president Buddy Wester, acting as an agent of the petition's sponsor Sharon Rose, attempted to submit an additional 17 signatures on the board.

Tyndall told Wester the board could not accept any more signatures.

Dickson allowed an additional 21 signatures to be added to the petition last week after Miss Rose said they had been collected before the

signature untraceable.

Dickson's recall was demanded by Miss Rose a student legislator and member of Dickson's student political party, after the news of his summer school Honor Council conviction was made public.

Dickson was convicted last August on a Campus Code violation after he took a coed into a closed fraternity house.

Dickson received an official reprimand and the coed was suspended from the University.

Miss Rose said yesterday she would withhold comment on the situation until the petition is officially proclaimed invalid by the board in a statement.

### Memorial Service

A special memorial service for Roger A. Davis was held last night in the main sanctuary of the First Presbyterian Church here.

Funeral services will be held Friday at 3 p.m. in Ft. Lauderdale, Fla., at the First Presbyterian Church.

## House Probes KKK Unit

Washington (AP) — House investigators probed yesterday at a mysterious Ku Klux Klan unit known as "the underground."

It was brought out as the House Committee on Un-American activities questioned Furman D. Williams. Williams was identified as having headed the unit in South Carolina until last month.

It was refused to answer when asked if it wasn't a fact that members were "trained in the use of rifles, explosives and are advocates of violence."

Chief Investigator Donald T. Appell suggested that this group — "known in Klan circles as the underground" — was somehow an offshoot of the United Klans of America's klavern in Gaffney, S. C., known as Cherokee Sportsman's Club.

Williams, a stocky man with a high-pitched voice, also refused to say whether there were similar units associated with other klaverns.

But after Williams was dismissed, and the hearing closed for the day, Committee Chairman Edwin E. Willis, D-La., said the subject of the "underground" was far from closed.

South Carolina Grand Dragon Robert E. Scoggin may be questioned about it tomorrow

before the committee turns its attention to KKK's Georgia realm.

Williams was ordered to return the same day Imperial Wizard Robert Shelton has been ordered to return.

A KKK chaplain was pictured at today's hearing as a black-robed figure collecting money, denouncing police, and declaring: "The message of Christian love is a tool in Communist hands."

George Franklin Dorsett, 48, Funeral services will be held Friday at 3 p.m. in Ft. Lauderdale, Fla., at the First Presbyterian Church.

## Russia Okays New N-Negotiations

UNITED NATIONS, N. Y. (AP) — The Soviet Union agreed yesterday to new negotiations in Geneva on how to stop the spread of nuclear weapons, but said priority must be given to its own proposals.

The Soviet Union submitted a resolution to the General Assembly's main political committee asking for U. N. backing of a proposed Soviet treaty aimed at blocking any North Atlantic defense arrangements involving use of nuclear weapons.

The United States filed a rival resolution Tuesday asking for resumption of the Geneva talks as soon as possible without imposing any condition on whether the U. S. or Soviet treaty proposals should be discussed.

U. S. sources called the Russian resolution one-sided and unacceptable. They said they did not see it as a softening of the Russian position and speculated that the Soviets were merely trying to improve their bargaining position with a U. S. endorsement of their treaty.

The Soviet draft expressed willingness to have the Russian proposal examined in detail by the 17-nation disarmament committee, but made no mention of the U. S. draft treaty.

In debate before the committee Tuesday, Soviet Ambassador Nikolai T. Fedorenko opposed a U. S. call for a resumption of the Geneva talks, urging instead a full-scale discussion at the United Nations. Fedorenko called the U. S. appeal for a return to Geneva an attempt to stall agreement. The Soviet Resolution, however,

reaching a meaningful agreement.

"If real progress is to be made," he said, "we must turn to the difficult but necessary task of negotiation. Any attempt now to press for further agreement on principles or guidelines in this large committee is bound to result in a reiteration of known positions."

William C. Foster, top U. S. disarmament negotiator, reiterated the U. S. appeal for a resumption of the Geneva talks, telling the 117-nation committee it was too large for

the United States to handle.

Foster also denied Communist charges that the U. S. is

treating proposal contained loopholes that would permit nuclear weapons for West Germany or any other nations, within or outside of NATO.

Since the start of the General Assembly session in September, Communist countries have hammered on the charge the United States plans to arm Bonn with atomic weapons by a multilateral nuclear force (MLF) or similar scheme within the Atlantic Alliance.

LIKE LOCUSTS, over 400 two-wheeled contraptions have invaded Chapel Hill this year. Motor scooters, cycles and bikes of all descriptions seem to be the answer to the park-

ing problem . . . But are they? See tomorrow's DTH for a report on transportation and parking at UNC.
