Straight from the bottle?

Some people say they like their beer right from the bottle or can. No glass, please.

Well, that's okay for a fishing trip or something... when carrying along a glass is pretty clumsy. But when a glass is convenient, we think it's a shame not to use it. Keeping Budweiser inside that brown bottle is missing half the fun.

See for yourself. Open a bottle of Bud and let it go tumbling into a glass. The natural carbonation will kick up a clean, white head of foam. And notice the lively bubbles as they keep streaming up to the top. They let that famous King-of-Beers aroma get through to you.

Now hold your glass up to the light. See how clear and brilliant it is? Our exclusive Beechwood Ageing has a lot to do with that. We go to a lot of trouble to brew a beer that performs like this. So you can't really blame us for wanting you to get it at its best, can you?

Just for fun, pour your next four or five bottles of Bud into a glass. If you don't agree that the extra taste, clarity and aroma make a big difference, go back to the bottle.

We won't say another word.

it's worth it... it's Bud.
