

Frosh Dump Devils, 4-0

The freshman booters of Coach Clark Herdic won their sixth match of the season against no losses as they blanked Duke 4-0 yesterday at Fetzer Field.

Landy Anderton led the scoring attack with two goals. Jeff Perry and Stu London plunked in a point each.

The Tar Babies completely overwhelmed the Blue Devils. Coach Herdic made liberal substitutions but the tough Tar Heel defense prevented the Blue Imps from taking many shots.

Anderton and Perry both got goals in the first period. Stu London managed his lone tally in the second quarter. Anderton finished up the booters scoring with a point in the third period.

The freshmen try to make it a perfect season next Tuesday as they finish up against N.C. State in Raleigh.

The victory was the team's second over the Imps. Earlier in the season they downed them 5-0.

Don't waste your time on futile dreams, Just bend your ear—I've got some schemes.

Well, I — For one — will be glad when the football season is over.

I mean I nearly had a heart attack at last Saturday's UNC-Clemson game. I had the situation under control — I knew the Tar Heels would take it. But even I nearly blew over when that Clemson guy got to the Carolina one foot line with seconds to go.

I can imagine how you fans felt. Well, on with the business at hand:

UPSET SPECIAL — Air Force to fly over SPU.

CLEMSON vs MARYLAND — Ol' Frank Howard took it on the chin last week against the Tar Heels. Maryland has been taking it on the chin all year. Pick Clemson by the hair left on their chinny-chin-chin. (Ugh-h-h-h)

DUKE vs WAKE FOREST — The Devils have quite a streak going — losing four games in a row af-

ter winning their first four. They are priming for their meeting with the Tar Heels next week, but they should have enough to fork the Deacs.

N. C. STATE vs FLORIDA STATE — These Florida boys have been rough on the ACC this year. Even though it's State's homecoming et al — the trend shouldn't change. Pick Florida State.

SOUTH CAROLINA vs ALABAMA — Really now — pick Alabama to set a record.

VIRGINIA vs GEORGIA TECH — Virginia has nothing to fear in this one—they haven't a chance to take anything. Pick Tech to "engineer" a victory (ugh-h-h-h even more).

Sign up now for an on-campus interview with IBM December 1-2

If you ask, we'll tell all. About "go-places" careers with IBM. About opportunities in such areas as basic and applied research—device, new product and programing systems development—and manufacture of pace-setting equipment using the latest technologies. You could begin by firing these questions at the IBM interviewer: How many technologies is IBM active in? How can IBM keep me technologically "hot" throughout my career?

How many plants, labs and technical centers does IBM have? Where are they? And what kind of choice do I have? What about creative freedom for the engineer and scientist at IBM? What about rewards—financial and otherwise? The answers to these and all questions about IBM are yours for the asking. So don't miss your IBM interview. Visit your placement office and sign up now.

Once you've heard the answers, you'll probably have one more question: "When can I start?" Whatever your area of study, ask us how you might use your particular talent at IBM. Job opportunities at IBM lie in eight major career fields: (1) Research and Development, (2) Engineering, (3) Manufacturing, (4) Finance and Administration, (5) Marketing, (6) Field Engineering, (7) Systems Engineering, (8) Programing. IBM is an Equal Opportunity Employer.

If for any reason you can't make it on campus, feel free to visit your nearest IBM branch office. Or write: Manager of College Relations, IBM Corporate Headquarters, Armonk, N.Y. 10504.
