## MHC Tries Cases

The Men's Honor Council Thursday night placed a student charged with lying, on two semester's probation. The Council also heard two of the cases stemming from the pornographic film showings in Morrison College, but the decisions reached in these trials have not been released.

According to Chairman Van MacNair, no statements will be made until the remainder of the ten cases has been tried next Monday and Tuesday nights.

The student who received probation was accused of lying to a campus policeman and pleaded guilty to the charge.

- If you have three apples, and you want to divide them among four of you, how much does each one get?  
One apiece. I don't like apples.
- You're not much for math either.  
On the contrary. I once went through a whole semester of calculus—after Phys. Ed. closed on me during registration.
- What are you going to do with all that knowledge?  
Do you need calculus to manufacture fortune cookies?
- You might become an actuary. It's a challenging, responsible job—and you can make a lot of dough.  
A big income is one of my fondest ambitions.
- At Equitable, they even pay you for passing actuarial exams.  
You're putting me on.
- It's true. When you pass an actuarial exam, you get an automatic increase in your Equitable salary. And since there are ten exams, you could be making quite a bundle after a while. But don't get involved unless you have an interest in math.  
My mother didn't name me Archimedes for nothing.
