

DC-5 Has Less Hair Than Some Carolina Gentlemen

By ART LATHAM
Special to the DTH

They like the Beatles, the Beach Boys, and the Supremes. They dress conservatively, and they're clean-cut. Carolina Gentlemen? No, the Dave Clark Five, the British group whose latest record is on the Top Ten Around Kixland.

When a Daily Tar Heel reporter couldn't make it to the DC-5 interview, we decided to take the trip to Raleigh ourselves, to meet the boys if nothing else. So we rounded up a car and a girl Friday named Carol, and headed for Raleigh.

traffic for a frustrating twenty minutes. The car was parked and with the help of the lady at the desk, we found the conference room.

The door of the room was at the front, and as we came in, everybody looked at us, including the five young men seated at the long table across the front of the room.

"That's them," we thought, duly impressed. A lady asked us where we were from, and after we told her, she offered us seats on the third row, beside the television camera.

Lenny: Mike, Reporter: Why do you wear your hair that way? Is it just a gimmick for you group? Dave: Well, my hair has always been this long. The other fellows have let theirs grow a little, but this kind of haircut is much more common in England than over here... Mike: It would be a dull world if everybody were alike

Absurd Questions
We had been forewarned about the kinds of answers to expect from British R & R groups. "Be haughty with them," we had been told, "or else you'll never get answers to your questions."

Since we had come in late, we thought it best not to ask any questions, in case somebody else had already thought of the same question. So Carol took notes while I scurried around trying to get a good camera angle.

It didn't take us long to find out that it wouldn't have mattered if we had asked the most absurd questions in the world, because some reporter from one of the area's dailies would ask a dumber one.

Dave Clark did most of the talking. He assured a lady reporter that neither he nor any other member of the group was about to be knighted by the queen, expressed his preference for British cigarettes, and flatly stated that his hair had always been this length. "This length," incidentally, is fairly short compared to present-day American standards. No member of the group had hair long enough to rate a second glance in Chapel Hill. They were all neatly dressed in clothes they had designed for themselves.

But the overwhelming impression that one received was that here were a group of young men who were enjoying what they were doing. All through the interview, whenever a reporter would ask a question which had obviously been asked many times before, Mike Smith, the organist and piano player, would add side comments of his own to Dave Clark's answers. For example: Reporter: Do you think your fame will fade? Dave: Well, of course we

Rick: Put away your book of quotes, Mike.
Mike: ... and we take our wigs off when we travel.
Reporter: What was your reaction to the criticisms of your new movie?
Dave: Surprisingly enough, the reviews were good...
Mike: He only reads the good ones.
After the formal part of the interview, the reporters and the DC-5 mingled and milled around the room for a while.

Shows Strain
I caught a glimpse of Lenny and Rick trapped in a cor-

ner by an old man with no chin who was grilling them about why they thought they thought they had become so famous. They were answering him the best they could, but the strain of the interview was beginning to tell on their faces.

I edged up to Mike and we got into a brief conversation about the banalities of press conferences. He agreed that they got to be tiring, "But," he added, "it's part of our job, just like reporting is part of yours, and we enjoy it."

By this time, the group's manager had decided it was time for dinner, and the boys, after smiling at Carol and winning a fan for life, filed out the door. The interview was over. I wandered back to the refreshment table, poured myself another drink, and thought about how bad the traffic would be on the long ride home.

how did **this** happen?

Look closely.

Whoever polished off that glass of beer was a real beer drinker. Someone who uses the swallow approach. Not a sipper. Sipping, you see, is for wine. It's the best way to appreciate the delicate taste of a fine vintage. But not beer.

Especially not Budweiser. Budweiser is a hearty drink brewed with lots of character, and the best way to enjoy it is to drink it. (Not chug-a-lug, either... just good healthy beer-drinker's swallows.)

Try this. Take a clean glass... say a twelve or fourteen-ounce size. Rinse it out with cold water. Open a can or bottle of the King of Beers and pour it right down the middle so that you get a good head of foam.

Now... take a big drink. No sips.

Good? You bet. This is how beer should taste. Budweiser gives you a taste, smoothness and drinkability you'll find in no other beer at any price. Our exclusive Beechwood Ageing with natural carbonation has a lot to do with it. This is the slow, finicky way to brew beer. Expensive, too... but the results are worth it. So please, after we go to all this trouble, pour your Budweiser with a flourish. Drink it with a flourish.

And maybe a pretzel.

it's worth it...it's Bud.
