PP&M: The Folk Sound

REYNOLDS COLISEUM was almost filled, and Mary don't just sing folk music-they are and it was quiet. Then suddenly there were folk music, and they proved it again Saturthree people in the glare of the spotlights, and the music filled the vast hall. Peter, Paul

Green Eggs Make For

Puzzlement

LOUISVILLE, KY .(AP) -Everyone laughs and says it can't happen, but the little red hen goes on laying green eggs. She's been doing it for six months. The eggs themselves are completely normal: a yellow yolk and a white white. But the egg shells are pastel

A veterinarian, asked about this, responded: "Sorry, I can't help you with that question. Why don't you try physiologists at the University of Kentucky?"

A telephone call was made to Lexington by one skeptic. "Let me ask two doctors in my office," said the university professor at the other end of the line. Loud laughter filled the professor's office and rat' through the telephone.

"Try a geneticist: this thing sounds like a problem for that field. Good luck."

The genticist suggested one of the eggs be washed. It was. The cleaning cloth become a little green, the egg shell retained its full hue.

Veteran poultry experts say the egg has to be white or brown if it's a chicken egg. It simply cannot be green, they contend.

But the eggs are green, and the little hen is laying them. Her owner, who prefers to remain anonymous, says the family has been eating the

green - shelled marvels. They taste like any other egg, she reported. And no one has turned green.
