Malcolm Boyd. Here Saturday night. Read about

him on the front page.

Malcolm Boyd Appears Sat.

Father Malcolm Boyd, "the Brown Jr. espresso priest," and one of the new voices within the bed him a "disturber of the church, will appear with guitarist Charlie Byrd Saturday, terview. March 11, at Memorial Hall at 7:00 p.m.

The "new voices" are being volved in an experience which heard among the poets of San quickly assumed international Francisco, within the jazz communities, and in Playboy. The new trend is toward mean-

Father Boyd entered the spotlight in 1961 when he resigned as Episcopal chaplain after diocesan officials decided he was too far out of the realm of churchmen.

Boyd has appeared at the Show Boat, a Washington night club, backed up by Charlie Byrd and his trio. With guitarist Byrd he appeared in Washington's National Cathedral offering prayers from his book. Are You Running With Me Jesus? to a crowd of 6,000. On Good Friday, 1966 at the invitation of the protestant Council of the City of New York, the priest and guitarist did a three hour reading of prayers at the Broadway Church of Christ. He also appeared at a negro church on Chicago's South Side reading his prayers in alternation with jazz by Oscar

China Threat To Russia's Farming

FT. WORTH, TEXAS-The Arab Republic, and African Soviet farm program is perched on an economic tightrope and could be knocked off quickly by a major confrontation with China or the United States. a Duke University authority in Russian affairs said here Monday.

Dr. John S. Curtiss, James B. Duke professor of history, also warned that a revision of the price structure in the U.S.S.R. to secure a proper balance between production and consumption poses a major problem to the argricultural economy.

These opinions were voiced in an address at Texas Christian University by Curtiss. His remarks were directed at "Main Trends in Soviet Economic Life."

Curtiss noted that Russian wheat production in 1966 reached 171 million tons, a new record credited by the Soviet press to good weather and new farm prices which stirred enthusiasm among collective

Against a history of famines which have taken up to three millon lives in one period, this high level of production has encouraged Soviet officials to under-take ambitious projects involving a basic shift "from an extensive agriculture to an intensive one," he

The total cost of the undertaking, he declared, will be around \$78 billion.

Reduced foreign aid com-

nations, along with a rapidlygrowing industrial output, must be considered when asking how the Soviets can afford this expansion, Curtiss reflected.

Curtiss said most Western economists do not give the expanded program much chance to succeed unless Soviet authorites establish a free market guided by the law of supply and demand.

A more efficient counting system for the collective farms has been viewed by Russians as an immediate need. Also, a more satisfactory basis for marketing the produce of the collective farms must be found, he advised. Regional procurement offices - the wholesalers - sometimes exploit the collectives in flagrant fashion.
