

"Captives Of Sun" Not At Morehead

Ever since Copernicus set us straight about the motions of the planets around the sun, instead of around the earth as had previously been thought, man has wondered about the possibility of other Solar Systems. Just within the last year, astronomers have located what seems to be a system of planets forming about a dim star known as "R Monoceros." For the first time in history of astronomy, we may be able to observe the birth of another planetary system. This new information plus a variety of other facts and figures are woven into the program now being presented at the famous Morehead Planetarium.

The program is called "Captives of the Sun." Opening narrator for the presentation, John W. Stupak said, "One of the most exciting areas now being explored in astronomy is our own Solar System. It is these planets and other bodies circling the sun which will be targets for future manned and unmanned space exploration. Also during the 'Captives' program we talk about what is known and what has been recently discovered about our space neighbors."

The presentation begins with the program narrator pointing out and describing just when and where to look for the planets outside at night. Planetary motions are discussed and demonstrated using the computerized Zeiss Planetarium projector. With the use of special effects, each of the planets is then brought into view for a close-up look and discussion. The program concludes with the visual presentation of the birth of our solar system and the discussion of the possible "R Monoceros" system.

"Captives of the Sun" is presented each evening at 8:30, Saturdays at 11 a.m., 1, 3, 4 and 8:30 p.m. and Sundays at 2, 3, 4 and 8:30 p.m. Reservations are not necessary at these times for small family groups. School groups may make reservations to see "Captives" at any of the above times or at 4 p.m. Wednesdays, Thursdays and Fridays. Different graded school programs are offered each hour on Wednesday, Thursdays and Fridays from 10 a.m. to 2 p.m. Write to the Morehead Planetarium, Chapel Hill, for a complete program schedule.

Sorority Academic Ratings Released

The Office of the Dean of Women has released the following Sorority pledge class averages and over-all sorority averages for the fall semester, 1966:

SORORITY PLEDGE CLASS AVERAGES AND RANKINGS

| | |
|-------------------|--------|
| Kappa Kappa Gamma | 2.7150 |
| Kappa Delta | 2.6901 |
| Kappa Alpha Theta | 2.4965 |
| Alpha Delta Pi | 2.4929 |
| Pi Beta Phi | 2.4816 |
| Chi Omega | 2.4441 |
| Delta Delta Delta | 2.3600 |
| Phi Mu | 2.2527 |

OVER-ALL SORORITY AVERAGES AND RANKINGS

| | |
|-----------------------|--------|
| Over-all sorority av. | 2.5845 |
| Kappa Kappa Gamma | 2.8064 |
| Phi Beta Phi | 2.6875 |
| Kappa Delta | 2.6106 |
| Kappa Alpha Theta | 2.5885 |
| Chi Omega | 2.5749 |
| Alpha Delta Pi | 2.5227 |
| Delta Delta Delta | 2.4588 |
| Phi Mu | 2.4221 |

Academic News Briefs

Meetings, Research, Here This Week

Humanities Lectures

The Cooperative Program in the Humanities at the University of North Carolina here and Duke University will sponsor two public lectures by a University of Wisconsin scholar next week.

Dr. Stephen G. Nichols Jr. of the Institute for Research in the Humanities at Wisconsin, will speak on "The Aesthetic of the Provincial Canoe" at 8 p.m. Thursday (April 27) in UNC's Dey Hall.

At 8 p.m. Friday (April 28) in the Green Room, East Duke Building, East Campus, Duke, Nichols will lecture on "Creation and Re-Creation in the Chanson de Geste."

The Winchester, Mass. native was graduated from Dartmouth and received his Ph.D. at Yale University. He has taught at UCLA and in Wisconsin University's Comparative Literature Department.

Research Reports

Three medical scientists from the University of North Carolina School of Medicine will present research reports within the next week at three national meetings in Atlantic City, N. J.

Dr. Joseph Renn, now on duty with the Navy in Pensacola, Fla., will explain research conducted at UNC to the American Society of Clinical Investigation on Sunday (April 30).

Dr. E. K. M. Smith, a Fellow in the Department of Medicine here for a year and a half will outline a research project on Sunday to the American Federation of Clinical Research.

Dr. Louis G. Welt, chairman of the Department of Medicine here, will speak on Tuesday (May 2) on "Membrane Defect: the Sick Cell" to the Association of American Physicians. His research is seeking to explain things that happen to the lining of a cell in sick people.

Readers' Theater

The Speech Division of the University of North Carolina will present "Search - Man's Quest to Know Himself" at 4 p.m. Wednesday (April 26) in Room No. 105 Caldwell Hall.

This Readers Theatre Performance is the fourth in a series of monthly readings being sponsored by the Speech Division.

Six students will read excerpts from well known works (poetry, novels and essays) of Ralph Waldo Emerson, A.yn Rand, Walt Whitman, Archibald MacLeish, John Stein-

Anthropology Meet

Sixty-five papers on the development of man and his anthropoid relatives will be presented during the 36th annual meeting of the American Association of Physical Anthropologists here April 26-29.

Two symposia, "Bone Growth as Revealed by in Vivo Markers" and "Primate Studies in Anthropology," also will feature contributions by association members.

The symposium on bone growth will open the four-day meet. It is divided into sessions on chemical markers, implants and natural markers.

Among the speeches scheduled for the session on chemical markers are:

"Lead Acetate as a Vital Marker for the Analysis of Bone Growth" by Bernard J. Schneider of the University of Illinois; "Isotope Uptake for the Study of the Formation of Bone and Dentin" by Richard C. Grulich of the National Institute of Dental Research; and "Multiple Markers for the Experimental Study of Bone Growth" by John F. Cleall of the University of Manitoba.

Two speeches will be given on implants.

Language Study

Five members of the University of North Carolina's Romance Languages Department here will participate in the University of Kentucky's 20th Foreign Language Conference Thursday through Saturday (April 27-29) in Lexington, Ky.

Prof. John E. Keller is serving as section organizer for Spanish and will preside at a luncheon meeting of the American Association of Teachers of Spanish and Portuguese Saturday.

Prof. Joseph R. Jones will serve as chairman of the Spanish I Section. Prof. Daniel R. Reedy will present a paper entitled "Vanguard Journals of Peru" and Prof. George B. Daniel will present a paper on "Violence in L'Astree."

Prof. Nicholson B. Adams, currently a visiting professor at the University of Arizona, will speak on "Zorrilla's View of History" and will deliver greetings to conference participants at the AATSP luncheon.

In addition, Prof. Elizabeth R. Daniel, a graduate of the UNC Romance Languages Department and now a professor of Spanish at North Carolina College in Durham, will deliver a paper on "Sarmiento's Role in the Development of the U. S. Department of Education."

Former Cannibal Studying To Return As Missionary

By CHARLES RICHARDS
United Press International

LUBBOCK, Tex. (UPI)—An Indian who eight years ago was a member of a fierce band of cannibals in the jungles of Peru says he plans to return some day as a missionary.

He has one fear—that he will not be recognized as a tribesman and will be captured and eaten raw in the same fashion as he himself used to delight in while killing tribal enemies.

"I cry everytime I think about my parents being like that and of having been one of them myself," Yunem Diaz Calderon said. "But it is a custom for them to kill and eat their enemies. They do not know they are doing wrong."

Yunem was kidnaped from his tribe at the age of 10 by a group of white hunters. From then to now is a long story. He was held a chained prisoner in the hold of a ship, escaped and then learned about civilization and Christianity in Central America. Making it to Texas he was trained as a missionary, despite six months imprisonment in the Texas Rio Grande Valley for illegal entry into the United States.

Now he speaks Spanish fluently and divides the day between cleanup work at a Lubbock Latin American Church

and carrying on his studies—both religiously and academically—to become a missionary.

He thinks he is 18 but does not know for sure because "in that place (in the mountains, north of Lima), we did not measure years or time. We did not eat at any particular time. Only when hungry."

He lives in a small room in the Iglesia Metodista La Trinidad, a Latin American Methodist Church where he was brought by Dr. Roberto Pedraza, minister of the church and head of the denomination's Latin American work in Lubbock.

Church members are fond of Yunem, and it is in their homes he gets much of the educational training. He plans to broaden his academic learning, especially in English, by enrolling in an adult education class at a Lubbock school.

Yunem is only 4 feet 6 and has to stand on a chair to answer the church phone. But he said most of the members of his Peruvian tribe are tall.

One reason why his attempt to mingle with the tribe again will be difficult is that the tribe, believed to be called the Huaris Indians, has no language as such—only grunts and other crude noises. They wear animal skin wrapped around their feet as shoes and have no clothes other than a short lion cloth. They live in caves.

"Strangers are killed," he said. "Anyone who does not belong to the tribe is an enemy."

He has a vivid recollection of the wild land where the tribe lives. "Jungle, tiger, snake," he says in describing it in English. The tribe never eats cooked food but lives off raw meat, roots and fruits.

GRADUATING SENIORS MAY 7th

IS THE LAST DAY FOR ORDERING ACADEMIC REGALIA. PLACE YOUR ORDERS NOW AT THE BOOK EXCHANGE.

PEANUTS

I THINK YOU'RE TOO TENSE WHEN YOU TRY TO WRITE WITH A PEN, CHARLIE BROWN...

BEFORE YOU BEGIN, YOU SHOULD SORT OF SWIRL YOUR PEN AROUND A BIT TO LOOSEN UP

THAT'S THE WAY... MOVE YOUR WHOLE ARM AROUND... FASTER! ROUND AND AROUND...

THOSE WERE GOOD SWIRLS...

I'VE BROUGHT YER A LITTLE PRESENT, PET

I THOUGHT A BOTTLE O' RUM MIGHT 'ELP THAT COLD O' YOURS - I GOT IT ON THE BILL

THAT'S VERY SWEET OF YER, KID - BUT 'OW AM I GOIN' T' FIND THE MONEY T' PAY FOR IT?

FLO, PET, I MAY 'AVE ME FAULTS BUT NOBODY CAN SAY THAT I'M INQUISITIVE

BELK-LEGGETT-HORTON CHAPEL HILL

NOW THRU SAT. APRIL 26 THRU APRIL 29

MOTHERS! DON'T MISS IT

NO APPOINTMENT NEEDED • SELECTION OF SEVERAL POSES • FULL POSE PORTRAIT • BABIES AND CHILDREN OF ALL AGES • PORTRAIT DELIVERED AT STORE A FEW DAYS AFTER TAKEN

Get A Huge 11 x 14 or 8 x 10 \$ 1.00 Portrait OF YOUR CHILD

Hours: 9:30 A.M. Till 5:30 P.M. Fri. Nite Till 8:30

Pin-Hi

How to look good on any golf course: play it bold with Arrow's Pin-Hi, the 100% 2-ply cotton lisle knit that stays fresh and crisp to the eighteenth and beyond. Stays tucked-in too. An extra-long back tail keeps down while you swing. A great many standout colors, \$6.00. Pick out a few.

ARROW

Come fly with us... as our Campus rep

This is a year 'round job. Fly with us as a stewardess during the summer. Be on our payroll as a campus representative during the school year.

In June you will go to our beautiful Stewardess School for 5 1/2 weeks. Then fly the friendly skies of United until fall. Pay rate: up to \$450 a month.

These are the requirements:

- sophomore or junior
- age 20 through 26
- in good health
- between 5'2" and 5'9"
- above average grades
- ability to speak before groups

If you are interested, contact the Placement Office for an interview on WEDNESDAY, May 3.
