UNC Students Join Demonstrations

More than 40 UNC students and faculty left this morning and Friday for Washington, D.C., to participate in a nationwide demonstration against the war to be staged at the Pentagon this

Delegations from other North Carolina schools - including St. Andrews, UNC-G, Davidson and Duke - will be among the more than 100,000 persons expected to express their anti-war stand today and Sunday.

7 Convicted In Civil Rights Trial

MERIDIAN, Miss. - An all-white federal court jury wrote a new page in Mississippi justice Friday by convicting seven Ku Klux Klansmen, one a deputy sheriff, of conspiracy in the 1964 slaying of three young civil rights workers.

Eight other white men were acquitted in the case and three of the total of 18 defendants won a mistrial when the jury - made up of seven women and five men - was unable to agree on a

Because of regulations governing federal courts, defense attorneys for the convicted said it would be "improper" for them to say whether they will appeal, but informed sources indicated motions for new trials will be filed next week.

Protestors Block Oakland Streets

Thousands of jeering antiwar demonstrators snarled traffic in Oakland, Calif., Friday and hundreds of student protesters tried to shut down a New York college.

The new eruiptions came as a week of nationwide protests against the Vietnam war and the military draft moved toward a climax expected during the weekend - a Washington rally and march on the Pentagon.

More than 4,000 militant demonstrators swarmed into the heart of Oakland, blockaded at least 18 intersections at one time, and forced traffic to a near standstill. Their blockades temporarily prevented busloads of inductees from reaching the Oakland Induction Center, scene of violent demonstrations since

Striking Steelhandlers Get Ultimatum

CLEVELAND - Leaders of 20,000 striking steel haulers met here Friday to consider a revised settlement proposal and were warned to accept it or be prepared to stay off the job "until hell

The warning came from William J. Hart, a Pennsylvania cabinet member who headed a mediation panel which drew up the proposal. It drew immediate fire from attorney Bernard Berkman, a chief spokesman for the strikers.

UP Offers New Plan To Aid Class Officers

By WAYNE HURDER of The Daily Tar Heel Staff

A University Party plan to strengthen the present class officer system by establishing a class council, an interclass commission and a party platform for class officers was outlined before Student Legislature Thursday night by UP policy vice chairman Dick

Levy, a legislator from Hinton James, said the legislature should regard this year as "a probationary period for class officers."

He recommended that legislature abolish the freshman, sophomore and junior class offices if they fail to accomplish anything this

He cited a lack of specific programs for the officers, party failure to back up the candidates' platforms, and a lack of communicative and administrative structures as the three main problems of the class officer system.

To solve the first two problems he said the UP advisory board will recommend to the party at its convention Monday at 7 p.m. in Gerrard Hall that the party establish a specific program for each class. Class officer candidates will be picked at that time.

The party then would "run candidates solely on their abili-

The party would accept the responsibility if the platform isn't carried out. Levy said the UP advisory

board advised that a class council be elected with a commission that would work delegate from each of the 19 legislative districts. Under these delegates would

be an appointed individual from each major living unit within the district (one for each residence hall, fraternity,

This council's purpose would be to better administration and communication.

Lastly, under the proposal, there would be a class commission composed of the primary class officers. Levy didn't say who would be considered a primary of-

ficer but said the committee would be designed so coeds would be represented.

The members "will meet with one another and the student body president to coordinate their programs,"

according to Levy. Levy will introduce bills into legislature to establish the two

A committee of four egislators next week will start looking into the feasibility of seven recommended changes in election laws and will check the possibility of using IBM programming for voting and vote tallying.

The committee, appointed Thursday night by Vice President Jed Dietz, will investigate and hold hearings on seven proposals made by Student Body President Bob Travis on

Committee chairman Bob McKeewn, SP from MD I, and a last year's election's board chairman, set no date for when the committee would be finished with its job.

He said the committee would examine the problems one at a time and when it had finished studying a problem make its recommendation to Student
