Kopechne Case Closed

EDGARTOWN, Mass.-A whirlwind grand jury, which heard just four witnesses, ended its investigation without indictments Tuesday in the death of Mary Jo Kopechne in Sen. Edward M. Kennedy's car. The district attorney pronounced the case "closed."

The 10 men and 10 women of the Dukes County grand jury, after deliberating three hours and 15 minutes, apparently found no evidence to indict Kennedy or others in connection with the 28-year-old secretary's death last July.

Hart's Wife Convicted

WASHINGTON-The wife of Sen. Philip A. Hart, D-Mich., and seven other defendants were found guilty Tuesday of violating government regulations during an antiwar demonstration at the

Each could be fined \$50 and sentenced to 30 days in jail, but the U.S. Attorney's Office said it would not ask for jail terms. The defense attorney said he would probably appeal the convictions.

Beret Held Suspect

Ft. Bragg-Green Beret Capt. Jeffrey MacDonald, under house arrest as a suspect in the bludgeon murder of his pregnant wife and two daughters, requested legal counsel Tuesday, the army

The spokesman said MacDonald, a physician, has been releived of his duties as a preventative medicine officer with the 6th special forces. He was restricted to his bachelor quarters on the

The spokesman said investigators "don't rule out any other suspects.' He has been assigned a 24-hour guard, who will escort

MacDonald, 26, to mess halls and other necessary areas on the MacDonald claims his wife, Colette, also 26 and about six

months pregnant, and their daughters, Kimberly, 6, and Kristen, 2, were killed by three men and a blonde woman who chanted, "Acid is groovy, kill the pigs, hit 'em again."

The information spokesman said MacDonald, a native of Patchogue, N.Y., was told Monday that he was considered a suspect in the murders.

Carswell Vote Today

WASHINGTON-Today's showdown vote on Judge G. Harrold Carswell looks to be the closest on a Supreme Court nominee in almost a century-with a very real possibility that Vice President Spiro T. Agnew will have to save him with a tie-breaking vote.

Carswell's Senate opponents claimed Tuesday they had the votes to deny him confirmation if they could pick up the vote of only one more uncommitted Republican. But Carswell's supporters disputed their head count.

The possibility still existed that Agnew could cast the vote for Eastgate Shopping Center. Carswell that would break a 48-48 tie when balloting begins at 1

A UPI poll showed 48 senators publicly or privately committed to vote against confirmation, or leaning that way, and 46 committed or leaning toward supporting his promotion.

Murderers Sought

GUATEMALA CITY-Guatemala Tuesday pressed what it described as a relentless search for the brutal slayers of West German ambassador Count Karl Von Spreti. The body of the slain career diplomat was laid out in state at the palace.

The Guatemalan army promised "harsh and fast justice" for the kidnap-murderers. But there was no immediate indication their capture was imminent and there were unconfirmed reports resident assistants for next Miss Ness said, "will be to be some foreign diplomats were considering asking their governments to transfer them to another office in Central

New Cigarette

WINSTON-SALEM-To end "erroneous" speculation, R.J. Reynolds Tobacco Co. Tuesday announced a new low tar and nicotine cigarette which the company said delivers full tobacco \$1250 a year and charged

Reynolds said the new cigarette, Vantage, represents a "breakthrough."

"Vantage will be lower in tar than 99 per cent of the cigarettes sold in the U.S. and lower in nicotine than 97 per cent, but in flavor delivery it will compare flavorably to the best selling filter brand on the market," said W.S. Smith Jr., Reynolds executive vice president.

IT ISN'T ALWAYS EASY TO BE KIND. Bob Rivers found that out yesterday when he spotted a cat in a tree that obviously needed rescuing. Students tried to get the fire department and the police department to get the cat down, but that didn't work. So student power got a workout. At last report the cat was alive and well. Commission's Solution To Racial Problems

Expand The Curriculum'

Staff Writer

The Chapel Hill Human Relations Commission released a report Monday warning of further disturbances in the local high school if racial conditions were not improved.

The commission made several recommendations, including the correction of deficiencies in communication and curriculum; the offering of more vocational studies; and the hiring of more black teachers.

The commission, through its high school study subcommittee, began investigating racial problems at Chapel Hill High School in November after a severe outbreak of violence resulted in three injuries and more than \$1,000 damage.

Lack of communication between students, teachers and administrators was considered by the commission as one of the major reasons for disturbances and alienation.

communication are growing so severe at the school," the commission said, "that the learning atmosphere and the day to day operation is seriously damaged."

The commission placed part of the blame of the communication problem on the school administration.

"One major point of consensus," the commission continued, "was the lack of

resolution" be established.

The commission made extensive curriculum recommendations, calling the school's current vocational training program for those not "Difficulties in college-bound "the most glaring deficiency in the high

"The subcommittee was shocked to learn," the commission said, "how frequently course offerings are not available to students who want them in the fields of art,

The commission said more extracurricular activities, such as a photography or philosophy club, should be added and that a standing curriculum committee should continually assess and add to course variety.

homerooms they would enjoy," the commission said, "such as monogram winners, those interested in journalism or for blacks and whites who would like to reverse the usual racial balance."

The commission noted, Chapel Hill law practice in however, that an ideal
