

Democrats Favored With Election Gains

WASHINGTON—Republicans and Democrats both found something to cheer about Wednesday, but it was clear that the Democrats had thwarted President Nixon's off-year campaign blitz with critical election gains that brightened their hopes for 1972.

The key was a dramatic Democratic comeback in the governorships, strengthening the Party's organizational

power base for the next presidential election and its influence over redrawing of Congressional and state legislative districts for the next 10 years.

The President's political strategists claimed victory in holding traditional midterm losses to a minimum and building a workable majority of Senators more responsive to White House policies. But Democratic National Chairman

Lawrence F. O'Brien said this was discounted by "nothing short of a fantastic Democratic gain," particularly among governors where his party regained majority control.

The Republicans went into Tuesday's election with a 32-18 edge in governors, and holding the seven most populous states except Texas.

The Democrats held Texas while ousting Republicans in the crucial states of Ohio, Pennsylvania and Florida, for a firm net gain of 10 statehouses and a narrow lead in Alaska. Republicans took 12 of the 35 governorships at stake and were leading in Michigan and Rhode Island.

Nixon Pleased

SAN CLEMENTE, Calif.—President Nixon heads back to Washington Wednesday convinced that his 22-state campaign was crucial in helping the Republicans gain strength in the Senate and limit their losses in the House.

Nixon invested more of his prestige this year than any recent president in a midterm election, and administration spokesmen were quick to pronounce the effort a success.

The results indicated the

administration achieved its self-proclaimed objectives. Republicans improved their position by one seat in the Senate and lost a net of 10 in the House.

The White House also sought to minimize the effect of Democratic gains of the nation's governorships.

The White House said although the Democrats retained control of the Senate, the President succeeded in changing its ideological makeup.

U.S. Blasts Trail

SAIGON—Military sources said Wednesday that U.S. Air Force planes have dropped the high explosives equivalent to three Hiroshima-size atomic bombs in a four-week-old campaign to cut Communist traffic on the Ho Chi Minh Trail in Laos.

An average of 32 huge B52 bombers and up to 400 smaller jet fighter-bombers have pounded the North Vietnamese

supply lines daily since Oct. 8, the informed sources said.

The atomic bomb dropped on Hiroshima, Japan on Aug. 6, 1945, packed the explosive power of 20,000 tons of TNT. Military sources said that well over 60,000 tons of conventional bombs have been dropped on the Ho Chi Minh Trail complex since Oct. 8.

Students Praised

RALEIGH—Gov. Bob Scott Wednesday praised North Carolina college students for their "admirable example of good conduct" during the Oct. 26 visit of Vice President Agnew.

He noted students "completely avoided the senseless tactics" used by some students in other parts of the country.

U.N. Urges Continued Cease-Fire

UNITED NATIONS—The General Assembly Wednesday recommended a 90-day extension of the Middle East cease-fire and resumption of U.N.-sponsored peace talks. But the wording of the resolution was objected to by the United States and Israel as a "step backward" from peace.

The move came just 28 hours before the current 90-day cease-fire was scheduled to expire.

Afro-Asian nations in the United Nations sponsored the resolution. The United States and Israel opposed it on the ground that it did not mention alleged Egyptian violations of the truce by placing Soviet anti-aircraft missiles near the Suez Canal.

Arab states favor the resolution, which was approved by a vote of 57-16 with 39 abstentions.
