Democrats, Republicans cheer vote outcome

The White House said Wednesday President Nixon has no comment on winners in Tuesday's elections around the country, but both the Republican and Democratic national leadership claimed something to cheer about.

Democratic National Chairman Lawrence F. O'Brien hailed Democratic Lt. Gov. Wendell Ford's seizure of the Kentucky governorship from a Republican as "the first major referendum on Nixon's latest economic moves." Ford said "the economic situation cast a long shadow over this race."

But in the only congressional election of the day, in which economics also was a big issue, Republican H. John Heinz defeated Democrat John E. Connelly in a Pittsburgh congressional district.

Other results in Tuesday's balloting were:
BOSTON—Kevin H. White, considered an underdog in his bid for reelection, defeated Rep. Louise Day Hicks (D-Mass.) by more than 2,000 votes. White, also a Democrat, blended a coalition of blacks and Italian-Americans to gather the second biggest percentage in a Boston mayoral race in this century.

PHILADELPHIA—Former Police Chief Frank Rizzo easily won election over liberal Republican Thacher Longstreth in the Philadelphia mayoral race. Rizzo won by a 48,500 vote margin by taking white wards by a 6 to 1 margin while losing black wards by a 4 to 1 margin. The black wards had voted Democratic by 9 to 1 in previous elections.

CLEVELAND—Republican Ralph J. Perk's election as mayor of Cleveland was as much a defeat for Mayor Carl B. Stokes as it was for the three losing candidates. Although Stokes did not seek reelection, he put his prestige firmly on the line in favor of black independent candidate Arthur Pinkney and lost. Perk, a conservative on the law and order issue, becomes Cleveland's first Republican mayor in 30 years.

SAN FRANCISCO—Mayor Joseph Alioto, fresh from one triumph over the accusations of impropriety which have plagued his administration, won reelection by resounding margin. Although the Democrat easily won election, he must face a court in Vancouver, Wash. this week to testify in a \$2.3 million civil suit against him.

RICHMOND, Va.—Democrat George Kostel conceded defeat Tuesday to independent Henry E. Howell in the race for Virginia lieutenant governor. With about 90 percent of the vote counted, Howell had 40 percent to Kostel's 36 percent, with 24 percent going to Republican George Shafran. Howell, a populist Norfolk lawmaker, called his triumph the "people's victory."

MISSISSIPPI—Democrat Bill Waller defeated black independent candidate Charles Evers for the governorship of Mississippi. Waller led the vote in most areas of the state, including many black areas.

More arrests expected in Charlotte school riots

CHARLOTTE—Another student was arrested Wednesday in connection with racial fighting at Olympic High School and police said they would arrest more students involved in the Myers Park disturbance of last week.

A total of 26 students have been arrested on warrants issued after the Myers Park fighting, which Police Chief J.C. Goodman called "a riot," with more arrests expected Wednesday. Some of the warrants carry felony charges.

In the Myers Park incident last Wednesday, seven students were arrested on the spot and 22 persons were injured.

Racial violence also has erupted at South Mecklenburg and East Mecklenburg high schools. Twenty-one students were arrested at South Friday after a band of about 200 blacks roamed the campus throwing eggs and smashing windows. That same morning, about a dozen students were involved in a fight at East Mecklenburg. But the trouble was stopped quickly and no arrests were made.

The Charlotte-Mecklenburg School Board has asked the advice of the local Human Relations Board to try to find the underlying causes of the recent turmoil.

Egypt to begin drive to bring Mideast peace

A top Egyptian presidential advisor in Cairo said Wednesday Egypt will launch a diplomatic offensive in the United Nations in last ditch efforts to find a solution to the Middle East crisis before the end of the year deadline set by President Anwar Sadat.

Hafez Ismail, Sadat's advisor on national security affairs, was quoted by the semiofficial newspaper Al Ahram as saying the move stemmed from the "Egyptian decision that 1971 is a decisive year for peace and war."

In other news in the Middle East, diplomatic sources said four African heads of state told Israeli leaders that the key to a new era of tranquility in the Middle East was the withdrawal of Israeli forces from Arab territories occupied in hte 1967 war.

Prime Minister Golda Meir met for 90 minutes in the Knesset Parliament Building with President Leopold Senghor of Senegal, Ahamadou Ahidjo of the Cameroun, Joseph Mobutu of Congo and Maj. Gen. Yakubu Gowon, head of state in Nigeria.

Laird believes Congress will restore foreign aid

Defense Secretary Melvin Laird said in Saigon Wednesday he is confident Congress will restore foreign aid cuts so President Nixon can go to Moscow and Peking next year with a show of strength, but meanwhile, back in Washington, no compromise has been reached.

In the nation's capital, Secretary of State William P. Rogers insisted that the program be continued at present levels, but key members of the Senate Foreign Relations Committee fought for a severe reduction in hopes of achieving a basic change in U.S. policies in Southeast Asia and around the world.

Rogers met with the committee for more than two hours in an effort to unravel the snarl created by last Friday's Senate vote to kill the aid authorization bill.

Laird arrived in Saigon Wednesday night for a review of the Vietnamization program before Nixon announces additional troop withdrawals on Nov. 15.

Pat Taylor applauds education reorganization

PEMBROKE, N.C.—Lt. Gov. H. Pat Taylor said Wednesday the newly-enacted reorganization of higher education should preserve the excellence of all the state's public institutions.

"I don't want to hurt the excellence of any of the institutions of this state and I don't believe this new system will do it," he told the Pembroke State University student body.

In answer to a question, the Democratic gubernatorial candidate said he had "hope and confidence it will all be for the best."

"What we have had has been duplication of programs and looking down the road we could see far more duplication which apparently was going to be created," he said.

Taylor said the legislature hoped to remedy that by establishing "a board which would not look just at Pembroke, UNC, UNC-Charlotte, or East Carolina, but consider the total needs of North Carolina and how we could spend this tax money more effectively."

He urged students, many of them newly-enfranchised 18-year-olds, to take part in the political process next year.

"Politics should be a means whereby people bring to bear upon the events of their time some influence and pressure," he said. "In this way, we can direct the course of the world in which we live."

"What should I spend on a music system?"

(An important question deserving of a straight answer. We'll risk one!) You should probably spend \$644 on our Advent / Sansui / P.E. / Stanton system. Why are we so sure?

The system we have for \$644 is not just a good value (although we do think it's actually the best value available in hifi equipment.) Nor is it just a question of its sounding "good for the money." Our Advent / Sansui / P.E. / Stanton system is unique among all the systems that can be put together: it is a stereo radio / phonograph system that is nothing less than the right, completely satisfying choice for most people with a demanding interest in both music and sound — at a price far lower than such a system would have cost just a few years ago.

An ambitious claim to be sure. But one which, from experience, we are not afraid to make. Our \$644 system will do the following for you:

It reproduces the entire frequency range of all music, without annoying coloration or distortion, at levels which will comfortably fill your listening room with sound. (Wagners and acid-rock freaks not excluded.)

It sounds convincing not only on the best recordings, but on the great majority of recordings and broadcasts of all kinds.

It has enough controls and features to satisfy your needs, without making you pay for unnecessary frills. (There's ample flexibility for adding such niceties as a tape deck or additional speakers.)

Its performance and durability are such that it's highly unlikely you'd want to change any of the component for a very long time.

It's fully guaranteed for five years by our service department.

The Advent Loudspeakers have over and over again proved true the claim originally made for them: they provide the kind of performance associated with speakers then and now costing much more.

The Sansui 1000X AM/FM Stereo Receiver is yet another example of the wonderful way your inflated dollar now buys much more real performance in hifi equipment than ever before: 28 watts/channel RMS, with less than .8% distortion, across the entire audio range. Sensitive FM performance permits the greatest number of stations to be received in truly listenable form.

The P.E. 2038 Automatic Turntable does its job smoothly and reliably; its heavy platter turns records at a constant speed, quietly. There is a gentle changing mechanism and a convenient cueing control. The Stanton 500EE Cartridge transmits all the sound that is on the record, and at a record saving 1½-gram tracking force. Its excellent high frequency capabilities complement the fine high frequency characteristics of the Advent Loudspeakers and the Sansui 1000X Receiver.
