

Heels stifled on three hits

Baseball team loses to V.P.I.

by Steve Levin
Asst. Sports Editor

Shrieves blasted the Tar Heels 9-0 yesterday at Boshamer Stadium.

Starting Tech pitcher Gary Zetts was staked to a first inning lead of 4-0 as Davis socked a 340-foot homer over the leftfield fence with two out. His hit followed run scoring doubles by Vince Carbaugh and Paul Adams.

The second inning was not much better for the Tar Heels as Shrieves led off with a 350-foot homerun to leftcenter upping the lead to 5-0. DeRatt got the next two batters to ground to second base, but Carbaugh singled to left, stole second, and scored on a

double by Sandy Hill.

Bullpen action started for the Heels after Carbaugh's hit, and Joe Howard entered the game in relief of DeRatt with no cuts in the third inning. Howard gave up a run scoring single to Lewis Dillon, but the run was charged to DeRatt who had walked Paul Adams to start the inning.

The Gobblers picked up single runs in the sixth and ninth innings for their final total of nine. Errors by Kennedy and Chris Kupec on the same play gave VPI a run in the sixth, and a sacrifice fly by Gene Fornash in the ninth drove in Hill who had tripled.

For Carolina, it had to be a disappointment after their spurge on Monday. Singles by Early Jones in the third inning, Tom Kennedy in the eighth, and Dale Lydecker in the ninth were UNC's only scratches of the game.

The Tar Heels failed to advance a runner past second, and for the game only two reached second. Their best threat of the game came in the second inning when Jones singled and Lydecker walked with two outs. But Bobby Guthrie struck out to end the inning.

VPI pounded Carolina's pitching for 13 hits, six of which were extra base knocks. Even Joe Howard, who had been very effective for the Heels during their recent Florida trip, had trouble with Tech as he gave up four hits and an earned run in his four inning stint.

The loss dropped DeRatt's record to 1-2 while Zetts recorded his first victory of the season in his first start of the season.

The Tar Heels will look for their eighth win of the season tomorrow against Lafayette College at 2:30 in Cary Boshamer Stadium. Either Mike Merritt or Billy Paschal will be on the mound for the Tar Heels.

Who da think it?
Who da think that Carolina's Tar Heels, who cracked 20 hits in a 21-1 rout of VPI Monday, would be stifled on just three hits by the same team yesterday?

Well, it's true. Virginia Tech, powered by homeruns by Charlie Davis and Sam

Noneman is awarded All-American honors

by Susan Shackelford
Asst. Sports Editor

Nancy Noneman

UNC sophomore Nancy Noneman had one of those spring breaks to remember, returning to campus with the honor of being an All-America swimmer.

"Yes, we got us an All-America," said a still-excited coach. Maxine Francis, who made the trip with Noneman and freshman Judi Seales.

Noneman earned All-American status at the national collegiate women's meet, held March 14-16 at Pennsylvania State.

The Raleigh native qualified for the honor in two events. In the 50-yard butterfly she claimed her best race with a sixth place among 64 entries. She was twelfth among 63 in the 100-yard individual medley.

All-America honors were awarded to the top 12 finishers in each meet event. The National Swimming and Diving Championships were sponsored by the Association of Intercollegiate Athletics for Women (AIAW).

Noneman finished with a 27:30 in the fly and a 1:04.16 in the medley. She clipped a second from her last year's national marks in the events.

The sophomore sprinter led the Tar Heel squad in a strong season, which ended in February. Coach Maxine Francis said Noneman is the best swimmer in the team's history.

For women's swimming, this is the first year of the All-America selections. The sponsoring AIAW has been reluctant to name such a team. Last year, coaches from member schools requested the selections.

Noneman's performance surfaces are truly outstanding when placed in the context of competition. Every event record was broken and in Noneman's best race—the 50 fly—the top 12 were only separated by 1.6 seconds.

Noneman's role for UNC this season has been like a jack-of-all trades, swimming

many different events. For example, Coach Francis had line-up options because of Noneman's overall strength, helping in team strategy.

The versatile racer gained most of her swim experience from AAU competition as a member of the Raleigh Swim Club.

"I guess my favorite event is the 100 individual medley," the lithe performer said early in the season, looking to an improved national showing as her main goal.

Meeting goals became important to Noneman in her swim pursuits as early as junior high school. As an eighth grader, she met her goal of qualifying for the National Junior Olympics, one of her most meaningful accomplishments, she said.

In this year's nationals Noneman has met another one of her self-imposed challenges, with two more years of competition expected at Carolina. Yes, folks, there's probably more to come.

Tennis team travels to Davidson

by Susan Shackelford
Asst. Sports Editor

To this point the netter's have emphasized the idea that if you're going to win—win in a big way. UNC's six victories have been 9-0 shut-outs.

The only setback, a 6-3 loss to Florida, came last weekend when the netter journeyed to Gainesville. The two teams split in the singles, each winning three games, Florida took the remaining three doubles matches.

"I wouldn't say we got wiped out," said co-captain Richard McKee, pausing Tuesday between practice volleys with freshman

matches and only won one of them."

After the Saturday loss, the netters made the 12-hour trip back to Chapel Hill arriving Sunday morning about 9:30 a.m. in plenty of time for a St. Patrick's Day massacre of Kentucky, 9-0.

Courts of wood are being substituted with clay as UNC athletic attention shifts to the game-set-match world of tennis.

Carolina is the defending Atlantic Coast Conference champ and currently holds a 6-1 record going into today's contest at Davidson College.

Last year the Tar Heels defeated the Wildcat netters, who are traditional Southern Conference strengths, when the two clubs met in Chapel Hill.

B.A. 170 Students:
We have got a solution to sum-of-the-years-digit depreciation accounting. Tired of double-declining balance? How about a mortization of bond premium? If any of these problems have got you then drop by and ask about the Keystone Model 390.

Model 390: Tree Portable Battery/AC. Features: Low Battery Drain, *Key, Automatic Discount & Tax Calculations, Decimal Switch, 5-Function Constant, Operates on 4 AA Batteries (not included), AC Adapter included, Carrying Case included. Price: \$99.95.

Model 370: Rechargeable Battery/AC. Features: *Key, Automatic Discount & Tax Calculations, Decimal Switch, 5-Function Constant, Built-in NiCAD Batteries, Charger AC Adapter included, Carrying Case included. Price: \$119.95.

Model 390: Rechargeable Memory. Features: *Key, Accumulator, *Key, Automatic Discount & Tax Calculations, Decimal Switch, 5-Function Constant, Built-in NiCAD Batteries, Charger AC Adapter included, Carrying Case included. Price: \$119.95.

MX20 Bowmar Brainchild
Ideal machine for Chemistry 11, BA 71, 72 or 73. A slim compact, lightweight, precision engineered, full function battery operated hand-held electronic calculator.

the MX20 Features:

- Rechargeable battery operation
- Integral cover/case design
- 8 Digit Display
- Full Floating Decimal
- Omni-Constant (The constant with a brain, operable in all five functions)
- One year parts and service guarantee

Price: \$49.95

Texas Instruments SR-10
Perfect Machine for Introductory Statistics, Math 21, or Calculus Problems.

Fully portable, slide rule calculator. Easy to operate, the SR-10 allows most calculations possible with classical basic slide rules, but with split-second accuracy.

Rechargeable Ni-Cad batteries for low-cost operation. AC adapter/charger included to charge batteries and operate calculator from household outlet.

Display. The 12-character (8-digit mantissa, 2 signs, 2-digit exponent) light-emitting diode display shows all numerals, floating decimal, negative signs, calculation overflow and error indications.

Keyboard. The keyboard consists of 10 digit keys plus decimal point and 12 function keys. In addition to the standard four functions of addition, subtraction, multiplication and division, other SR-10 calculation capabilities include reciprocals (1/x), squares (x²), square root, change sign (+/-), enter exponent (EE), automatic conversion to scientific notation when 8-digit mantissa overflows, and mixed calculations. Data may be entered in free form, that is floating point, scientific notation or any combination of the two.

Power source. The SR-10 electronic calculator contains three NiCad, fast-charge batteries (standard AA size) that provide 4-6 hours of continuous use before recharging is required. The AC power converter/charger (included) will recharge the batteries from normal household current in about 3 hours.

Price: \$89.95

Texas Instruments TI-2510

Fully portable, easy to operate. Press the keys exactly as you see the problem. Adds. Subtracts. Multiplies. Divides. Rechargeable batteries for low-cost operation. AC adapter/charger included to charge batteries and operate calculator from household outlet.

Display. The 8-digit, light emitting diode readout shows all numerals, floating decimal, negative sign, calculation overflow indication and entry overflow indication.

Power source. The TI-2500 calculator contains a rechargeable power pack that delivers the equivalent of 4-6 hours of continuous calculation before recharge. The charger (included) will recharge from normal house current overnight.

Keyboard. The keyboard consists of 10 digit keys and 8 function keys. All keys are single function.

Chain/Constant switch. Located on the keyboard, this switch selects CONSTANT mode for convenient multiplication or division by a constant number or CHAIN mode for normal calculations.

Price: \$59.95

CANON PALMTRONIC LE-81

The Absolute Smoothest Key Machine Available. The LE-81 has the following outstanding features:

- Long Operating Hours: The Palmtronic LE-81 can save you a lot of running cost—for example, the cost of batteries since it can be operated continuously for about 50 hours with dry batteries and 90 hours with alkaline batteries. Also these long operating hours mean release from the task of changing batteries over and over again. All this was made possible by the successful adoption of the C-MOS LSI to the tiny LE-81.
- Human engineering: The Palmtronic LE-81 features keyboard arrangements based on the human engineering, smooth key touch and easy-to-read LED indication panel.
- Automatic Clearing System: With this automatic clearing system, the calculator is cleared for immediate use when the power is switched on and is cleared for proceeding calculation with the C key being depressed.
- Perfect Portability: It is small enough to put inside your pocket and weighs only 266 grams (9.4 oz), yet it adds, subtracts, multiplies, divides, performs mixed calculations, calculations with a constant, and n-th power calculations. Notwithstanding, it has an extremely reasonable price.

Price: \$49.95

The MX55 BOWMAR BRAIN

Five function 8 digit, rechargeable hand-held calculator with 1/2 key & algebraic number entry sequence and "omni" constant.

THE MX55 FEATURES:

- Extra large LED 8 digit display
- 1/2 key for automatic mark-ups & discounts
- Full floating decimal
- Omni-constant (the automatic constant with a brain)
- Deluxe vinyl carrying pouch

Price: \$69.95

Use Your BankAmericard Now 100 East Franklin in same store with Big Wally and Master CHARGE! 967-1443

Don't let the price of a college education stop you.

The price of a college education is skyrocketing. Fortunately the Air Force had done something to catch up with it. For the first time, the 6500 Air Force ROTC Scholarships include the 2-year program, for both men and women. If you can qualify, the Air Force will pay for the remainder of your college education. Not only do ROTC 2-year college scholarships cover full tuition, but reimbursement for textbooks, lab and incidental fees, as well as a tax-free monthly allowance of \$100.

To cash in on all this just apply, qualify, and enroll in the Air Force ROTC at UNC. Call **TSGT. Greenlee, Lenoir Hall, UNC at 933-2074**. It's a great way to finish your college education in the money, and enjoy a future where the sky's no limit... as an officer in the Air Force.
