

Campus Calendar

Today's Activities

Any candidate wishing to withdraw from the upcoming student elections must do so by 5 p.m. today.

Annual Feasting costume festival, 8 tonight, American Legion Hall. Live German music by 35-piece band, cabaret entertainment and all the beer you can drink. Tickets, \$2, may be purchased at 438 Dey or at the door.

CGA coffee house from 8 to 12 tonight, Newman Center, 218 Pittsboro St. Everyone invited.

Buy a Yack today in Suite D from 1-5 p.m., and you may win a State ticket. Yacks are \$5.

Second annual Black Health-Oriented Festival, 8 tonight, Great Hall, Union. Semi-formal; entertainment by New Cavaliers Band and BSM Ebony Readers. Student couples, \$5; student singles, \$3; other couples, \$10.

Graduate Fellowship of Baptist Campus Ministry will have its TGIF meeting, 6:30 tonight, Battle House. After a potluck supper, the group will see "The Miracle Worker."

Veteran's Club will have a party 7:30 tonight. Members and prospective members are invited to attend. Come by the Veteran's Office in Hanes for details.

LDSSA will present the film, "Ancient America Speaks," 7:30 tonight, Day faculty lounge. Public invited.

Statistics colloquium: Dr. B.L. Joiner, University of Wisconsin. "Designing Experiments when Time Order is Important." 3 p.m. today, 247 Phillips. Refreshments, 2:30, 316 Phillips.

Bag lunch seminar with Dr. Christopher M. Wood, African Medical Research Foundation, today, 406 University Square. African Interest Group members and faculty invited.

Community Blood Assurance Plan sign-up and tentative blood typing 10 a.m. to 2 p.m. today, Union lobby.

Upcoming Events

Astronomy Club will meet 8 p.m. Sunday, room 302, Mountsides Planetarium, for a lecture on the universe's origin.

Baptist Student Union will meet 8 p.m. Sunday, Battle House for supper (\$1.25) and ice skating. Everyone invited.

Mandatory meeting for all new prospective Undergraduate Court members 7:30 p.m. Sunday, room 217, Union. A test on "Instrument of Student Judicial Governance" will be given.

Items of Interest

UNC Parachute Club will hold classes from now until the end of the semester. Call 829-8837 after 7 or write Box 8, Union.

UNC Crew Club announces the opening of the TANK, behind the archery targets by the outdoor track at Fetzer Field. Open 4:30 to 6:30 Mon. through Thurs; 3 to 5 Fri. through Sat.; 4 to 5 Sat.

Sign up by Feb. 28 in the Y-office to run for YM-YWCA offices.

Professional and Administrative Career Examination will be given March 22. Seniors and graduate students seeking federal government work come to 211 Gardner now.

Foreign studies forms available

by Elizabeth George
Staff Writer

Applications are now available for foreign study programs in Germany, Spain and Puerto Rico for the 1975-76 academic year and for England this summer. The UNC program in France has been suspended for one year.

Campbell gets AWS endorsement

Although only seven women attended Wednesday's meeting of the Association of Women Students (AWS), the group endorsed Cole Campbell in his race for editor of the *Daily Tar Heel*.

Other candidates present at the meeting were Elliott Warnock, Bernie Day and Don Baer and Harriet Sugar. The only other candidate for editor, Tom Wright, did not attend.

Forms for study at the University of Puerto Rico and the University of Gottingen, Germany, can be picked up at the International Student Center in Bynum basement. The return deadline is Monday, and interviews will be held March 1. Part of the interviews will be conducted in German or Spanish.

Forms for the program in Seville, Spain,

can be obtained in 239 Dey. Deadline for return in March 15, and no interviews will be conducted.

Students interested in studying in London this summer should see Dr. Gerald Unks in 201-E Peabody or 314 South Bldg. or Dr. Christopher Armitage in 533 Greenlaw.

Forms can be obtained in 202 Abernathy. No scholarships are available for the

program in Spain. Total costs, including tuition, travel and lodging, are approximately \$2,050 for instate students and \$2,950 for out-of-state students.

Basic criterion for these three foreign language study programs is a strong working knowledge of the language.

The program in England, set up this year by Armitage and Unks, costs approximately \$963. Sixteen students have signed up, but Armitage said he hopes to take at least 40.

Students will leave May 13 from Washington and return either June 12 or June 27. Classes taught by Armitage and Unks, including English 58, English 95, Education 41 and Education 105, will begin May 15 and end June 12.

Housing and classes will be in a London hotel. The total cost includes UNC tuition, round-trip plane fare, tickets to two plays in London, a tour of Stratford-on-Avon, a ticket to a Royal Shakespeare Company production there and lodging and breakfast for the 31 days of study.

The academic year for the exchange to the University at Gottingen, which takes two UNC students, begins in early October and ends in late July.

The University of Puerto Rico takes one UNC student, and its academic year begins in September and ends in May.

The UNC Year at Seville program accepts approximately 20 students. Classes start in September and end in May.

Phillip Berrigan to speak here

Anti-war activist Father Phillip Berrigan will be in the Chapel Hill-Durham area March 18 and 19 to speak to local anti-war groups.

Mary Winne Johnson, a member of the Women's International League for Peace and Freedom, said tentative plans have been made for a potluck dinner for Berrigan at the Friends Meeting House on the evening of March 19.

Johnson said final plans for Berrigan's visit will be announced soon.

Hewlett-Packard introduces a smaller uncompromising calculator: the HP-21 Scientific.

\$125.00*

Now \$125.00 buys:

More power than our HP-35. 32 pre-programmed functions and operations vs. 22 for our HP-35. The HP-21 performs all log and trig functions, the latter in radians or degrees. It's our only calculator short of the HP-45 that lets you:

- convert polar to rectangular coordinates, and back again ($\rightarrow P, \rightarrow R$);
- do full register arithmetic ($M+, M-, M \times, M \div$);
- calculate a common antilog (10^x) with a single keystroke.

The HP-21 also performs all basic data manipulations ($1/x, y^x, \sqrt{x}, \pi$) and executes all pre-programmed functions in one second or less. In sum, it's designed to solve tomorrow's problems as well as today's.

Smaller size. 6 ounces vs. 9 ounces for our HP-35.

Full display formatting. The display key (DSP) lets you choose between fixed decimal and scientific notation and lets you control the num-

ber of places displayed. (The HP-21 always uses all 10 digits internally.)

If a number is too large or small for fixed decimal display, the HP-21 switches automatically to scientific. It never confuses a smaller number with zero.

Finally, if you give the HP-21 an impossible instruction, the Display spells E-r-r-o-r.

RPN logic system. Here's what this unique logic system means for you:

- You can evaluate any expression without copying parentheses, worrying about hierarchies or re-structuring beforehand.
- You can solve all problems your way—the way you now use when you use a slide rule.
- You solve all problems—no matter how complex—one step at a time. You never work with more than two numbers at once.
- You see all intermediate answers immediately. The HP-21 executes each function immediately after you press the function key.
- You can easily backtrack when you err. The HP-21 performs all operations sequentially.

You can re-use numbers without re-entering them. The HP-21 becomes your scratch pad. H-P quality craftsmanship. One reason Nobel Prize winners, astronauts, conquerors of Everest, America's Cup navigators and over 500,000 other professionals own H-P calculators.

Your bookstore will give you a demonstration today. Challenge our new HP-21 with your problems. See for yourself how much performance \$125.00* can buy. If your bookstore doesn't have the HP-21 yet, call us at 800-538-7922 (in Calif. 800-662-9862) for the name of a dealer who does.
