How to get through 4 years of college on 31 gallons of gas.

The Motobecane Motorized Bicycle.

It gets up to 170 miles to the gallon. So, if you figure you travel on campus approximately 5 miles a day, and you're in school 9 months out of the year, the Motobecane Motorized Bicycle will take you right up to graduation on just 31 gallons of gas. What's more, you pay as little as \$335 for a Motobecane. No doubt about it, a Motobecane Motorized Bicycle is the most intelligent way there is to get through 4 years of college.

Test drive a Motobecane at:

Open Road, Inc.

Symposium topic

The Symposium Interim Committee chose "The Future of America: Problems and Potentials" as the topic for the 1976 Carolina Symposium at its meeting last Thursday night.

The topic, proposed by Don Baer and Robert Pharr, completed a week of study by the committee.

The selected topic will examine long-range possibilities for the country's future in six categories: science and technology, social needs, the environment, government and politics, man's socialization and the arts.

Pharr and Baer proposed a program of speakers, panel discussions, displays and entertainment with continuing development of the theme throughout the spring semester.

In their written proposal, they said a well-known speaker would start the examination of each of the six categories. They said authors Alvin Toffler and Charles Reich and anthropologist Margaret Mead might serve as opening speakers for the "Socialization of Man" session.

The committee said a sign-up sheet for interviews for chairman of the symposium will be available at the Union desk. Interviews will be held beginning 6:30 p.m. Tuesday.
