YOU COULD BE WALKING AROUND WITH A CASE OF IDEALISM AND NOT EVEN KNOW IT.

You find yourself humming along as the National Anthem is being played. You haven't missed voting in 12 years. Somebody knocks free enterprise and you instinctively defend it. Nothing to be afraid of or ashamed of—you're an idealist. And today America needs more and more of you.

We at Burlington Industries believe that the attitudes and emotions that made American freedom and the free enterprise system work need a revitalization. Good old idealism could use a revival.

So examine yourself. See if you have any idealistic symptoms. An epidemic of idealism led to this country's birth—and it's just about time for another outbreak.

Today, America needs
all the idealism she can get.
