editors

"I became a little more respectable towards the end," Wallace says.

Bob Morrison, former editor of the *Newton, N.C. newspaper* and now a real estate agent in Charlotte, ran against Wallace in 1945. He won, he says, even though Wallace had the staff endorsement and more journalistic experience.

"Jimmy held every position on the paper except editor, I think," Morrison says.

But, he continues, he probably won because he was not as liberal as Wallace, and his party ticket, the University Party, was stronger that year than Wallace's.

"I'm not sure that not receiving the staff endorsement wasn't a plus for me," Morrison explains. "They (the staff) weren't highly regarded that year, and their endorsement was almost the kiss of death."

But it was the personal contacts, the campus-wide exposure and the number of

campaign workers a candidate had that really made a difference in who won, he explains.

The influence of the *Daily Tar Heel* was felt all across campus, Morrison says, adding that it was a good vehicle for investigative reporting.

"I have mixed feelings on this one, but we began ferreting out fascists on the faculty and found one," he says.

"Today it would be like going back to find all the judges who were members of the Ku Klux Klan, but that was the temper of the times."

The editor does have power and is an influential person on campus. But the campaign for editor is not all fun and glory, nor is it easy, especially if you lose in the end, Don Baer says. Baer, who now works for Vice Chancellor Douglass Hunt, ran as coeditor with Harriet Sugar in 1974 and lost.

He says that few people realize the mental and physical toll that campaigning takes on a candidate.

"There's a tendency to get caught up in the fever of the campaign, and you tend to lose your judgments about people and situations," he explains.

Little has really changed about the editor's race. Posters with impressive pictures of the candidates and their wise campaign slogans are still plastered across the campus. Candidates continue to go door-to-door, talking with students to rake in the votes. Power, influence and vanity remain in the thoughts of past editors. Even Campbell, who says he no longer reads the *Daily Tar Heel*, still thinks about the editorship and the paper.

"If I was editor in 1977, and was as young as I was in 1941-42, there's no damn telling what I'd do."
