### After attempted coup

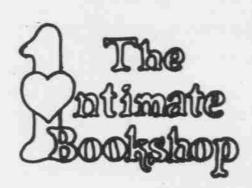

# Amin begins purge

NAIROBI, Kenya (UPI)-Plans to a colossal scale since the regime kill Uganda's President Idi Amin three weeks ago on the sixth anniversary of the coup that brought him to power have backfired, and a new purge is being carried out in the stormy East African nation, news reports and Ugandan exiles said Sunday.

The Observer newspaper in London said more than 100 persons have been killed and others arrested in the past week. Diplomatic sources and other news reports all confirmed there has been unrest in Uganda, but there was no immediate confirmation of many of the details of the Observer's story.

Ouoting a Ugandan source, the Observer said, "Everything points to the greatest single campaign of massacre on

Contacted independently, exile sources in East African capitals said there had been an attempted coup against Amin and a subsequent purge.

In a story prepared for publication Monday, Nairobi's Nation newspaper said 35 civilians died Friday in northern Uganda, and Amin arrested 35 noncommissioned officers who government demanded a reorganization.

The London report was by the Observer's African correspondent David Martin, has close contacts with former Ugandan President Milton Obote and other Ugandan exiles. He also reported a group of Ugandan officers was arrested or killed.

The Nation said the civilians, all members of the Acholi and lango tribes. were killed in the northern Uganda towns of Gulu, Lira and Apac. Fifteen bullet-riddled bodies were found

### King report not conclusive

SEATTLE (UPI)-Atty. Gen. Griffin Bell said Sunday a still-secret Justice Department investigation does not rule out the possibility there was a conspiracy to assassinate Martin Luther King.

"I have read the special report the Justice Department had on the assassination of Dr. Martin Luther King and there are some questions that are still unanswered," Bell said.

Asked if it ruled out the theory that convicted assassin James Earl Ray was part of a larger conspiracy in the 1968 assassination of the civil rights leader, Bell said, "I think if you read the report you could lean to either side on it. You could say there is no evidence of a conspiracy or still wonder there was-that there had to be a conspiracy.

"That's one reason I want to release the report. I want everybody to be able to read the report and make up their own minds on it," Bell said.

Bell noted the study was centered on the FBI and its conduct in the assassination investigation- not on the ultimate question of who else might have been involved in the
