Coming or going? Caught late in the day, this girl strolls along one of the brick walks on campus. The winter sun makes it hard to tell whether she is traveling up or down the brick path.

# U.S. grants plea for emergency aid to Zaire

KINSHASA, Zaire (UPI)—Zaire hinted Tuesday that Cuban troops were part of a force invading the former province of Katanga and asked for U.S. help. The United States called the request justified and sent \$1 million in emergency military aid.

Zaire's government-controlled news agency said the invaders who attacked from Angola last week and captured several towns were "led by other mercenaries from across the Atlantic and supported by a third country for the needs of ideological conquest."

The report did not mention Cuba by name. But an estimated 10,000 Cuban troops remain in Angola from a force of some 14,000 that helped the Marxist faction of Angolan President Agostinho Neto win a bloody civil war and control of the former Portuguese colony last year.

In Washington, the State Department said it could not confirm that Cubans were among the invading force and that the speedy U.S. compliance to Zaire's request for military aid was not necessarily an endorsement of Zaire's claim that the invaders were "mercenaries."

"We have no confirmed, solid evidence that there are Cubans involved in the invasion force," State Department spokesman Frederick Z. Brown said. He added, "We have no solid evidence that they (the invaders) have support from Angola."

"The request is justified...and our information about the situation in Zaire is sufficient for us to make a favorable judgment on the request," Brown said.

A Pentagon spokesman said a DC8 carried fuel, communications equipment, parachutes, back packs and military rations as well as medical supplies. A second chartered plane will leave for Zaire later this week with spare parts for U.S.-made Hercules C130 aircraft used by Zaire's air force.

## Reorganization on way

WASHINGTON (UPI)—President Carter's plans for reorganizing the federal bureaucracy passed a pivotal test Tuesday

## news briefs

when a House subcommittee unanimously approved a compromise proposal.

The compromise, offered by chairperson Jack Brooks, D-Tex., of the parent House Government Operations Committee, apparently assured congressional approval.

It ended a standoff between the administration and Brooks, who opposed the one-house veto provision Carter included in his proposed reorganization authority.

## House gets new post

Richard M. House has been appointed director of continuing education for the School of Public Health.

House, who has been acting director since July 1976, will head the continuing education unit in the division of community health service.

The continuing education unit sponsors more than 100 programs each year in coordination with the school's faculty and numerous organizations throughout the state. More than 5,000 public health professionals annually attend these courses, workshops and conferences.

## Hijacker goes to U.S.S.R.

TURIN, Italy (UPI)—The Italian hijacker of a Spanish jetliner headed for the Soviet Union Tuesday night under the mistaken impression Moscow has no diplomatic ties with Spain and thus may let him go free.

Earlier in the long saga which took him to Africa, Italy and Switzerland, Luciano Porcarie had said he might finish up in Moscow because "there they have no relations with Spain, so they would certainly let me go."

## Teamsters fund in limbo

WASHINGTON (UPI)—The government obviously has enough evidence

of wrongdoing to place the \$1.4 billion Teamsters Central States pension fund into receivership, a congressional subcommittee chairperson said Tuesday.

Rep. Sam Gibbons, D-Fla., said his House Ways and Means oversight subcommittee wants to ask the Labor Department why it has spent nearly two years negotiating with the Teamsters when there seems to be evidence to justify strong legal action against the fund.

Gibbons acknowledged, however, that his question may go unanswered because Labor Secretary Ray Marshall has refused to testify. Marshall declined to appear Tuesday because the subcommittee wouldn't guarantee him a private hearing.

Rep. J. J. Pickle, D-Tex., a subcommittee member, said Marshall's refusal "makes a mockery of the open and responsive government" promised by President Carter.

The government has investigated the Teamsters' biggest pension fund since November, 1975.

## Senate honors Haley

WASHINGTON (UPI)—The Senate Monday passed a resolution paying tribute to Alex Haley "for his exceptional achievement in producing Roots."

The resolution, introduced by Sen. John Glenn, D-Ohio, passed by voice vote without dissent.

The resolution praised Haley's effort and said "individuals of all races have gained new

Alex Haley

insights into, and a better understanding of, Black Americans' on-going struggle for complete freedom and equality, both historically and at the present time."

Glenn said he introduced the legislation because the Ohio legislature had passed similar legislation on a state level and he felt the Senate should "express our entire nation's appreciation and gratitude."

## A career in law—without law school.

What can you do with only a bachelor's degree? Now there is a way to bridge the gap between an undergraduate education and a challenging, responsible career. The Lawyer's Assistant is able to do work traditionally done by lawyers.

Three months of intensive training can give you the skills—the courses are taught by lawyers. You choose one of the seven courses offered—choose the city in which you want to work.

Since 1970, The Institute for Paralegal Training has placed more than 1600 graduates in law firms, banks, and corporations in over 75 cities.

If you are a senior of high academic standing and are interested in a career as a Lawyer's Assistant, we'd like to meet you.

Contact your placement office for an interview with our representative.

We will visit your campus on  
**TUESDAY, MARCH 22**

## Pizza Hut threatens suit against town on impact statement

By JEFF COHEN  
Staff Writer

Pizza Hut may sue the town of Chapel Hill in an effort to obtain a building permit for its proposed restaurant at 112 W. Franklin St., according to Alderman Robert Epting.

Opponents of the proposed Franklin Street restaurant maintain that such an establishment would detract from the natural setting of Chapel Hill's main thoroughfare.

Epting said Tuesday the reason Pizza Hut is considering court action instead of merely submitting a required environmental impact statement is unclear.

According to Chapel Hill guidelines,

the Pizza Hut is guaranteed a building permit, regardless of the environmental impact statement it submits.

Pizza Hut representatives were issued a building permit earlier this year, but the permit was rescinded because of an appeal by Epting.

The Chapel Hill Board of Aldermen later passed an ordinance requiring building permits to be accompanied by environmental impact statements.

"The current law guarantees a permit after an environmental impact statement is received," he said. "We plan to change the law so that the building people can determine whether or not a permit should be issued, depending on the results of the statement."

Epting said he expects the law to be changed at a public hearing set for March 24.

Epting said that Bob Page, the attorney representing Pizza Hut, balked at submitting an impact statement, maintaining the action would only delay

the issuing of a building permit.

"The delay would probably be only 30 days, and possibly 90 days, if an impact statement is submitted," Epting said.

"Yet, by getting tied up in the courts, the delay will be at least one year. It doesn't make sense."
