

COME TO THE STUDENT STORE AND MEET HEWLETT-PACKARD'S FIRST FAMILY OF CALCULATORS.

The HP-21 Scientific – More power in a smaller case.

The HP-21 performs 32 preprogrammed functions and operations, including logarithms, trig calculations and rectangular/polar conversions in either degrees or radians, and exponentials. Full display formatting allows you to choose between fixed decimal and scientific notation.

The RPN logic system tackles even the most complex problems efficiently and gives you continuous and immediate feedback. Combine the HP-21's capability with its low cost, and you have a price-performance ratio that's simply unbeatable.

\$80.00

Comprehensive applications book is available at \$10.00.

Are you considering the purchase of your first personal calculator . . . or are you planning to move up to a more advanced model?

Either way it's important that you select a calculator that not only can solve the problems you're facing today, but can also solve the problems you're likely to face tomorrow . . . in the days, months, and years ahead.

Hewlett-Packard calculators are hailed as the First Family worldwide—by Nobel Prize winners, USA-USSR astronauts, explorers, educators, scientists, businessmen, students. This means you're assured of the best in design, performance, reliability and support. Examine Hewlett-Packard's First Family and you can see for yourself.

The HP-25 Scientific Programmable

The HP-25 offers 49 steps of keystroke programmability with merged prefix and function keys, single step editing, conditional tests and a pause function. You also get log and trig functions, coordinate conversions, statistical summations, and eight addressable memories.

The new HP-25C with Continuous Memory

The new HP-25C is identical in every respect to the popular HP-25 featured above—with the added advantage of Continuous Memory.

Continuous Memory enables the HP-25C to retain your programs and data even when it's turned off. There's never been an HP Scientific Programmable Calculator like it before.

HP-25 \$125
HP-25C \$160

A comprehensive applications book is included with either calculator.

The HP-22 Business Management – For planning, forecasting, and decision analysis.

The HP-22 places an ideal combination of financial, mathematical and statistical functions right at your fingertips. With it you can easily perform everything from simple arithmetic to complex time-value-of-money computations. You can even handle planning, forecasting, and decision analysis. And you can approach business problems in a variety of ways to arrive at intelligent decisions and recommendations based on facts.

The HP-22 gives today's business manager the calculating power he needs at a price he can afford.

New low price \$125.00

An applications section is included in the HP-22 Owner's Handbook.

The new HP-91 Scientific Printing – A totally new dimension in scientific printing calculators.

The new HP-91 Scientific Printing Calculator provides you with a full range of scientific and arithmetic functions—complete with a printed record—all in one compact calculator. And because the HP-91 prints and operates on AC or its own built-in batteries, you can use it almost anywhere.

The HP-91 also features an extra-large display, three display notations, and a buffered keyboard—in a package so small it will fit into a standard briefcase. And you have about the same preprogrammed functions as the widely-used HP-45 pocket calculator (plus expanded statistics)—with the added advantage, of course, of a printed record of all your calculations.

A comprehensive applications section is included in the HP-91 Owner's Handbook.

\$325.00

The new HP-67 Fully Programmable – Exceptional programming power and ease of use.

Begin using the HP-67 immediately with prerecorded program cards. Or write your own programs—the calculator remembers up to 224 steps, and each function takes only one step of program memory. You also have 26 addressable storage registers, three levels of subroutines, 10 user-definable keys, 10 conditional decision functions, four flags, indirect addressing, relative addressing, and addressing to labels. The "smart" card reader even records data or programs on magnetic cards. The HP-67 gives you shirt-pocket portability along with the exceptional programming power and ease of use you need to solve problems in business and science.

\$450

Standard Applications Pack of prerecorded cards is included, along with blank magnetic cards for your own programs.

Choose your second calculator first.

It makes good sense to choose a professional Hewlett-Packard calculator first for its usefulness. You'll save money by eliminating the cost of a compromise calculator. And you'll have all the versatility and power you need to make short work of those tough, professional problems you face in college and beyond.

Free HP Selection Guide to help you choose.
