Shower

Spi Phi

Lehouck

Stuffed shower... Why would 18 mature young people cram themselves into a shower designed for one?
It was fun with a purpose when the sixth floor of Hinton James held a shower-stuffing contest Tuesday night as part of a program to dramatize the water shortage. Bulletin boards and signs in the suites also are part of the program, according to James

Alexander, James sixth-floor co-chairperson.
One team crammed 17 students into the shower; the winner stuffed 18 into it.
Safety rules restricted the contest slightly; everyone in the shower had to have his feet on the floor.
And if anyone really wanted to shower

with a friend, he had to wait until later: no water could be turned on during the contest.
Interfraternity espionage? Spi Phi has been meeting in Teague Dorm, but not to discover secret rush plans of the Greeks on campus.

The group consists of 15 to 20 men and 10 to 12 women who didn't feel that they were a part of the fraternity system, explained Spi Phi Core Group member **John S. Austin**.
The Spi Phi Core Group is the fraternity's governing body and replaces the hierarchy of the typical fraternity, Austin said.

The Spi Phi Core Group consists of **Wayne Ross, Roger Dean Carter, Daniel Owen Shackelford, J. Haskell Fair** and Austin.

The group is writing a charter, Austin said.
Perhaps the Greek system will have a new member in the near future.

Great grades for Greensburgers... Two Greensboro residents have distinguished themselves and their hometown.

Robert "Gus" Lehouck is president of the UNC chapter of Phi Beta Kappa, the nation's highest scholastic honorary.

Allen Maness is vice president. Both positions are awarded to the students at UNC with the highest quality point averages.

They never plotted back in Greensboro to take over Carolina's Phi Beta Kappa chapter, said Maness, a graduate of Page High School. "I'd never laid eyes on him (Lehouck) before the ceremony."

But their lives have run along similar channels since they arrived in Chapel Hill. Lehouck, a graduate of Dudley High School, is double majoring in political science and psychology. So is Maness. Both want to go to law school, if their law boards are good enough.

"We're taking the test the same day, if that means anything," Lehouck said.

Powell offers apology to Sen. Percy

WASHINGTON (UPI) — White House press secretary Jody Powell Wednesday gave Sen. Charles Percy the apology he demanded, but told reporters the baseless, desecrating news "tip" he circulated about Percy was meant to be "just between you and me."

Meantime, the reporter who got Powell's original Percy tip said the press secretary, in private, had called the Illinois Republican senator "a sanctimonious S.O.B."

Amid furious reaction from congressional Republicans, Powell disclosed he had telephoned his apology to Percy about the news tip incident and confessed to President Carter that his attempt to spread a rumor about Percy was "inappropriate, regrettable and dumb."

He acknowledged that he had telephoned L.oye Miller, Washington bureau chief of the *Chicago Sun-Times*, on Tuesday to suggest Miller "check out" reports that Percy used the aircraft and other facilities of a private corporation and a bank without reimbursing the firms.

Percy is the ranking Republican of the Senate Governmental Affairs Committee that is investigating the financial affairs of White House budget director Bert Lance. He

said Powell's allegations were without "a shred of truth" and demanded an apology.

Mark Rudd arraigned

NEW YORK (UPI) — Mark Rudd, the ideological leader of the Weatherman radical group, ended seven years of hiding Wednesday by voluntarily surrendering to face a variety of misdemeanor charges growing out of student protests during the 1960s.

Rudd, 30, turned himself in at the office of Manhattan District Attorney Robert Morgenthau shortly after 9:25 a.m., accompanied by his attorney Gerald Lefcourt.

He was arraigned later in Manhattan Criminal Court on misdemeanor charges of bail jumping, obstructing governmental administration, criminal trespass, unlawful assembly and criminal solicitation.

After expressing some doubts, Judge Milton Williams released Rudd without bail for a hearing scheduled Oct. 13. Rudd said nothing throughout the hearing while both prosecution and defense attorneys argued for his release.

Assistant District Attorney Nancy Ryan called his release "reasonable" risk while Lefcourt assured the judge that Rudd

"definitely wants to see the charges through."

Breast cancer

WASHINGTON (UPI) — A leading cancer specialist said Wednesday X-rays offer the first real possibility of reducing the death rate from breast cancer, but a government researcher warned the radiation risk might outweigh the benefits for some women.

The pros and cons of breast X-rays were debated at the opening of a three-day meeting sponsored by the National Institutes of Health to evaluate the benefits and risks of the mammograms when used to search for breast cancer in women without symptoms.

Dr. Benjamin Byrd, chairman of the American Cancer Society task force on breast cancer, said mammography is the first significant modern advance in the early detection of breast cancer, when doctors say it can be treated most successfully.

But Dr. John Bailar, an epidemiologist and editor of the *Journal of the National Cancer Institute*, reiterated his view that even though radiation doses have been reduced considerably during the past two years he believes radiation emitted during the exams might cause some cancer later.

Carolina clean bikemachineways!

TOGETHAH!

That's right! Carolina Bikeways and the Clean Machine have merged. The result is more choice and more stock, which means less waiting for the bike you want.

We have everything from 16" Schwinn

for 3-year olds to \$1000 Italian hand-made racing bikes. And we have them in stock, right now!

There isn't a bike you could want that you couldn't get from Carolina Bikeways or the Clean Machine.

The Complete Bicycle Shop(s)!

Why not the Best?

TX-4500 Quartz Locked AM/FM Receiver 55 Watts per channel, Min. RMS, at 8 ohms from 20 Hz to 20 kHz with no more than 0.1% Total Harmonic Distortion.

The Onkyo TX-4500 is the best receiver you can buy for under \$500.

Spec for spec, dollar for dollar, feature for feature, the TX-4500 beats the knobs off the competition.

Take the FM tuning. While finding a station on most receivers is an exercise in approximation, the TX-4500 is a demonstration in perfection. You don't need the hands of a safecracker to tune in a station on the TX-4500. Inside the TX-4500 is something called Quartz Locked Tuning. Only Onkyo has it. When the prestigious Hirsch-Houch labs tested the TX-4500, they found it was "...literally impossible to have the slightest mistuning..."

The amplifier is just as superb. It glides through tests where others squeak, crawl or crash completely. Hirsch-Houch labs sum it up: "Over the years we have found that most competitively priced receivers are fairly equal in their overall performance characteristics. It appears to us that the Onkyo TX-4500 may be just a little more equal than its peers, so to speak..."

But hearing is believing, right? So test-listen the Onkyo TX-4500 at Atlantis Sound. Here at Atlantis, we can match the Onkyo with your choice from the largest selection of speakers and turntables in the Triangle area. You can't beat our prices either. Or our service. Or our guarantees.

Check out the Onkyo TX-4500 at Atlantis Sound, and find out why we're the best.
