name talent the same weekend.

Almost everyone is familiar with the unique harmonies and disharmonies that characterize the CSN trio. Minus Neil Young, their introspective Canadian friend, this is the group that cut an album in 1969, thrilled us at Woodstock and then split up.

They reunited a year ago, produced *Crosby, Stills and Nash* in May and have been touring since.

Weather Report will dazzle Carmichael audiences Friday with their sophisticated blend of jazz, rock, funk and classical music. The basic dynamic in Weather Report's history, which has produced seven albums, has been the continually evolving relationship between co-leaders Wayne Shorter and Josef Zawinul, both as composers and musicians.

Gary Burton, a master on the vibraphone, has cut 19 albums. His four-mallet mastery of the instrument has changed the world's concept of the technical and musical possibilities of the vibes.

Burton first achieved national prominence as a featured soloist with George Shearing and Stan Getz. He formed the Gary Burton Quartet in 1967 and expanded to a quintet in 1974.

Count Basie and Ella Fitzgerald certainly need no introduction. Their famous sounds have been heard all over the world for years.

Nightshift, a band composed of outstanding musicians from several defunct local bands, will make their debut Friday.

Nightshift features "Grateful Eddie" Ibarquen from Southwing on lead guitar; Tim Hildebrandt from Heartwood on rhythm guitar and vocals.
