# Committee to withdraw non-student challenges

By PAM KELLEY  
Staff Writer

The 22 Orange Committee members who challenged the eligibility of more than 6,000 Orange County voters are planning to withdraw the challenges made erroneously against persons who are not college students.

Stewart Barbour, a member of the Orange Committee, said he will withdraw the erroneous challenges even though he has not verified the number of challenges made in error.

## Three CGC seats vacant; runoff election to be held

By DINITA JAMES  
Staff Writer

Three CGC electoral district seats are still open and will be filled in a special runoff election March 29.

Districts 4 and 6, graduate districts and District 19, an off-campus district, still do not have representatives because no candidates filed for the seats.

Three petitions were returned for the six seats in the graduate districts. No candidates ran for the other three seats and the top vote-getting write-in candidates were contacted and asked to participate in a run-off election for those seats.

In district 4, Preston Fogle and Weldon Jordan will meet in the run-off election. Coin Page and Van Donaldson, the leading write-in candidates in District 6, are ineligible to serve because they live outside the district. Bruce Mann, the third write-in candidate, declined to run in the election.

Bob Saunders, elections board chairperson, said petitions for District 6 are available in Suite C Carolina Union. "We would really like for someone to pick up a petition," he said. "If not, we'll have to have write-ins, and that will mean another run-off and additional delay."

In District 19, Brad Lamb, a write-in candidate has decided to participate in the run-off. The other write-in candidate, Doug Davis, has not yet been contacted.

Mark Adams, president of the Graduate and Professional Student Federation, said he is disturbed by the apparent apathy in the graduate student voting districts.

"Overall, I think it is a negative reaction to graduate involvement in the CGC," he said. "The grads look at it from the point of view that they don't want a position where they don't do anything. They all think that all that is done on the CGC is argue. It's really different now, though. Attitudes have changed."

The hiring of Jaworski's firm must be approved by N.C. Attorney General Rufus Edmisten and Gov. Jim Hunt.

Dawson said Sunday that UNC would consider some sort of countersuit against the fund cutoff only as a last resort.

UNC's previous desegregation plan, along with those of five other states, was ruled inadequate by U.S. District Judge John H. Pratt in July 1977. Pratt ordered HEW to withdraw federal

funds if the six university systems failed to draft a new desegregation plan suitable to HEW.

Of the six original states named in Pratt's decision — Georgia, Arkansas, Florida, Oklahoma, Virginia and North Carolina, only the UNC system failed to reach an agreement with HEW.

HEW accepted Friday the Virginia desegregation plan, which contains provisions for the elimination of program duplication in black and white institutions.

Regulatory Commission approval Jan. 27. When completed in 1990, the four-reactor plant will be the largest in the world and have a 3,600-megawatt generating capacity. The plant's first reactor is to begin operation in 1984.

Approximately 150 people gathered at the construction site 20 miles from Chapel Hill to watch the balloons float northeast on the prevailing wind toward Apex and Raleigh.

"Our other objective was to arrange a nice Sunday afternoon outing so our people could meet each other," said Jim Overton, Chapel Hill organizer for the Kudzu Alliance.

that was current through September 1977. He said the error could be attributed to the time lag between September and earlier this month when the challenges were filed.

Barbour said he suspects the challengers compared a campus telephone directory to the voter registration list to determine which voters were college students. "Perhaps some of the adults erroneously challenged are taking courses at the University and had their names in the campus directory," he said.

The N.C. Board of Elections had issued guidelines to the Orange County Board of Elections suggesting methods to speed up processing of the 6,000 voter challenges.

Barbour said the challenges were in response to a belief by some voters in rural Orange County that their wishes are being ignored at the ballot box.

"My vote has been taken away from me," Barbour said. "My ballot has been destroyed. My ballot has been diluted and water-down by transient students."

## Voter registration slated

Voter registration for the May 2 Democratic primary will be held this week at the Chapel Hill Municipal Building and the Carrboro Town Hall. New voters can register at either location Tuesday and Thursday from noon-8 p.m.

The deadline for registering is April 3.

Registration had been scheduled today at Woollen Gym and Saturday in Carrboro but registration those dates has been cancelled.

To register, persons must be residents of Orange County for at least 30 days. They must also complete a questionnaire under oath. Superior Court Judge James H. Pou Bailey has ordered that students must complete the forms in an effort to keep temporary Orange County residents from voter rolls.

Questions include:  
— What is your occupation?
