

Intramural championships decided in fall sports

As the fall semester draws to a close, numerous intramural activities are winding up play and in the past few days, champions have been decided in volleyball, Grail Mural basketball, tennis, racquetball, bowling and water polo.

The intramural office planned a wide variety of events and sports this fall and Ed Shields, director of intramurals, is happy with the participation this semester.

"I am pleased with the way things went this fall," Shields said, "and I look forward to getting things going next semester. We expect to have even more participation in the spring. The Association of Apartment Dwellers will be playing in the grad-independent division next semester. So, we are trying to reach those people in apartments and that in itself should cause the program to expand numberwise."

On the intramural fields and courts, the competition was keen as different sports titles were decided.

Ernest T. Bass beat the Free Radicals in the grad-independent division of the volleyball finals. Hinton

IMs & Clubs

By DAVID McNEILL

James stopped Diggin' Six for the co-rec recreational crown and the Ham Bolts beat Sudden Six in the ram's division.

In other volleyball finals, the P.E. majors beat the Kenan Set-ups in women's blue play, the James Jets slipped past the James 8-10 in women's white action and the Teague Syndicate topped the Stacy Cylons in the residence hall finale.

The Pleasant Pheasants, the grad students of the P.E. department, ousted Fred's Frogs, the P.E. undergraduates, in the championship game of women's Grail Mural basketball. The Dental Healers and the Hoopsters played for the men's title late Wednesday.

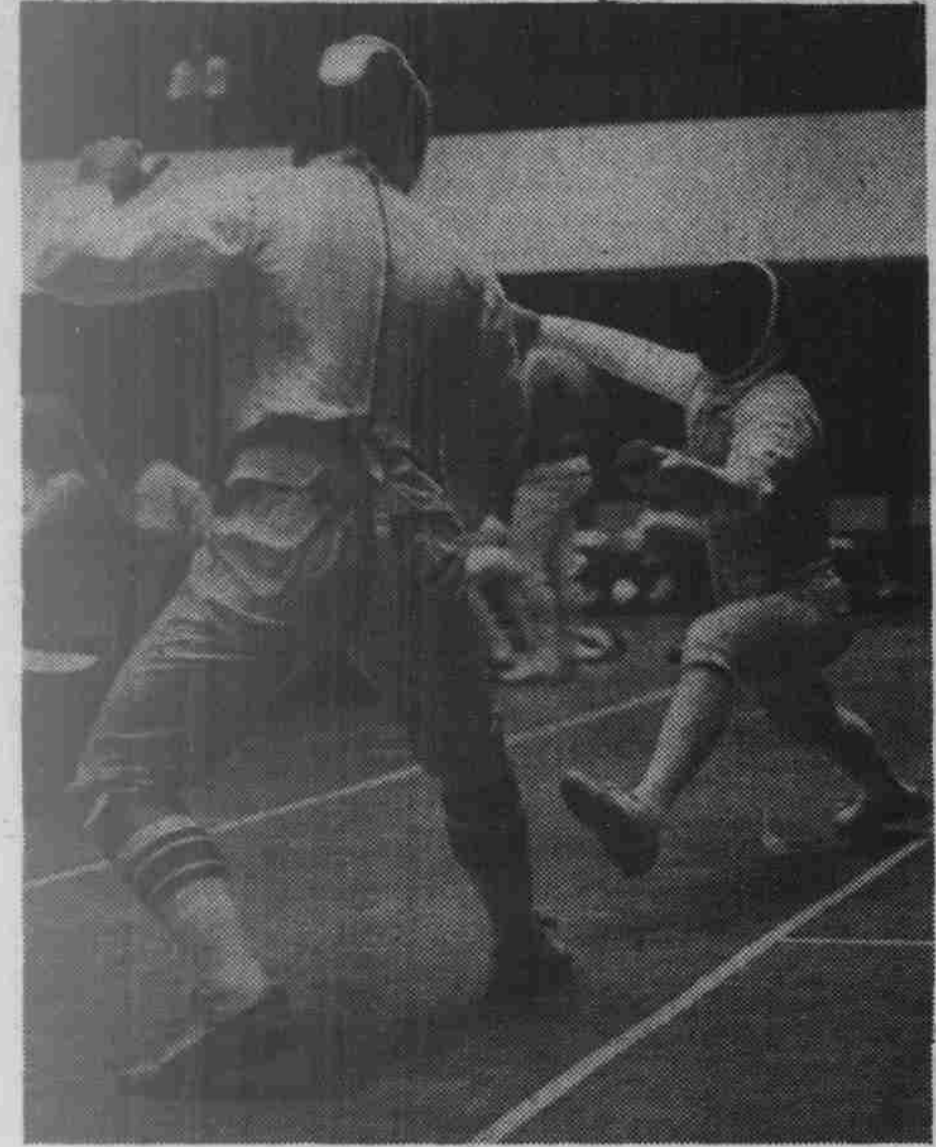

Keith Crouch won the men's recreational racquetball

title and Fran Williams captured top honors in the women's recreational group. David Hardison and Glenn Shefter took home first place in the men's doubles competition. Shefter will play Harrell Wood in the men's competitive finals.

In tennis play, Kenan took the women's white crown over Spencer and Cobb knocked off Granville East 1-3 for the women's blue title. The Chi Phis defeated Phi Delta Theta in the fraternity division and Stacy bettered the Granville CW Netters for the residence hall crown. Manly

won out over Delta Upsilon for the ram's championship and the Randoms stopped the Dental Aces to claim the grad-independent title.

The Morrison Pinbusters knocked down the Morrison ninth floor to win the all-campus bowling championship. Pi Kappa Alpha was victorious over the Dunkers in the finals of the all-campus innertube water polo action.

First home fencing meet is Jan. 20

UNC fencer Weil sets lofty standard

By JOHN FISH
Staff Writer

After earning All-America honors last winter as a junior, Tar Heel fencer Rich Weil has an even bigger goal for 1979.

"I have set my individual goal this year to win the national championship," Weil said. "Coach (Ron) Miller thinks I have a real good chance, too. It is in my grasp this year."

The senior from Fair Lawn, N.J., has been fencing seven years and gained All-America status last season by finishing sixth nationally in the sabre division. "That was the biggest thrill in my life," he said.

Weil and his Tar Heel teammates are just wrapping up a series of preseason exhibition dual matches and tournaments in preparation for a long and rugged schedule next semester. "I've had trouble concentrating throughout the matches so far," Weil said. "Right now that has been my major problem. I've been losing in key situations because of a lack of concentration. But I've been fencing real well."

Weil has been elected captain of the squad for the season, another honor he cherishes highly. But he also realizes the leadership responsibilities involved in the role of captain.

"They elected me captain, so they must look up to me for something, I like that," Weil added. What Weil's teammates see in the senior, whose nickname is Wild Man, is an exceptional fencer determined to set a leadership example by tough practicing. "I've been working real hard," he said. "I hope my example may cause some of the younger guys to work harder too."

Weil says he hopes the squad will continue working hard, because he has not forgotten the disappointment of losing to Clemson in last year's ACC tournament. It was the first time in eight years the fencers had failed to win the championship. "Everybody was out for us last year. I hope everyone remembers last season because I sure do. I have two plaques (ACC championships) and I really want to win one again," Weil said. But Weil says the season will be as difficult this spring as it was last year. He figures Clemson and Maryland to have very good teams because of strong recruiting.

"It causes us to work real hard since we don't recruit," Weil said. "A lot of teams have guys who have fenced for seven or eight years and most of our guys Coach Miller gets out of P.E. classes."

The disadvantage of not having prior experience in the sport hurts the squad sometimes, Weil said, but he is confident this year's squad will overcome the barrier. "It's a new sport to a lot of these guys but we have a lot of good athletes."

Pell outlines staff, begins recruiting

GAINESVILLE, Fla. (AP)—Coach Charley Pell approached his new duties as Florida football coach with typical hustle Tuesday, beginning to assemble a staff and recruiting new talent to revive the Gators as he did at Clemson.

Pell, named Monday to succeed Doug Dickey, announced the appointment of Dwight Adams as an assistant coach and Terry Don Phillips as administrative assistant for academic counseling.

Adams, defensive end coach under Pell at Clemson, is "an ex-Marine who is the only coach I've been associated with who can outwork me," Pell said. "We don't know yet what area he will coach here."

Phillips and Pell were assistants together at Virginia Tech three years ago. Pell also found out at the same time as reporters that his contract term is four years.

When President Robert Q. Marston opened a news conference, he was asked the length of Pell's contract.

"We hadn't really decided that," Marston said. Turning to Pell, he asked, "How about four years?"

"That's all right with me," Pell replied. He said his salary is about \$45,000 a year. Dickey, ousted last week, was getting about \$44,000 and will continue to collect it through April 1982.

"The University of Florida is one of the prime opportunities in the United States, both for football and academic standards," Pell declared. "My priorities are simple—attracting the top young people who demonstrate character and determination to be talented student athletes."

"With those qualities, I'm certain they will perform in a way that will make us very proud."

Pell said he doesn't know yet how many he will ask to join his staff, but he will keep Chris Patrick as trainer.

"We are going to do little things well. We're not going to put a roof on the building until we get the foundation built," Pell said.

Banks busts stall with 32

The Associated Press

Top-ranked Duke faced down a ferocious first-half stall Tuesday night and continued its winning ways with a 66-42 triumph over LaSalle in one of two games involving ACC teams.

Gene Banks led the Blue Devil attack with 32 points, and Coach Bill Foster had words of praise for him after what he called a strange game.

"Banks did a great job," Foster said. And the Blue Devil standout said the team kept its composure despite the stall that left the halftime score at a mere 12-6 in favor of Duke.

After LaSalle's stall in the first half, Duke came back with its running game and led by six with just over eight minutes to go. Banks then scored eight consecutive points to up the Blue Devil margin to 43-31.

The victory was sealed when the Blue Devils reeled off 11 straight points.

In the only other game involving an ACC team, Virginia downed Randolph-Macon, 99-60.

Garland Jefferson and freshman Jeff Jones hit career highs and Lee Raker tied his career best as the Cavaliers rolled over the Yellow Jackets.

Top Cavalier scorer Jeff Lamp was out of action because of a virus. But the stall was taken up by Raker, who scored 23 points. Jefferson with 20.

Tigers back Ford as new head coach

CLEMSON, S.C. (AP)—New Clemson football coach Danny Ford says his team has assured him it will not let the sudden Tiger coaching change affect its play in the Dec. 29 Gator Bowl against Ohio State.

"They accept the situation as it is," says Ford. "They're going to win because they are Clemson."

Ford was named by Clemson officials Tuesday to replace Charlie Pell, who announced Monday he was leaving to accept the head job at Florida, replacing Doug Dickey.

Ford, Pell's top assistant, said he and Pell would continue their relationship through the Gator Bowl.

"The situation is that Coach Pell and I will be working on the same relationship we were when he was head coach. I take over today (Tuesday) as far as recruiting and the football program at Clemson is concerned. He is still head coach for the Gator Bowl," Ford said.

"It's going to be two head coaches working together. I'll work with him as assistant head coach at the Gator Bowl. It's nothing that hasn't been done before."

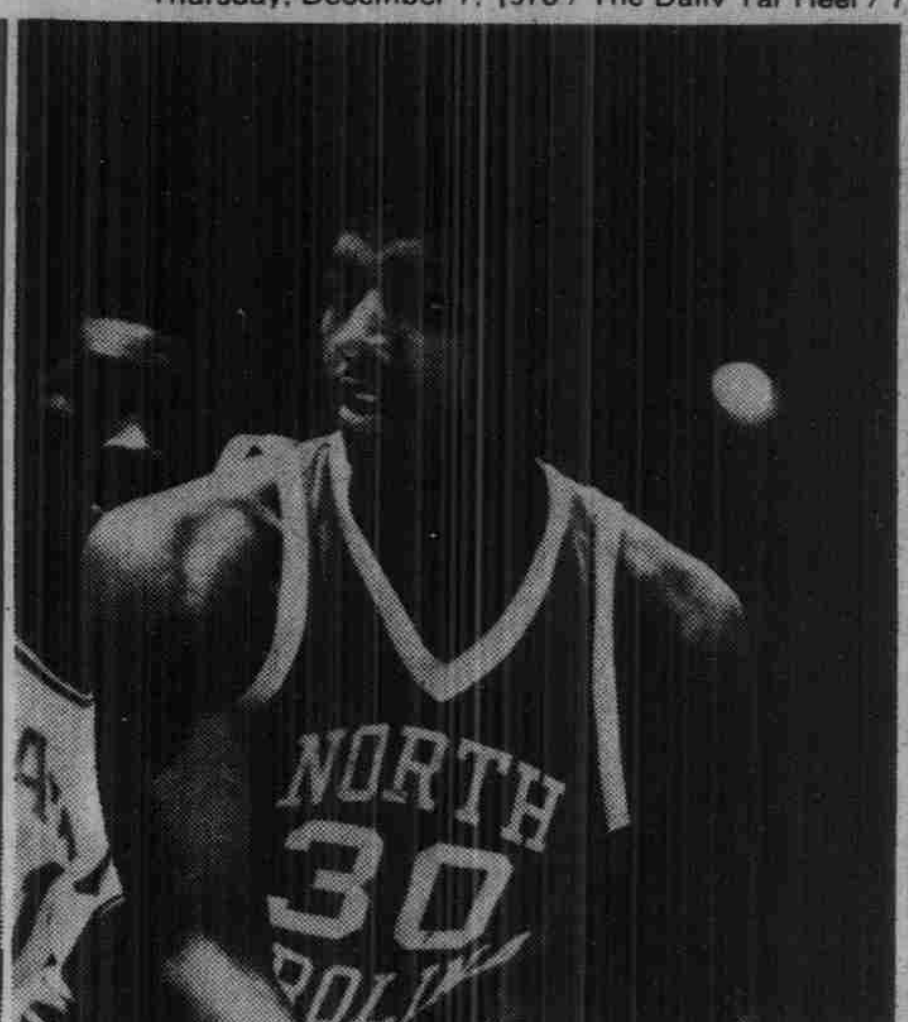

Ford said he would begin to assemble his staff of assistants in January, and that many of the present members would remain.

He said Clemson needs to have a good recruiting year. "Last year was a good recruiting year; the year before was not," said FORD. "So we're behind one recruiting year."

While the board of trustees was deliberating about its choice for a new coach, it was handed a petition signed by 73 players endorsing Ford.

The petition also said, in part, "Tiger fans need not be concerned with our Dec. 29 performance against Ohio State, for we guarantee it will be one of our better ones."

Ford, 30, a native of Gadsden, Ala., came to Clemson three years ago with Pell from Virginia Tech, where both were assistant coaches.

Olympic planners miffed locals might foot debt

LAKE PLACID, N.Y. (AP)—Organizers of the 1980 Winter Olympics are complaining of "persecution" and have angrily denounced federal officials for suggesting that local taxpayers may have to pick up part of the games' projected multimillion dollar deficits.

"We've contributed \$21 million worth of facilities. We've contributed our expertise...since World War II, we've contributed \$17 million toward hosting sports events," the Rev. J. Bernard Fell, executive director of the Lake Placid Olympic Organizing Committee, said Tuesday. "If that isn't a fair contribution, I've lost sight of justice."

And he expressed bitterness at press accounts of the Olympics' financial difficulties. "Blessed are the persecuted," he said. "Certainly persecution has become a part of things as far as our organizing committee is concerned."

The committee got some good financial news during the day, however, with the announcement that it had settled out of court a lawsuit that jeopardized its nationwide fund-raising operation.
