## Bill against letting drunks drive dies

RALEIGH (AP)—A bill that would create the offense of permitting a drunk to drive died Monday night at the hands of its own sponsor. Rep. George Hux, D-Halifax, made the motion to table—effectively kill—his own bill Monday night, and the House obliged, 91-22. The bill, which had won tentative House approval on a 70-40 vote Thursday, would make it a misdemeanor for a person who owns or controls a car "to cause or knowingly permit" a person who is under the influence of drugs or alcohol to drive. Violators would have faced automatic suspension of their own driver's license for one year.

## Farmers continue protest, slow traffic

WASHINGTON (AP)—About 200 tractors paraded under police escort to the Lincoln Memorial in a blinding snowstorm Monday as farmers continued their protest for higher farm prices. The tractors formed a tractorcade that, with the storm, slowed traffic on major streets to a crawl all afternoon and into the evening. Five days of hearings on the farmers' complaints were scheduled to begin today before the House Agriculture Committee, with nine members of Congress scheduled to give their views. American Agriculture movement representatives testify Wednesday and Thursday.

## China presses Thailand to permit shipments

BANGKOK, Thailand (AP)—Apparently blocked from supplying its Cambodian guerrilla allies by sea, China is putting public and private pressure on Thailand to permit the shipment of supplies through its territory, senior Thai and Western sources said Monday. Peking claimed, meanwhile, that Vietnam has sent 50,000 more troops into the war against the guerrilla forces of Cambodian Premier Pol Pot's fallen government. U.S. intelligence sources in Washington said the Chinese have largely failed in an attempt to break Vietnam's naval blockade of Cambodia by sending supplies in on small boats from the Gulf of Thailand.

## Guerilla attack feared in Rhodesia

SALISBURY, Rhodesia (AP)—A Rhodesian airliner crashed minutes after takeoff Monday from the northwestern resort of Kariba, killing all 50 persons aboard, Air Rhodesia announced. Airline officials said they feared black nationalist guerrillas had shot down the plane. Last Sept. 3, guerrillas claimed responsibility for shooting down another Air Rhodesia plane with a Soviet-made missile. That plane also went down shortly after taking off from Kariba, and 48 persons were killed, including 10 shot on the ground by guerrillas. Eight persons survived.

## Workers mourn victim of strike violence

EL CENTRO, Calif. (AP)—Farm workers mourning the death of a colleague shot to death on the picket line stopped picketing during a valley-wide work stoppage Monday as both sides tried to defuse the volatile Imperial Valley lettuce strike. Marc Grossman, a spokesman for the United Farm Workers Union, said the one-day moratorium was being honored at most of the valley's more than 30 farms Monday while union and non-union workers prepared to pay respects for the 28-year-old union worker killed Saturday. The strike has already jeopardized about 40 percent of the nation's winter iceberg lettuce crop and has sent supermarket prices higher each week.

# Carter hopeful on new ties to Iran

WASHINGTON (AP)—President Carter said Monday the United States is in very close consultation with the new Iranian regime and hopes for "a very productive and peaceful cooperation" with the strategic country's leaders. In the first U.S. comment since the fall of the government of Prime Minister Shapur Bakhtiar, whom he had supported, Carter said "we stand ready to work with" Bakhtiar's successors in the new revolutionary government of Ayatollah Ruhollah Khomeini.

To offset the net loss of 500,000 barrels of Iranian oil daily because of that country's year of political upheavals, the president urged voluntary conservation measures by Americans, including adherence to the 55-mph speed limit. "The situation is not crucial now, it's not a crisis, but it certainly could get worse," Carter said. Speaking in measured tones from a prepared statement at the start of a nationally broadcast news conference, the president said the U.S. Embassy in Tehran reported followers of the new regime "have been very helpful in insuring the safety of Americans, and we have been consulting with them very closely."

## dorm

RA's all over campus said they had either been barricaded or penned in their rooms. When a door is locked, a person outside the room can jam pennies around the bolt which makes the door impossible to unlock from the inside. RA's said their rooms had also been rearranged, rolled or completely filled with newspapers. One RA said residents unscrewed and removed his doorknob so that he couldn't get in or out of his room. Residents drenched one RA's room by leaning a 60-gallon drum filled with water against his door. On the first day of work for one RA, a freshman on her floor packed and went home without telling her or checking out. "I felt like a failure the first day," she said. While another RA entertained his date in his room, the floor residents walked in without a word and started undressing. "My date was so embarrassed," he said. A woman RA scrambled to turn off an alarm at 3 a.m. "I was in skimp pajamas, but I thought it was so late that nobody would see me," she said. "Two campus policemen beat me to the alarm, and boy, were they surprised."

## Odum

Tom Terrell, campaign manager for student body president candidate J.B. Kelly, said Kelly intended to use the Odum service but that he (Terrell) made an error and consequently missed the deadline for delivering the literature. "I hope it will get me 347 votes," said Stacks, who had a letter addressed specifically to Odum residents distributed by the volunteer force. In the letter he asked for the residents' support and promised to expand newspaper coverage of the Village, he said. He also wrote that he supported the recent proposal to create a manager for the complex who could take action without becoming entangled in the UNC bureaucracy, he said. However, Allen Jernigan, another candidate for *Daily Tar Heel* editor, did not use the distribution service. He said his staff is handling his campaign but expressed gratitude for the Villagers' offer. "In terms of strategy you have to go where the votes are," said Jernigan, and he had to limit his campaigning accordingly. However, he was quick to add this does not mean the Odum residents will not have a voice if he is elected. "My office will be open to all students, whether they're married or not, whether they live on campus or not," he said.

## Iran

The provisional "army" drove off looters from a military base, a military supply depot and the Ministry of Agriculture. The previously underground Islamic Peoples' Warriors group announced it had taken over policing Tehran and "all towns and villages throughout the country." Newspapers said 3,500 felons escaped from the country's largest prison, 65 miles west of Tehran, after insurgents opened the gates Sunday. Two army generals were killed during Sunday's city-wide violence. A third was found shot dead at his home Monday. An army spokesman said Gen. Abdul-Ali Badrei, former commander of the Shah Mohammad Reza Pahlavi's Imperial Guard, was shot nine times as he tried to talk to guerrillas who had surrounded the Imperial Guard barracks. Gen. Bokrat Jafarian, military governor of Khuzestan Province, died when his helicopter was shot down near Ahwaz, the spokesman said. Gen. Amin Bidlari, deputy commander of the Immortals Division of the Imperial Guard, was found shot to death in his Tehran home.

The president, possibly seeking to maintain some level of U.S. arms sales to Iran, said he wanted to insure that "Iran is militarily capable of protecting her independence and her territorial integrity...." One White House official, questioned about the status of a U.S. sale of F-14 jets to Iran under the government of Shah Mohammad Reza Pahlavi, responded that "they bought them and paid for them and the U.S.'s concern is only that they not fall into Soviet hands."

## Illegal parkers to get PIN-ned as campus police stick it to them

UNC parking monitors have a new weapon against illegal parking on campus—a Police Information Network terminal. In early November, the campus joined the nationwide computer system that provides vehicle owner's identification, addresses, birth dates, Social Security numbers and brief car descriptions within 30 seconds. "Now with that kind of recall, many people should be discouraged from parking illegally on the campus," said Ted Marvin, director of UNC security. "If they do park illegally, they can expect to be billed by the University traffic office within 15 days."

Seventy-five percent of the terminal's use will deal with parking problems, since they constitute 60 percent of the campus' law enforcement problems, Marvin said. They system also keeps the Security Service aware of crimes elsewhere in the state and nation. The campus terminal connects to a computer in Raleigh. Most city police departments and many other campuses in the state university system have terminals, Marvin said. North Carolina's PIN system connects with similar systems in every state. Information on cars registered out of state had to be obtained by mail before PIN terminal was installed, Marvin explained. The process sometimes took four to six weeks. Now it takes only seconds. The campus terminal provides access only to registration information and can only verify whether a driver's license is valid or not. Terminal operators must be certified by the N.C. Department of Justice, however, since some terminals have access to detailed driver histories and other information not available to the public. To obtain certification, operators must undergo a day-and-a-half training session by PIN representatives and must pass a written examination. The Department of Security Services rents the terminal for \$175 a month and 13 certified operators operate it 24 hours a day.
