During the week of April 11-17, there were 14 DUI arrests, eight of these on Friday night alone, Jarvies said.

"Fourteen for one week is a little above average, but eight on one night is pretty amazing," he said. "The Friday arrests were probably the result of more people partying in the nice weather and the fact that there were many private parties that night."

Jarvies said the arrests were made on East Franklin Street, Rosemary Street and the Manning Drive and 15-501 Bypass area. Police had pinpointed these as major areas where DUIs occur, he said.

Officer Maurice Hayes of the Chapel Hill Police Department said that in a recent DUI accident, a passenger was charged with allowing the motorist to drive while drunk.

WASHINGTON - President Reagan's request for \$60 million in military aid to El Salvador was cut in half by a House panel on Tuesday as he readied a special plea to Congress and the nation to rally behind his Central America policy.

The 7-5 decision by the Appropriations Subcommittee on Foreign Operations to slash the Salvador aid to \$30 million followed a tie vote, 6-6, that would have barred any decision for 90 days. The compromise was engineered by Chairman Clarence D. Long, D-Md., who just returned from El Salvador.

The Senate Foreign Relations Committee already had settled on an identical cut.

Meanwhile Tuesday, the full Senate talked behind

closed doors about whether the administration is waging a covert campaign against Nicaragua. And Reagan promised to name a special envoy for Central America whose duties will include assisting "the Salvadorans in their efforts to find a basis for dialogue with their opponents."

WASHINGTON - America has squandered a post-Sputnik surge in the race for knowledge and committed "an act of unthinking, unilateral educational disarmament" that threatens its very future, a national commission charged on Tuesday.

The scathing report card on U.S. schools, from first grade through college, called for tougher standards, longer school days and higher pay for teachers to combat a "rising tide of mediocrity."

The National Commission on Excellence in Education called upon all high schools to emphasize five "new basics": four years of English, three years each of math, science and social studies, a half-year of computer science and, for the college-bound, two years of foreign language.

RALEIGH - A bill that would raise the minimum drinking age to 21 won approval of a state Senate committee Tuesday, but still faces lengthy delay and possible failure before another panel.

Meanwhile, a House-Senate conference committee began discussing their differing versions of Gov. Jim Hunt's drunken driving package.

JEANNIE, CHERYL, LISA: Thanks to the three BEST roomies ever! Ya'll have made it a great Freshman year for me and an especially great 2nd semester, starting with Fall exams. Our living situation was unique and fun, and I've never for a minute had second thoughts about "moving in together." I'm not so sure if things worked exactly as we had originally planned them (always a study room and a social room?), but then again, who gives a SMURF? I owe you so much for teaching me how to "live NC style" and for overlooking all my oddities! I'm glad I could always turn to you with one of my stupid, embarrassing stories and know that you would laught with me and not at me. Jeannie, remember all the "Freshman things" we did? Lisa, between the two of us, was therea a day that we weren't afflicted with some ache or pain? and Cheryl, how we missed our "men"! I wish the Southern Belle and I hadn't been closed out, cux I sure am gonna miss living with you three next year. (Rise and shine, gonna miss living with you three next year.
