

# Kepley runs for senior class treasurer

By JANET OLSON  
Staff Writer

Thomas Kepley, a junior economics and political science major from Columbus, S.C., has announced his candidacy for senior class treasurer.

The senior class is open to accomplish whatever it wants to do, Kepley said, and he hopes to organize the class funds to maintain that openness.

Kepley said senior class funds could be organized through a University trust fund, through the Student Activities Fund Office or as a private account. He said he likes the idea of keeping a private account, but since the senior class was open to so many ideas he feels there must be some outside control over the funds.

"I like the idea of someone like SAFO looking over our shoulder," Kepley said, "because that way there's no room for

criticism."

The Class of 1985 will have about \$400 donated from this year's senior class to begin next year, Kepley said. From there, he said money could be raised through Carolina Annual Giving and by holding fund raisers.

Kepley said he supported holding one or two large fund raisers rather than running several small events.

"If we're going to have a fund raiser, we have to do it right," Kepley said. "You can't sit back and let it be a second-rate project."

In addition to performing his duties as treasurer, Kepley said that if elected, he hoped to incorporate his ideas about the senior class by working directly with the other officers.

Kepley said he would like to give the Class of 1985 a theme and to perhaps incorporate the class gift into that theme.

The theme would serve to bring the class together and could benefit future classes at the University, Kepley said.

Another idea is to select senior superlatives, Kepley said. This would show seniors which students contributed most to the class in all areas of the University, he said.

Kepley said he would like to keep the senior newsletter and the class trip next year, but if elected, he said he hoped to help improve them.

Kepley served as administrative vice president of the Interfraternity Council this year and was a student government liaison in his freshman year. He worked at the South Carolina National Bank in Columbia the past two summers and plans to work this summer for the Union Bank of Switzerland in Zurich.

finding that University coverage has been good, but could improve.

Jeff Hiday said he would like to balance the ratio of campus news to non-campus news at "75 percent to 25 percent." He stressed the DTH's position of responsibility of campus news, calling it many students' only source of information.

Frank Winstead proposed the same percentage

breakdown as Hiday, and he also said the paper's editors would not inflict their opinions to students on the editorial page.

Mark Stafford, candidate for RHA president, said he wanted to work with various related areas of the administration to work out a long-range dormitory plan for the UNC campus.

Winstead said there was need for somebody "willing to make changes, to have something different." CAA presidential candidates Mike Barnhill, Jeff Byrd, Will Conner, Jennie Edmundson and Frank Winstead discussed how they could better serve the student body.

During homecoming, Barnhill said he would work with HRC to have a pig pickin' and band. "I'd also like to have a formal dance in Woolen gym on Saturday night," he said.

Byrd said his main proposal for homecoming was to promote the unification of the town, faculty and students.

## Ruth

From page 1

"Not everybody masturbates, but masturbation is a normal, healthy phenomena," she said.

Westheimer cited a study by Masters and Johnson that studied 140,000 sexual acts. These figures showed that 30 percent of all American women don't attain satisfaction in intercourse, she said.

"What have those women been doing? Raking it?" Westheimer said.

Part of their problem is due to the principles of Sigmund Freud, according to Westheimer. "He was sexually illiterate," she added. Freud claimed women who didn't attain orgasm during intercourse were immature, she said.

"The 30 percent can be taught to enjoy sex and have orgasms in sex therapy," Westheimer said.

Regarding homosexuals, Dr. Ruth said there is no concrete data to determine why people are inclined to homosexual activity. "One thing we know for sure: a homosexual experience, thought or fantasy does not mean one is a homosexual," she said.

Westheimer said the reason the radio was so successful was because there was a need for sexual awareness in society. She said she gets 3,000 to 4,000 telephone calls in an hour, but could handle only about 20.

Westheimer answered questions from the audience after her speech.

In answering a student who protested Westheimer's use of data and her candidness, she referred to her radio show: "If it offends you, move your dial," she said.

Westheimer will appear on "the David Letterman Show" on Valentine's Day.

## Lebanon

increase the military presence there, and that would not be wise."

House Speaker Thomas P. O'Neill Jr., D-Mass., welcomed the president's order, but said "I hope he will speed up the process. While I and others acquiesced in the decision, it became clear some time ago that the president's policy was wrong from the beginning."

House Republican Leader Robert Michel, R-Ill., called Reagan's move "a wise one. We still have a presence in the area. The political and military situation in Beirut is so chaotic that no permanent step should be taken."

## Attention Polltenders

There will be a meeting at 7:30 p.m. Thursday for all those interested in serving as polltenders in the Feb. 14 election. The meeting will be held in 111 Murphy and all students who are already committed to working must attend.

## State and Nation

The Associated Press

**CAPE CANAVERAL, Fla.** — Two American astronauts left the safety of their shuttle Tuesday and flew unstrained for the first time, adding another milestone to man's conquest of space.

Bruce McCandless, then Robert Stewart, unhooked their lifelines and slowly rose away from Challenger, carried by a \$10 million jet-powered backpack to a distance greater than the length of a football field.

"McCandless and his Manned Maneuvering Unit comprise a spacecraft of their own," said Mission Control.

Although they had no speed sensation, the astronauts were traveling 4.8 miles a second, as they zipped over the spinning Earth below. They'll do it again on Thursday.

**WASHINGTON** — President Reagan's key economic advisers put aside their public squabbling Tuesday and presented a united front, urging Congress to slash the enormous budget deficits or risk sending the economy into a tailspin.

They issued their appeals less than a week after Reagan submitted to Congress a spending plan for 1985 that projects deficits of \$180 billion in each of the next few years, not far off the record \$195.4 billion posted in 1983.

"We are in total agreement that we should get these deficits down," said Treasury Secretary Donald Regan, just days after sniping at the red-ink views of presidential economist Martin Feldstein.

**WASHINGTON** — Warning that "time is short," Henry A. Kissinger urged Congress on Tuesday to pump billions

of dollars in economic and military aid into Central America to counter Soviet and Cuban threats to U.S. interest in the troubled region.

The former secretary of state, however, encountered skepticism among members of the Senate Foreign Relations Committee, including Paul Tsongas, D-Mass., who said the Kissinger plan "just won't pass Congress" as long as the Reagan administration refuses to make human rights progress a condition of continued U.S. aid.

**WINSTON-SALEM** — A Ku Klux Klansman testified Tuesday he saw that fellow Klansman Mark Sherer fired two shots in the air and one into a parked car at a 1979 anti-Klan rally in Greensboro in which five communists died.

The testimony of Harry McLain Hayes conflicted with Sherer's testimony, which was given last week. Sherer earlier told investigators and a grand jury he fired three shots, but last week denied his earlier statements, saying he was confused.

Prosecutors have contended that Sherer fired two of three shots that could not be pinpointed in a 1980 state trial of six Klansmen and Nazis on murder charges.

**SALUDA, N.C.** — One of the nation's smallest telephone companies is basking in national publicity brought on by comparisons with the breakup of American Telephone & Telegraph Co.

"I'm having fun out of it," said Edwin C. Leland, 79. "I'm not the kind of person who gets all excited about anything. I just stay on an even keel."

Leland, owner and operator of Saluda Mountain Telephone Co., became the focus of attention after the Jan. 1 breakup of AT&T. The Wall Street Journal had a front page story about the company last week, and CBS' "60 Minutes" has contacted him about a possible interview.

He said the most important thing about the publicity is the attention it's brought to the small Polk County town of 600.
