

The Associated Press

PEKING—Premier Zhao Ziyang confirmed Tuesday that China's Communist government will deploy troops in Hong Kong after it recovers sovereignty over the British colony in 1997.

Zhao also said that after Britain and China agree on the orderly transfer of power in Hong Kong, both sides will hold periodic consultations to ensure a smooth transition.

China has said it will reassert sovereignty over Hong Kong when Britain's lease over the capitalist free port expires in 1997. The 15th round of talks aimed at reaching an agreement on Hong Kong's future will be held today in Peking.

...

NEW YORK—Former President Richard Nixon said in a letter printed in Tuesday's *New York Times* that if the U.S. Embassy in Israel is moved from Tel Aviv to Jerusalem, tensions in the Middle East "would be dangerously exacerbated."

In a letter dated May 24, Nixon wrote, "It is because I am committed to Israel's security that I am opposed to the proposal to move our embassy."

Nixon argued that moving the embassy—as favored by Democratic presidential candidates Walter Mondale and Gary Hart—"would not contribute one iota to Israel's security... it would jeopardize it" by alienating Arab states.

The only way Israel can solve its economic and security problems, Nixon wrote, is to get along with its more moderate neighbors, such as Egypt, Saudi Arabia and Jordan, nations with whom the United States traditionally has had good relations.

But "if the U.S. moves its embassy to Jerusalem, the situation would be dangerously exacerbated, and the U.S. would lose whatever influence it has today to play a constructive role in the area," Nixon wrote.

...

MANAMA, Bahrain—Iran's president pledged Tuesday to fight any U.S. military intervention in the Persian Gulf and said Arab states that don't remain neutral in the Iran-Iraq conflict risk retaliation.

His comments came the day the State Department confirmed President Reagan sent 400 Stinger anti-aircraft missiles and two KC-10 tanker planes to Saudi Arabia to improve Saudi defenses against attacks on Persian Gulf shipping.

"If the Americans are prepared to sink in the depths of the Persian Gulf waters for nothing, thousands of miles away from their country, then let them come," President Ali Khamenei told Iranian officers and troops at the port town of Bandar Abbas, near the Strait of Hormuz.

"What sort of bullying is this that the ships of a government from thousands of miles away move to the home

territory of other nations under the pretext of preserving vital interests?" the Iranian leader asked.

"With their faith, motivation and divine power, our people will resist the Americans and will fight," he said.

...

MANAGUA, Nicaragua—Government troops mounted a major attack against CIA-backed rebels last week in northern Nicaragua, killing about 200 insurgents, a military source said Tuesday.

At least 30 government soldiers also were killed in the fighting May 23 and May 24 over a wide area at San Jose de Bocay, a town in northern Jinotega province about 110 miles north of the capital, the source said.

About 1,800 troops using Soviet-made artillery were involved, said the source, who asked that his name not be used for security reasons. Heavy fighting continued in the area Tuesday, the source said, but gave no further details.

He described last week's battle as the biggest since the Honduras-based Nicaraguan Democratic Force rebels started attacking targets inside Nicaragua two years ago.

...

WASHINGTON—Treasury Secretary Donald Regan said Tuesday he "suspects" the nation's ailing seventh-largest bank, Continental Illinois National Bank & Trust Co., will follow a

long list of other banks into involuntary merger.

However, he said he saw no threat to "the underlying stability of the banking industry."

Officials of the Chicago bank have raised the possibility of a voluntary merger but have also indicated at least a hope that the institution can be salvaged as is. Over the weekend, a spokesman said the bank has begun offering bonuses to lure back customers who withdrew deposits amid reports of financial problems.

Despite such efforts, Regan said, "I suspect the same thing will happen to them as has happened to about 30 other banks already this year."

...

WASHINGTON—French Foreign Minister Claude Cheysson on Tuesday accused the Soviet Union of putting Western Europe under "fearful political and psychological pressure" and said Moscow must bear the responsibility for the sorry state of East-West relations.

"The immediate cause of the tension we are experiencing today has been the deployment of Soviet medium-range missiles," he said. "No one can deny that this has changed the balance of forces."

"Relations have gone downhill," said Cheysson, "and we do not bear the responsibility." He addressed the opening of a three-day meeting of NATO foreign ministers here.

Vice President George Bush, in his remarks to the opening session, denounced "Soviet adventurism" around the globe, saying the Western allies must remain strong while seeking a constructive relationship with Moscow.

...

WASHINGTON—President Reagan, employing his emergency powers, has sent 400 Stinger anti-aircraft missiles and two KC-10 tanker planes to bolster Saudi Arabian defenses against attacks on Persian Gulf oil shipments, sources said Tuesday.

Two hundred launchers fitted with short-range Stingers and 200 replacement missiles arrived in Saudi Arabia on Monday, a State Department official said. This official and other sources confirmed the dispatch of the missiles on the condition they not be identified.

One official said Reagan had used his emergency powers to send the missiles so that congressional approval wasn't needed.

The Saudis, who had requested the Stingers, will pay cash for them. It was also understood that the Saudis have given guarantees the missiles will be safeguarded and will not be transferred to anyone else.

American personnel will train the Saudis in the use of the missiles.
