Proposed Franklin St. extension voted down

Final voting returns late Tuesday in Carrboro produced a defeat for the Franklin Street extension project but passed a proposal for street improvements and a new bike path.

Voters opposed the Franklin Street extension 2,313 to 1,750 but approved the second bond referendum to improve Carrboro streets and add new bike lanes 2,632 to 1,363.

The Orange County Board of Elections received the final returns from all five of Carrboro's precincts at about 9 a.m. yesterday after unusually heavy voter turnout and problems with ballot-counting machines Tuesday.

Brett Sutton, president of Citizens

Against the Franklin Street Extension, said he was encouraged by voter response to the two referenda. "I find it most interesting that one (bond issue) passed, and one did not," he said. "It shows people knew what they were doing and were thinking about it."

Sutton said he was glad the second bond issue was approved. "I think that is exactly the sort of thing Carrboro should be doing," he said.

Carrboro Mayor Jim Porto had predicted late Tuesday that the Franklin Street extension would not be approved, but he was unavailable for comment yesterday.

CGC

opportunity now to take the lead."

"I think this definitely affects this campus," said Student Body President Paul Parker. Students should be concerned about a possible draft, he said.

Before debate, Berger had two students tell about experiences in Nicaragua. Brian Richmond visited the country this summer with a church organization, and Jorge Siman, an El Salvadoran with relatives in Nicaragua, spoke of the Nicaraguans' fear of invasion.

"I want some concrete facts," Peters said. "The CGC is not the Pentagon."

Davis said he heard more about El Salvador than Nicaragua.

Earlier, the CGC approved a referendum that would let students decide whether to guarantee WXYC 4 percent of student activities fees each year.

Written by Lloyd, a disc jockey at the public radio station, the February referendum would constitutionally fund WXYC with about \$19,000 annually.

"This is a divine opportunity for us to let the students tell us what they want," Tim Newman (Dist. 11) said. "It is the students' radio station."

Station manager Bill Burton said \$19,000 was about the bare minimum he needed for operational expenses. "We could operate on \$5,000," he said, "but equipment would deteriorate to the extent you wouldn't have a radio station in three years."

If necessary, WXYC could receive more money by appearing before the CGC for subsequent allocations. If student fees were raised and WXYC received more money than it needed, it wouldn't be able to return but would have to place it in a surplus fund or spend it, said Student Body Treasurer Allen Robertson.

In other action, Annie Towe, a sophomore from Connecticut, was approved as a member of the Carolina Union Board of Directors.

Reagan savors win

From Associated Press reports

LOS ANGELES — President Reagan, star of an unmatched electoral landslide, said yesterday the voters "made it very plain that they approved what we've been doing," and he plans to keep doing it.

He told a post-election news conference that if Congress balks, "we'll take our case to the people." The president then left for a few days' vacation at his Santa Barbara ranch.

While the Republicans lost two seats in the Senate and made smaller-than-anticipated gains in the House, Reagan said, "I'm satisfied with the way things turned out."

He won 49 states, and more electoral votes — 525 of a possible 538 — than any presidential candidate before him.

Reagan said the new Senate lineup will match that of his first two years in office, when his economic program was launched. He said the final numbers might show a 17-seat GOP House gain, in line with some other presidential re-election years.

The vanquished Walter F. Mondale said earlier that Reagan had a personal victory but not a mandate. Reagan said he had a vote of confidence in his programs.

Prime cut

NEW YORK — Three of the nation's largest banks cut their prime lending rates yesterday by a quarter-point to 11.75 percent.

It was the first time since early April that a major bank's prime rate has been below 12 percent.

Citibank, the nation's second-largest commercial bank, led the latest cuts. It was quickly followed by Chase Manhattan, the third-largest bank, and seventh-ranked First National Bank of Chicago.

The industry has previously cut

News in Brief

the prime, or base, lending charge three times in the past six weeks.

Ustinov not seen

MOSCOW — Defense Minister Dmitri F. Ustinov did not appear yesterday to review the troops when the Soviet Union paraded its military might in Red Square on the 67th anniversary of the Bolshevik Revolution.

Ustinov, 76, who has not been seen in public since Sept. 27, is suffering from a sore throat, the Cable News Network's Moscow bureau quoted Politburo member Viktor V. Grishin as saying.

Ustinov is believed to be the first Soviet defense minister to miss carrying out his official duties on the biggest national holiday in the Soviet Union.

Launch stopped

CAPE CANAVERAL — The shuttle Discovery's mission to fix two satellites stranded in space was postponed for at least 24 hours yesterday because of scissor-like winds high above the launch pad.

"We have significant shear in the upper atmosphere and the analysis here is that we would exceed the structural load limits of the vehicle," launch director Bob Sieck told the four-man, one-woman astronaut crew at one point before Tuesday's scheduled 8:28 a.m. liftoff.

Just two minutes before the launch, Sieck said "we are not go and we will have to scrub for today."

Launch was rescheduled for about 7:17 a.m. today, weather permitting.

Do You Have

SKI ADDICTION?

The Symptoms...

*Sweaty palms every time the mercury drops below 50°
*Clenching your stomach as the first flake falls
*An aching head at the sight of skis on someone else's car.

...It's *ski addiction*, and every season you and your friends catch it. You can't wait to hit the slopes, take the first run, feel the wind bite your face. Where do you cure these incredible urges?

The Cure...

Canan. We are the Treatment Center for your *ski addiction*.

We guarantee fast relief with exciting downhill, 180° of annual snowfall and our fantaski package designed for students... take a look:

5 Full Days of Skiing
5 Nights Lodging
9 Meals
4 Fantaski Parties
\$165⁰⁰

per person based on four people in a room. Double occupancy available at slightly higher rate. Offer available on specified holidays and student vacations. Tax not included.

So pile yourselves, your equipment, and your incredible, undeniable symptoms of *ski addiction* into your car and head for Canan - the Treatment Center for your *ski addiction*.
