

Campus

Campus Police Roundup

- Police responded to a call at the Silent Sam monument in McCorkle Place where a fight was in progress Thursday at 8:31 a.m. One man was trying to get away from another, Thomas Edward Thurber, 42, of 103 Hayes St., Hillsborough, was arrested on a charge of drunk and disorderly conduct. He was jailed with bond set at \$150.
- Police were asked to look for a man who had been loitering on the fifth floor in Davis Library Thursday around 10:14 p.m. They were unable to locate the man.
- A female student/employee at the Kenan Center reported that an on-duty Pinkerton Security guard, another female, had threatened her, and the encounter escalated into a physical assault. The complainant was thrown to the marble floor and struck in the face several times. She also reported pain in her back. The woman declined the officers' offer to take her to get medical treatment or to help her seek prosecution.
- Patricia Forbes, 20, of Wilson was cited Friday at 2:38 a.m. at the corner of Cameron and Columbia streets for underage possession.
- Police stopped a driver on Columbia Street Friday at 3:31 a.m. for driving without lights. A butcher knife with an 8-inch blade was found

- under the seat. Gabriel Sanchez, 18, of Carrboro was cited for carrying a concealed weapon.
- A parking deck control arm came down on a truck Friday morning, causing about \$100 in damage to the truck's hood.
- A man was reported by several people to be riffling through book bags and office desks at Sitterson Hall Wednesday at 9:42 a.m.
- A woman soliciting for the Carolina Fund became upset Wednesday when the person who answered a call started making inquiries about her personal life.
- A clothes dryer set off the fire alarm in Connor Residence Hall Wednesday when it gave off electrical sparks.
- A man who was seen throwing beer cans out of a car at the Bell Tower Lot at 11:32 p.m. Wednesday was stopped by police. The man failed the roadside sobriety test and was arrested for DWI and littering. The DWI charge was dropped when his blood alcohol content was tested at 0.03 percent. Arrested was Stephen Russell Farmer, 19, of 6816 Hickory Lane.
- A man exposed himself to a woman as she walked near Hanes Art Center around 9:30 p.m. Tuesday.

Program to focus on conservation

By STEPHANIE JOHNSTON
Staff Writer

Renowned tropical biologist Michael Robinson will be the featured speaker Saturday at "A Rain Forest Evening," a program designed to heighten awareness of the importance of preserving genetic and species diversity in natural habitats.

"It's a small world," said Peter White, director of the N.C. Botanical Garden. "Conservation in the tropics is an important issue. Birds which spend the summer here spend the winter in South America."

The program is sponsored by the N.C. Botanical Garden and the Institute of Conservation and Culture. In addition to Robinson and White, Joy Bannerman, director of the Institute of Conservation and Culture based in Carrboro, will speak.

Mary Brown, developmental manager at the N.C. Botanical Garden, said Robinson was asked to speak because of his intensive work in the field of tropical biology.

"Dr. Robinson is one of the world's foremost tropical biologists," Brown said. "He spent 20 years as a tropical

biologist with the Smithsonian Institute and as the president of the Institute of Conservation and Culture. He is currently the director of the Smithsonian Institute's National Zoo."

Robinson will emphasize plant conservation and the value of botanical diversity to humans. White will speak on the relationship between the conservation of the tropical forests and the N.C. Botanical Garden.

"People often speak of plants and animals as a generic species," White said. "Here, we have a botanical herb garden with plants which have the

capacity to be used medicinally. The tropical rain forest has the potential to help."

White said he hoped the program would be fun as well as informative.

"The purpose of this program is to increase awareness of the problems and of the N.C. Botanical Garden and to have fun and become inspired," Brown said.

There is a minimum donation of \$3 for Botanical Garden Foundation members and \$5 for non-members. Proceeds will go to the garden and the institute.

Ethics topic of spring Carolina Symposium

By STEPHEN BRYAN
Staff Writer

The Carolina Symposium, a student-sponsored lecture series focusing on a set topic, is gearing up for this spring's biannual event which will bring distinguished speakers to the Carolina campus.

The topic for 1990 is Ethics, and the symposium is scheduled for March 26 to April 6. During this period, prominent speakers will visit UNC and lecture on a variety of subjects related to ethics, said Thomas Williams, one of three chairmen of the event.

An organizational meeting for all interested students and groups will be Thursday at 5 p.m. in Union 205.

"We need anyone willing to work," said Pete Upham, another chairman. Upham said students can contribute in many areas, including programming, soliciting speakers, fund-raising and publicity.

The Carolina Symposium began as one of the Campus Y's committees and later became independent. "As the campus grew larger and diffused, we became too independent," Williams said. "It hurt us."

Williams is trying to change this by inviting all campus organizations to help sponsor an event. Because of the broad topic, Williams said he felt that many organizations would be able to get involved. "We have chosen a topic which has wide appeal, and there is something for everyone."

Topics encompassed in Ethics include bioethics, environmental ethics, and ethics in business, giving many campus organizations the chance to sponsor an event, Williams said.

Both Williams and Upham said they hoped campus organizations would

become involved in the lecture series, in part to help offset expenses. The cost of bringing in speakers alone can reach as high as \$20,000, Upham said.

The group must also raise more money this year because of a decrease in the amount of funds received from Student Congress. Normally the group requests \$12,000-\$15,000 in funds from Congress, but because of a decline in funds, Upham said, the group will have to ask for less.

"Carolina Symposium is a resource for the community to stimulate thought," Upham said.

5 alumni to receive awards for outstanding achievements

From staff reports

Five alumni will be honored with Distinguished Alumnus Awards on University Day, Oct. 12, for their accomplishments in literature, art, fashion design, journalism and public health.

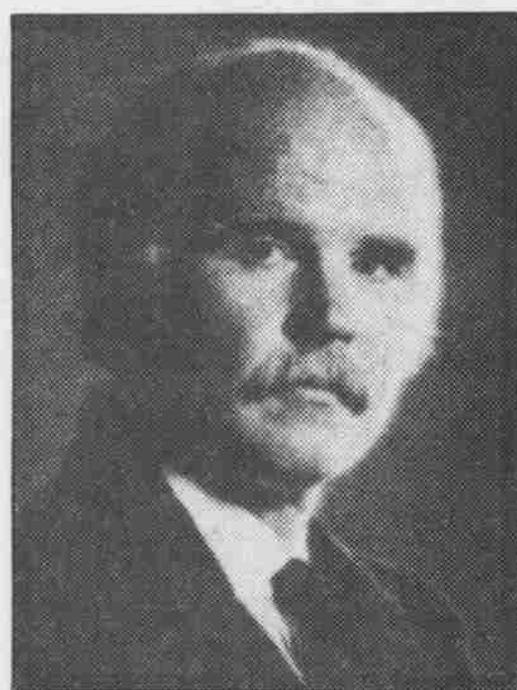

Recipients will be Taylor Branch, author; Dr. Anne Coffin Hanson, a John Hay Whitney professor in art history at Yale University; Alexander Julian, fashion designer; Jonathon Yardley, book critic and columnist for The Washington Post; and Dr. Warren Winkelstein Jr., professor of epidemiology at the University of California at Berkeley.

Presentation of the awards, established in 1971, will be part of a University Day convocation marking the 196th birthday of UNC. The event commemorates the laying of the cornerstone of Old East, the nation's first state university building, on Oct. 12, 1793.

The convocation, which is free and open to the public, begins at 11 a.m. in Memorial Hall, where Chancellor Paul Hardin will speak.

Branch, of Baltimore, Md., is an award-winning author. His historical account of the civil rights struggle, "Parting the Waters: America in the King Years, 1954-63," won a Pulitzer Prize for history in 1988.

The Atlanta native received a bachelor's degree in history and political science from UNC in 1968. A Morehead Scholar, he was a member of the Phi Eta Sigma, Phi Beta Kappa, Order of the Grail and Golden Fleece honorary societies. He also earned a master's of public administration degree from Princeton University's

Taylor Branch

School of Public and International Affairs in 1970.

Hanson, of New Haven, Conn., has been a faculty member at Yale since 1969. She was chairman of the department of art history — the first woman to serve in such a post at Yale — from 1974 to 1978.

The Kinston native received a bachelor of fine arts degree from the University of Southern California in 1943. She received a master's in creative art degree from UNC in 1951. During her time in Chapel Hill, Hanson built what now is known as the Cave at The Rathskeller, a Franklin Street restaurant. She earned a doctoral degree in the history of art from Bryn Mawr College in 1962.

Julian, of New York City, is a na-

Dr. Anne Hanson

tionally-known clothes designer. Born in Chapel Hill, Julian grew up in the retail environment of his father's College Shop, which he managed at age 16.

Julian has received five Coty Awards for menswear and is the youngest designer ever inducted into the Coty Hall of Fame. He was the first recipient of the Cutty Sark Menswear Award for Outstanding U.S. Designer in 1980. He won that award again in 1985 and 1988. Last year he became the youngest designer to receive the Cutty Sark Career Achievement Award.

Julian attended UNC from 1965 to 1972. He has supported scholarships at his alma mater, and in 1986 established the Maurice and Mary Julian Scholarship Fund in the College of Arts and Sciences to honor his parents.

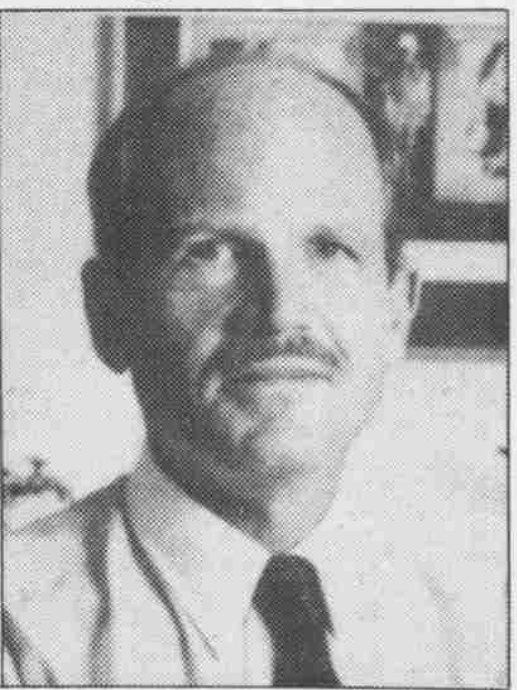

Alexander Julian

Yardley, of Baltimore, Md., is the book critic and a columnist for The Washington Post.

Before coming to The Post in 1981, Yardley was a book critic for The Washington Star, where he won a Pulitzer Prize for criticism in 1981.

He has been a contributing editor and book reviewer for Sports Illustrated, and his reviews and articles have appeared in numerous national magazines and newspapers.

Yardley is the author of "Our Kind of People: The Story of an American Family," published in 1989, and "Ring: A Biography of Ring Lardner," which came out in 1977. He also contributed to "Family Portraits," released in 1989, and "The Ultimate Baseball Book,"

Jonathon Yardley

published in 1979.

A native of Pittsburgh, Yardley received a bachelor's degree in English from UNC in 1961. He was editor of The Daily Tar Heel during his senior year.

Winkelstein, of Point Richmond, Calif., has been a faculty member in the Department of Biomedical and Environmental Health Sciences at Berkeley since 1968. He was dean of the School of Public Health from 1972 to 1981.

Dr. Warren Winkelstein Jr.

Winkelstein's research has focused on some of the nation's major health problems. He was among the earliest epidemiologists to study hypertension, cardiovascular disease and the relationship between smoking and cancer.

The Syracuse, N.Y., native earned a bachelor's degree from UNC in 1943, a medical degree from Syracuse University in 1947 and a master's of public health degree from Columbia University in 1950.
