

The Santa's Guide To Power Shopping At The **Power Center**

1

Bag The Boots

Crossroads Plaza is the largest value oriented center in North Carolina, with 65 stores and 11 anchors. Boots are made for walkin', but to cover The Power Center, a Power Santa will last longer with a good pair of sneaks.

2

Go Incognito

Since half of North Carolina will shop at The Power Center, keep your identity under wraps, or the next thing you know, you'll be surrounded by a thousand anxious little ones.

3

Ditch The Sleigh

Eight tiny reindeer won't make it at The Power Center. With everything from pets to power drills, from home improvement to sporting goods, from clothes to toys—you'll definitely want something more substantial.

4

Prepare List, Check It Twice

A smart Santa is prepared to take care of all his shopping at Crossroads Plaza. A well prepared Santa can take care of the entire northern hemisphere on a Tuesday afternoon at The Power Center.

5

Plan The Off-Season

Because Crossroads Plaza is value oriented with huge stores and huge savings, Power Santas spend their off-season in style.
