## **Jaycees Have** Good Time at Dallas, Texas

Six Chapel Hillians returned from a 2,500 mile cross-country trip this week after attending the U. S. Junior Chamber of Commerce 32nd annual convention in Dallas,

Those who made the trip were Mr. and Mrs. Charlie Phillips, Mr. and Mrs. W. J. Ogburn, Paul Williams, and Roland Giduz. The first two couples traveled in the Ogburns' car; Williams and Giduz went on a specially chartered airconditioned bus. In all there were 150 Jaycees from North Carolina at the convention, which was attended by 6,000 young men and their families from every state in the union, Alaska, and Hawaii.

Dallas was comparatively cool during the week-long convention, but the trip, two and a half days each way, was made in scorching weather. Mr. Ogburn reports that in the shade when he passed through Monroe, La.

In Dallas most of the meetings were held in the air-conditioned hotels of the city.

they could get up and stretch their of the nation's leading authorities morning snack of milk and cookies.

any special awards at the con-school. vention, North Carolina received honors in several fields. Harry past president of the N. C. Junior Chamber of Commerce, received more votes than any other candidate in being elected one of the ten national vice-presidents of the organization. He was also named as one of the five most distinguished state presidents in the country. The Rocky Mount Jaycees were five in the nation.

1948-49 the Chapel Hill Jaycees our streets. won an award for being the best first-year club in the nation.

### Summer Stars Are Topic of New Show

The constellations of the summer | rapid identification of many inskies are identified in "Summer dividual stars. Star Stories," the new show which opened Tuesday at the Morehead be Jacques Schricke, secretary at Planetarium and will continue there through July 28. Performances are given at 8:30 p.m. seven days a week, at 3 p.m. Saturdays, at 3 and 4 p.m. Sundays, and a special 3 o'clock matinee will be given tomorrow, Friday, July 4. The show lasts about 50 minutes.

During the demonstration the names and stories connected with the various heavenly patterns known as constellations are told. Anthony Jenzano, Planetarium director, said that these stories have been passed on through several thousand years and added that they will help considerably in the

### Ross and Raney Coming Here

Dr. Robert A. Ross, obstetrician and gynecologist in the Duke University Medical School, and Dr. sity Medical School here.

To make the picture more vivid,

"Many people think that astronomers must be possessed of very vivid imaginations to see these pictures in the sky," Jenzano said. "Actually, the professional astronomer is likely not to think at all of the rich heritage of tradition and history that lies behind the constellations. His concern is normally only with the named area embraced by these legendary heroes or mythical creatures.'

#### Bullochs Move to New Jersey

Mr. and Mrs. W. D. Bulloch and Mrs. Bulloch's aunt, Mrs. Charles Stancell, spent several days in Enfield last week on a visit to Mrs. Bulloch's parents, Mr. and Mrs. Lawrence Whitaker. They returned Sunday morning, and the Bullochs left Sunday afternoon for Madison.
