## May 3rd Set By Aldermen As Date for The Election

The Chapel Hill Board of Aldermen passed ordinances setting May 3 as the date for the municipal election and a \$190,000 bond election at their regular meeting Monday night. The municipal election ordinance was necessary to set the election machinery going, and five separate ordinances were necessary to start action on the bond election.

The purpose of the municipal election is to choose a mayor, three aldermen, and the judge of the Recorder's Court. The terms of Mayor Oliver K. Cornwell, Aldermen P. L. Burch, Obie Davis, and Rogers Wade, and Judge of the Recorder's Court W. S. Stewart expire this spring.

The registration books will be open from April 15 through April 22 in the fire department at the Town Hall.

The ordinances calling for the bond election listed \$15,000 for sanitary sewers; \$40,000 for storm sewers; \$38,000 for street widening; \$50,000 for street improvement; and \$47,000 for equipment (mainly trucks). An additional bond ordinance was adopted by the Board for \$7,000 to finance the cost of acquiring fire hose, gas masks, and other equipment and apparatus required for the use of the fire department.

The aldermen have appointed R. B. Van... act as registrar, Irene Scroggs and Mrs. J. J. Crawford to act as judges for the election.

The Aldermen received a petition from Carrboro seeking the Chapel Hill Board's support in an amendment to the zoning ordinance which would give Carrboro jurisdiction over areas to the north and west of that town. The board decided to inform Carrboro that it feels it would be "an untimely thing" to seek any amendment to the act at present.

## Appeal Issued by P.T.A. Thrift Shop

Spring clothing and accessories are desperately needed by the Thrift Shop operated on West Franklin street by the Chapel Hill P.T.A. organizations. An appeal from P.T.A. officials says, "The Thrift Shop is crowded with Easter shoppers, but there is little merchandise on hand. We need hats, purses, gloves, suits, dresses, and anything else for spring for any and all members of the family. Everybody is urged to give whatever they no longer need."

Contributions may be taken to the shop or deposited in containers for this purpose at Fowler's Food Store in Chapel Hill and the Dairyland Store in Glen Lennox. Or if contributors will telephone Mrs. White at 4256 she will see that contributions are picked up at the homes of the givers.

## Springtime Receives Cruel Setback from 19-Degree Weather

There won't be any more spring in Chapel Hill this year as far as flowers are concerned. This was the verdict of J. N. Couch, head of the University's botany department, after he had examined the damage caused by the unseasonably cold weather of last weekend. "We're not going to enjoy the usual beautiful effect that we have in Chapel Hill and this part of North Carolina," Mr. Couch said.

Termed the 19-degree low of Sunday morning as "pretty disastrous" to plants, Mr. Couch enumerated damage here to redbuds, dogwoods, japonicas, and azaleas. "Some of the dogwoods are injured, but others will come out. Practically all the redbuds I've seen are already killed, and all azalea blossoms were destroyed," he said.

A week or so of warm weather, said Mr. Couch, may help some, but it looks pretty bad. Dogwoods were about half way in full bloom, which means they were damaged more easily.

"I remember lots of times when some dogwoods, redbuds, and japonicas were killed partly, but the most damaging effect this time is on a number of trees, where hickory and oaks have had their leaves killed," said Mr. Couch.

Although Mr. Couch called his estimate "perhaps a little pessimistic," he said it was "certain to slow spring down" and that plant lovers would have to wait another year for attractive displays of spring blossoms.

Tax Saunders, local weather observer, reported that Sunday morning's low of 19 degrees was "the record low for this day of year." He added, however, that it was not an all-time low for the month of March. On March 4, 1943, the mercury slipped down to 13 degrees, and on March 25 and 26, 1940, Chapel Hill had temperatures of 20 degrees. On Monday morning, according to Mr. Saunders, the low was 20 degrees.

## Chapel Hill Chaff

The plane on which our niece, Allen Claywell, left Philadelphia at 8:35 last Friday night was due at the Raleigh-Durham-Chapel Hill airport at 11:02. We were astonished to get a telephone call from her at about 9:30. "I'm in Washington," she said. "I'm calling because I thought you might be uneasy. We ran into a duck and are having to change to another plane."

My hearing is not as sharp as it used to be and I thought I must have misunderstood her. "What's that?" I asked. "What did you say?" She repeated: "We ran into a duck," and she spelled it out: "D-u-c-k."

That is just what had happened. The twin-engine Silver Falcon, going at 240 miles an hour, was just about to slow down for the landing at Washington when there was a loud crash. It sounded like breaking glass but it also sounded like an explosion. The twenty passengers were badly frightened, but they kept in their seats and nobody cried out. They heard the pilot call for the hostess, who was at the rear of the plane, and she walked slowly along the aisle and into the cockpit. In a minute she reappeared, smiling, and told the passengers not to be alarmed, they would be coming down for a safe landing in two or three minutes.

They were told that the windshield had been shattered, and presently they saw the pilot at the door of the cockpit with blood all over his face. The co-pilot had taken charge. The shattering of the glass had reduced the visibility to zero, so the co-pilot had to make an instrument landing. A radio message had called an ambulance to the runway.
