

Tigers Win Championship With 8-2 Record

The Chapel Hill Little League's Tigers (above) won the league championship with an 8-2 record Friday afternoon when they defeated the Indians, 4-1. If the Indians had won the game they would have tied the Tigers for first place. Shown from left to right (front row) are Wallace Vick, Howell Pendergrass, Larry Campbell, Danny Fitch, John Hinson, and Tim Greene; (second row) Gene Ray, George Ham, Larry Kenney, Assistant Coach Marvin Allen, David McConnell, Charlie Phillips, and Bat-Hoy Andy Phillips. In other games the Giants had their third straight win, this time over the Dodgers, 7-5, and the Yankees obtained a narrow victory over the Cubs, winning 9-8 in the final inning.

The championship game was a victory for Tiger pitcher Charlie Phillips who gave up only two hits, both to Indian star Wayne Hudson, who opposed him on the mound. Hudson allowed four hits and two of these to Phillips.

All scoring in this game came in the fourth inning. The Indians' lone run came when Robert Oakes walked, stole second base, and scored on a single by Hudson. The Tigers' runs came when Larry Kenney walked, Phillips hit a single, and Roger Bowden hit another single to score Kenney. George Ham then hit a triple to score Phillips and Bowden. John Hinson and Ham beat the throw to the plate. The Yankee victory in their close game with the

Both the University National Bank and the Bank of Chapel Hill have increased rates paid in saving accounts one to two per cent per year.

The new rates are retroactive to July 1 on savings deposits made by July 10 of this quarter.

Polio Vaccine for Everybody on Hand

All Dr. O. David Garvin, district health officer, knows about the announced polio emergency and planned mass free vaccination clinics is what he read in Monday's newspapers.

"We have plenty of vaccine for everybody," said Dr. Garvin, "and are giving it free every Monday and Thursday afternoon from 1:30 to 4 o'clock at the health department here."

Local physicians are also said to have sufficient Salk vaccine to administer to all age groups, and that may be had by appointments.

"We urge that no further delay be made in taking the shots," said Dr. Garvin.

Monday's papers announced that the N. C. Medical Society Polio Vaccine Committee was alarmed over the State's ranking 47th in the nation in number of eligible persons immunized against polio. Only one-third of the eligible persons in the state have been immunized. The committee said it planned to ask for a half million doses of vaccine and to start mass free clinics next Monday, July 23.

There have been times when there was a problem of getting the vaccine. That is true no longer. Now it is said to be a problem of getting the vaccine to the people.

Chapel Hill Chaff

By Joe Jones

Part of my mother's recent celebration of her 70th wedding anniversary and 90th birthday was attendance at the world premiere of the movie of James Street's novel, "Good-bye, My Lady." Since she is partially deaf she heard little of the actors said. That didn't bother her, though. "I enjoyed it hugely," she told me. "I understood only two words the whole time, but I knew what everybody was saying because I had read the book."

When I was visiting her last month at the home of my sister, with whom she lives in Albany, Ga., the Albany Herald carried a red-hot letter on school integration. It was all wrong and the Herald had no business printing it, my mother said. "I'm going to take this paper out in the back yard and burn it," she told my sister. "All right," my sister replied, surprising me. I had expected her to object. Living away from my mother so long, I guess I had forgotten the folly of opposing her iron will.

When I had accompanied her down the back steps she crumpled the paper page by page, set fire to it, and watched its ashes curl up and blow away.

"Why go to all this trouble?" I asked. "Why not just throw the paper in the trash?"

"Because somebody might find it in the trash and read that letter and have his mind poisoned by it," was the firm reply.

Until this year my mother had all her own teeth but one, a molar. Last winter she had a toothache, a new experience for her, and a dentist drilled and filled the tooth that was signaling for attention. In March another molar gave her trouble. This
