Study Hall Will Open Next Week

An early evening study hall for junior high and high school students will be opened on Wednesday and Thursday nights in the Chapel Hill High School building. The study hall will be held from 7 to 8:30 beginning Wednesday night, November 13. Volunteer teachers and tutors will be available to the students during this time.

Parents of the students who attend the study hall are requested to see that the students get to the school on time and return home promptly.

The study hall is sponsored this year, as it was last, by the Integration Fellowship and is open to all students who need a welllighted and comfortable place to study, as well as the occasional service of an instructor.

The volunteer teachers who will help with the study hall are requested to meet at Franklin Street Elementary School tomorrow at 7:30 p.m. to set up a schedule and to learn the needs of the students.

For information about the study hall, telephone the YWCA,

Auto Insurance Claims

Just how fast is this "fast claims service" insurance companies talk about? At Nationwide, we pay over half of all our car insurance claims within 24 hours after proof of loss! Fair, fast claims service (through 1,500 claimsmen) is one reason why 9 out of every 10 of our 21/2 million auto policyholders renew with us again and again. When trouble comes, it pays to have Nationwide coverage. Why not call me for rates

WINS FIRST PLACE

been awarded first place in the 1963 Community Development Program. The judges were James Y. Blackwell Jr., Mrs. David Wright Jr., and Mrs. Clyde Barker, all from Caswell County, who said: "We have found the Judging of these communities very difficult as they have each done so many things toward improvement. We wish to congratulate each of them and wish them continued growth toward their

Other communities visited by the judges during the day were New Hope, Orange Grove, Buckhorn, Schley, and Caldwell. The winners of second, third, and fourth places will be announced at a later date. The St. Mary's Community will represent Orange County in the area judging of the North Central Area Development Association which will be held on November 11. The area includes Durham, Person, and Orange Counties. Both the area and all county winners will receive their awards at the banquet to be held in the Durham Civic Center on the evening of November 12. The Community Development Program in Orange County is sponsored jointly by North Carolina National Bank of Chapel Hill and the Hillsboro Branch of the Central Carolina Bank and Trust Co.

The St. Mary's Community program, under the directions of Richard Roberts, chairman; Wallace Bacon, vice-chairman; and Mrs. H. S. Walker, secretary, combined the efforts of their local Orange, Home Demonstration Club, three 4-H Clubs, Juvenile Grange, and the New Sharon Methodist Church. A great many activities benefitting both the home, the farm, and the community were carried out by the 91 families living in the com-

NICKELS FOR KNOW-HOW

Dr. H. B. James, Dean of the School of Agriculture at North Carolina State, points out the Nickels for Know-How funds have provided money with which research workers could attack as they arise many problems of importance to the agricultural economy of the State.

In Dean James' view, this ability to take immediate action has been a very real strength of the Nickels for Know-How program. Nickels funds have allowed the staff to move into areas of needed research without having to wait for federal or state appropriations or curtailing on work already underway. Dr. Roy L. Lovvorn, director

The fourth annual Northwestern District 4-H Leadership Recognition Program for leaders will held at the University of North Carolina in Greensboro on Saturday, December 7. This program will feature club members giving demonstrations, 4-H talks, reviewing camp and other 4-H activities. There will also be a panel discussion from leaders in the counties throughout the district discussing their successful programs, projects, activities, and other events they have had in their club or county during the year. There will also be an inspirational speaker for the luncheon. Orange County is looking forward to having a good attendance to this meeting.

The School of Agriculture at North Carolina State held its open house Saturday, November with the theme "Of Life and Science." Approximately 1,500 students attended the meeting coming from mostly every county in the State. Forty-seven delegates from Orange County attended. The theme was appropriate to point out the fact why the School of Agriculture at North Carolina State has its open house annually: Three jobs, on the average, are waiting for each of the school's graduates. Two will go unfilled unless more people realize the opportunities that come from studying living things. The students attending Open House became aware of the needs for scientists, businessmen, and technicians in the field of agriculture from the fine exhibits put on by the departments of the School of Agriculture.

Aging Association To Hear Dr. Boyd

The Association for Aging and Community Relationships will meet Friday night at 7:30 at the Institute of Pharmacy on Church Street.

Dr. Bernard Boyd, Professor of Biblical Literature at the University, will speak on his last summer's experiences digging in Palestine. Dr. Boyd is well known not only for his classes at the University but also for

his television programs.

The talk will be followed by a social hour. The public is invited. Persons interested in joining the Association or learning more about it are urged to attend this first Association meet-

SITUATION NORMAL—Next time you get a backlash on your fishing reel, or your knitting snarls irreparably, don't feel bad. Consider the poor telephone lineman who has to keep this kind of tangle straight so that telephone users won't call a number in Eastgate and get an answer from Carrboro. The Chapel Hill Telephone

Co. recently installed a section of line on the Farrington Road giving residents of that area the complete telephone service they had been waiting for, and a photographer was on hand to record the event for posterity. Let's see, now, this little red wire here must go to — um. . . .

Where fire safety is vital...

modern walls of concrete masonry are the answer?

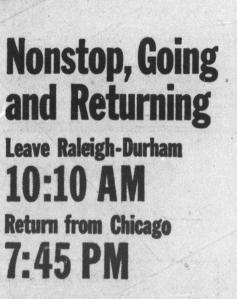

Fire protection should be an important consideration when building a new school. Concrete masonry provides this protection—at exceptionally low cost, Helps keep classrooms quiet, too. Reduces sound entry into rooms-decreases need for sound-proofing within rooms.

All this and beauty, too. Concrete masonry is one of today's most attractive building materials—for both exterior and interior walls.

Called new-type living concrete, it is easily painted or integrally colored. Available in many new sizes and styles, types and textures, it readily adapts to suit any style school. Add long life and low maintenance, and it's easy to see why more and more communities choose concrete masonry for their new schools. Detailed information is yours for the asking.
