

Heart Hootenanny Here Friday Night

A Hootenanny Folksing will be held at Memorial Hall Friday at 8 p.m.

The Folksing will feature a bevy of regional balladeers and folksingers, including Marinda McPherson, the Rovers, Forrest Covington, Carter and Margot, and "The Hitchhiking Troubadour" Mike Williams.

Master of Ceremonies will be Jimmy Capps, Raleigh diskjockey well-known here for his "Our Best to You" radio program.

Tickets will be \$1 per person, \$1.75 per couple, and all proceeds go to the Heart Fund. The Heart Fund supports the research and education programs of the North Carolina and American Heart Associations. The state and national heart groups have channelled well over one million Heart Fund dollars into heart research at the University of North Carolina School of Medicine.

Help the needy through the Community Chest.

Scale Model Of The Woolen Gym Addition

Those Sweatbox Days Are Nearly Over

UNC basketball fans who have packed into Woolen Gymnasium's 4,500 bleacher seats to watch games during the past few years only have about a year to go before going to a UNC home basketball game will be much like going to the movies.

Bids on the seven contracts for what will be the largest rigid frame structure in North Carolina will be opened here on January 8. The structure will be the auditorium addition to Woolen Gymnasium, for which the General Assembly has appropriated \$1,200,000.

The Charlotte Coliseum is about the same size as the planned Woolen auditorium, but is a dome structure. Architect Donald Stewart of Chapel Hill, who designed the auditorium, said the addition to Woolen would be ready for use early in 1965, depending on delivery of steel orders.

The tremendous engineering problem of roofing a span about 300 by 200 feet has been solved by what is known in engineering circles as a compression ring above and a tension ring below. The steel compression ring, 24 feet in diameter, will support steel and concrete arms, the longest of which will be about 160 feet. The arms will be connected to steel and concrete uprights around the outer edge of the auditorium. The lower ends of the uprights will be connected by 2 1/2-inch cables to a steel ring 16 feet in diameter under the auditorium floor. Thus, the uprights' pull on the tension ring equals the arm's push on the

compression ring, supporting the roof.

The auditorium, which will contain 6,500 permanent theater-type seats in a three-quarter bowl arrangement facing the existing Woolen Gym, will displace the present east Woolen parking lot and one of the five playing fields laid out on intramural field. Entrance to the building will be from the street, and from the east side, with service entrances in the rear. If bleachers are erected on the west side of the auditorium, its total seating capacity will be near 10,000. The structure has been designed so that no spectator will be farther than 88 feet from the playing floor. There will also be a stage in the auditorium, for other functions besides basketball games, such as plays, speeches, and indoor commencement exercises.

The auditorium floor will be about eleven feet below the pres-

ent east Woolen parking lot level, opening into the locker rooms underneath the present varsity basketball court. The roof will be completely closed in to provide optimum light conditions for television coverage of activities in the auditorium.

The whole auditorium will almost completely hide the present east side of Woolen Gym, connected to Woolen by expansion joints with a tolerance of about three inches.

Mr. Stewart has already received nine bids for the general contract, from one South Carolina and eight North Carolina construction companies. The other six contracts for the job are for electricity, heating and ventilation, plumbing, a sound system, elevators, and seating. Mr. Stewart started working on the plans for the building last February.

Johnston Elected SACS Officer

Dr. Joseph M. Johnston of Chapel Hill, a member of the staff of the North Carolina State Department of Public Instruction, has been elected chairman of the Commission on Secondary Schools of the Southern Association of Colleges and Schools. Dr. Johnston was formerly superintendent of Chapel Hill schools.

The election took place during the annual convention of the Southern Association at Memphis, Tenn., last week. In this position, one of the three highest offices in the Southern Association, Dr. Johnston will be responsible for directing and coordinating the work of the Commission on Secondary Schools with the more than 2600 member schools in the 11 Southern states and in the countries of Latin America. In addition, he will serve on the Board of Trustees of the Southern Association. This Board is the official governing body for the entire association and is responsible for directing the work of the organization with both colleges and secondary schools.

Town Is Presented 1962 Safety Award

The Town of Chapel Hill was presented the N. C. State Motor Club's Traffic Safety Award for 1962 today for its record of having no motor-vehicle fatalities within the Town limits last year.

The last traffic death prior to 1962 was recorded here on Oct. 9, 1961.

At the award ceremony, a framed parchment certificate was presented to Mayor Sandy McClamroch and Chief of Police W. D. Blake by James E. Coleman, Orange County district manager, on behalf of "The South's Largest Motor Club" and the National Automobile Association, with which it is affiliated.

"It's a real privilege and a pleasure to present Chapel Hill with the N. C. State Motor Club's award for its fine achievement in traffic safety," Mr. Coleman

said. "Your record of five fatality-free years out of the last seven speaks highly for the cooperation of city officials, law enforcement officers and the general public. We sincerely hope you have already started on another long string of deathless days."

He also commended The Chapel Hill Weekly for "the part it plays in the safety effort by bringing timely messages to the public's attention in a forceful and effective manner."

ORANGE METHODIST

The Rev. David B. Lewis's sermon topic at the 11 a.m. service at Orange Methodist Church Sunday will be "Yearnings That Never Die." Sunday School begins at 10 a.m. and Methodist Youth Fellowship will meet at 5:45.

Beta Sigma Phi

Expresses Thanks

The Beta Sigma Phi Sorority members wish to express their sincere appreciation to the following persons for their valuable assistance in making the sorority float for the Christmas parade: Bob Klukas for the use of his garage for the second year to build and store the float, Mr. Klukas's (Bob's Garage) garage is located behind The Imported Cars, Ltd. in Carrboro. Tracy Hackney of Hackney's Flower Shop in Carrboro for his time and decorative arrangements; and Joel Hackney, Donnie B. Ward, Donald Sparrow and Lindy Sparrow for their invaluable help. Without these men the sorority would not have entered the Chapel Hill Christmas parade.

NEW CHEVELLE!

BY CHEVROLET

The kind of go—6 or V8—you'd expect from one of Chevy's great highway performers. Come on down and drive it.

The kind of comfort you'd expect in a large interior. Come on down and sit in it.

The kind of fresh styling—inside and out—that makes it the year's smartest surprise. Come down and stare at it.

New Chevelle Malibu Sport Coupe

Now—Chevy spirit in a new kind of car!

We built this one to do a lot more than just stand around looking beautiful. Held its weight down in the 3,000-pound range. Then built four lusty engines for it—two sixes and two V8's—with output all the way up to 220 horses*!

And if that combination of modest weight and potent power makes you think this is one frisky car, you've got the right idea.

You've also got a car with lots of room for legs, hips, shoulders, hats and luggage. Yet its 115-inch wheelbase keeps it highly maneuverable in traffic and very easy to park.

With its Full Coil suspension and snug insulation, it's got a ride that reminds you of the Jet-smooth kind the

way it muffles noise and cushions you from bumps.

And the fine hand of Body by Fisher craftsmen shows up beneath this one's suave good looks, too. Just listen to the solid *thunk* of a door closing or look at the smooth metalwork. You'll see what we mean.

Sound good so far? There's more. Like the fact that Chevelle comes in three series with eleven models—convertibles, sport coupes, sedans, wagons, even Super Sport models with front bucket seats. Like the fact that (and see if this isn't one of the nicest surprises of all) the new Chevelle comes at an easy-to-take price!

Like to hear more? The listening's wonderful at your Chevrolet dealer's—and so's the driving.

See five entirely different kinds of cars at your Chevrolet Showroom—CHEVROLET, CHEVELLE, CHEVY II, CORVAIR & CORVETTE
