POISON IN THEASHES What the Mt. Lebanon Shakers Found-Incident in the Histery of a Quiet Community.

The Mount Lebanon (New York) Shakers are a quiet community, secluded from the fret and worry of the outside world. They are widely known, however, for their strict honor and probity in business.

The Shakers believe that nature has a remedy for every disease. A few have been found---the rest are as yet unknown. Many were discovered by accident. Others came to light as the result of patient experiment

nervous system. These two were formerly treated as separate ailments, and it was left for the clear-sighted Shakers to prove that the basis of this terrible and often fatal complication lies chiefly in the disordered and depraved functions of digestion and nutrition. They reasoned thus:--"If we can in-duce the stomach to do its work, and stimulate the excretive organs to drive out of the body the poisonous waste matters which remain after the lifegiving elements of the food have been absorbed, we shall have conquered Nervous Dyspepsia and Nervous Exhaustion. And they were right. Knowing the infallible power of Shaker Extract (Seigel's Syrup) in less complicated though similar diseases, they resolved to test it fully in this. To leave no ground for doubt they prescribed the remedy in hundreds of cases which had been pronounced in-curable—with perfect success
