Extreme Weakness

Chronic Diarrhoea for Years - Feet and Ankles Swelled and Blood Was Out of Order-Cured by Hood's Sarsaparilla.

"I was troubled with chronic diarrhos for eight years and tried everything I was told was good for it, but no medicine did me any good. I kept up all the time but was so weak I could not do anything. If I walked a few hundred yards I would be out of breath. My feet and ankles swelled very badly and I had about given up all hope of ever being well. I read about Hood's Sarsaparilla, and, knowing my blood was out of order, decided to give it a fair trial. I have now taken nine or ten bottles of it and several bottles of Hood's Pills, and I am perfectly well." MRS. S. A. WARD, Battleboro, N. C.

An Important Correction

Editors Sentinel. Having been confined to my hom by sickness my attention was recently called to a statement made in the Union Republican of July 28th, in which that paper charges that the convention of July 9th, over which I presided, was held in the office of a Democratic lawyer and that only eight people were present. Both of hese statements are entirely false, The convention was attended by delegates from nearly every township in the county, and was held in the office of Mr. P. T. Lehman, a Republican Justice of the Peace. It was central and public, and was open to spectators as well as delegates. The Republican was asked to make this corcause failed to do so. August 17, 1898. More Rock for the Fort.

J. G. BLACKBURN.

It is learned on good authority that the hauling of rock over the C. Y. V. Railroad, for the fort near Wil mington, which has been suspended for the last few weeks, will be resumed shortly. After completing the emplacements for the twelve-inch rifles, the government will build a number of mortar batteries for which large quantitles of rock will be needed. The Mt. Airy Granite Company will furnish the rock as usual. It will be transported down the river from Wilmingon by contract, it is thought now, instead of by the government boats and scows.

IN THE SHAPE OF A CROSS

uriosities With a Legend Attached-"Fairy Stones" Fraud.

Supt. O'Brien, of this division of the Southern railway, has in his poss ession a few specimens of what is known as "Fairy Stones," said to be found only in Patrick county, Va. They are curiosities, every one of them being in the shape of a cross, but different sizes and shapes. Some of them are imperfect as regards design, but the cross is there, plain and un-mistakeable, on every one. The only esemblance, one to another, is in the olor, a dark red. Mr. O'Brien first ran across them in

Danville, where a man was selling them. They are small and make nice There is a legend connected with them, however, which is interesting, but of course is a big tale, though could one hear the vender repeat the story as it has been handed down from generation to generation, he would be amused if not impressed. The story is that when Christ was crucified the hest means of disseminating the news was by the fairies all over the country and the story that Christ had died to redeem the world was first learned through the fairies. The legend goes

on to say that when the news reached the fairies over in Patrick it of course created a profound impression, as it did everywhere, but that country went it one better, for immediately after it was known some of the old ferrymen found along the shores of the river and in fact in divers places, stones in the shape of a cross. The first 'find' contained a half dozen or more and soon the whole populace was engaged in the search, and the stones were found in abundance and are yet to be found there, but the demand is about over, though an old fellow yet visits Danville and other points and finds an occasional sale.

One's first impression is that the stones are manufactured to order, but if they are the process has not been liscovered by an outsider, in fact it is hard to see how such a thing could be done, for it is said no two have ever been found alike in shape or size

A HOSPITAL TRAIN.

It Carries 180 Sick Soldiers to Hospital Near Washington.

A hospital train passed through Greensboro at noon Thursday. It was from the South and was enroute to Washington. There were about 180 sick soldiers on the train. The seats in the five coaches were taken out and beds put down for the sick. Each car was provided with two trained nurses. The soldiers will be placed in the gov ernment hospital near Washington. On this train was U. S. Myers, of Wilkes county, who volunteered seve ral weeks ago and joined the Second North Carolina Regiment. He has een at Fort McPherson, S. C. He was able to go home and secured a furlough for thirty days. Myers came up on Capt. Stagg's train that after noon. He could not reach home until Friday, as no freight went up in the afternoon. He had his gun and other equipments with him and had the ppearance of a soldier in every par-

Statement from Secretary Nichols. The Board of Agriculture is being criticized for not making an appropri crease the premium list. Some excuse the action by saying that "judging from the past Messrs. J. S. Carr and Vanderbilt and a few others would

have gotton the money." Secretary Nichols of the State Fair answers this assertion by saying that only twice has Vanderbilt exhibited at he fair; that in 1896 he lost the prem um to a Forsyth farmer and that in 1897 he did not received premium enough to pay his freight bills to and rom Raleigh. That as for Mr. Carr, while the premiums have been awarded him, he has never drawn a cent's worth of premiums from the Fair As sociation, and they still stand to his redit on the books.

He speaks encouragingly of the political outlook. The Democrats are gaining new friends every day, he says. He has been through most of the east, as far as Rockingham county on the Virginia line, Richmond county on the South Carolina line and as far as Charlotte through the centre of the State, and says with absolute certainty that in all the sections where he

The wife of Mr. John Sutherland, living about eight miles northeast of Winston, was hooked by a cow Wednesday, Aug. 17. She was attended by Drs. Bynum and Dalton. While her injuries are serious, the attending physicians think she will recover. It appears that Mrs. Sutherland led th cow out in the lot to graze and while in the act of driving a "stob" in the ground, with which to hold the cow, the animal became angry and rushed upon her, knocking her down and cutting gashes several inches with the

This has not yet been done. A concert of action is necessary and there is no time for delay, if the road is to be built by the present charter.
