# Case of Poisoning

Hood's Sarsaparilla Drives the Polson from the System, Quiets the Nerves, Relieves Dyspepsia and Catarrh.

"While in the army I was poisoned inwardly with poison oak, and I did not get well for 15 years. My blood became so iffected that I was taken with a hacking ough, and I was thought to be going nto consumption. I took many different nedicines without avail, and finally resolved to try Hood's Sarsaparilla. When had finished taking the first bottle the pimples began to disappear from my oody, and after I had taken three bottles was well. I have also suffered with catarrh in the head and have been taking Hood's Sarsaps rilla for this trouble, and it helps me. In fact I take it for all all-ments and believe it has no equal as a blood purifier. It quiets the nerves and gives refreshing sleep. It has relieved me of dyspepsia and built me up." J. I. Protest Against Bombardment of Candia-Porte Refuses to Withdraw Turkish Troops in Spite of Decision of the Admirals.

CONSTANTINOPLE, Sept. 14.—The rkish government has sent a circu lar to the powers alleging that the tritish prevoked the disorders at Candla, claiming the present situation was adopted by the powers in Crete and protesting against the bombardment of Candia. Finally the Porte announces its refusal to withdraw the Curkish troops from Crete in spite of the decision of the Admirals that such a step is absolutely necessary. The circular has made a bad impression in liplomatic circles.

NO NEW DEVELOPMENTS. CANDIA, Sept. 14.—There are no new developments in the situation here, which is peaceful. The Mussulen say they have decided to accept he ultimatum of Admiral Noel calling for disarmament of the populace if the Admiral is sure he has sufficient force to overcome the Bashi Bahouks. Otherwise they beg him to wait until urther reinforcements arrive.

WITH A PROVISO. Candia, Sept. 14.—The Bashi Bahouks have consented to disarm, provided their arms are delivered to he Turkish authorities.

Pering, Sept. 14.—Marquis Ito, reently Premier of Japan. has arrived at Tien Tsin. It is believed his purpose is to establish an offensive and defensive alliance. He is charged to examine into the possibility of the recovery by China of what she lost and becoming useful as an ally. No doubt there is strong bias lately among leading Chinamen toward Japan, whose reforms the Emperor of China is attentively studying.

# In a Mudd e Over Tax Books.

It appears that the Commissioners and Sheriff of Wilkes county are in a muddle" over the tax books, which, it is claimed, were irregularly turned over to Sheriff Call. The delinquent taxes had not been run up on the books, as was ordered to be done several meetings ago. However, books were turned over to the Sheriff and an order to that effect appeared on the minutes, though three of the Commissioners say the order was put on the minutes without their knowledge or consent and they entered their proest on the minutes. There will probably be trouble over the matter yet, says the Chronicle.

Mr. Wallace, it will be remembered, was in Winston several days during the spring of 1897 helping the Public Printers distribute the laws and publie documents. As an extenuation it is claimed that Mr. Wallace is suffering on account of his wife's recent misfortune of having lost her mind in so much that she has been confined to the Central Hospital in Raleigh.

### PROF. RAPER'S LECTURE. An Account of this fravels in Eng-

land and Scotland. The first of a series of lectures to be iven mon. by before the high school department of the Winston Graded Schools, was delivered last week in the Y. M. C. A. audito ium by Prof. Chas. L. Raper, late professor of nistory in Greensboro College,

Prof. Raper is also well known in he State as the author of a book entiled, "Church and Private Schools in North Carolina."

He is a pleasing and impressive speaker and delivered a most excel-ent lecture, taking as his theme an count of his travels in England and Scotland. After narrating the events of the voyage from New York to Liverpool, he speaker geographically described

present home of the distinguished writer, Tom Maclaren, the city of Oxford with its 20 colleges, Windsor, made famous by Eton College and the royal home of the King and Queen of England, and lastly London, the greatest of all cities in the world. It is interesting to know that the present population of London equals

lina and Georgia combined, and ex-ceeds the combined population of Paris and New York. Mr. Raper told of his visits to the old homes of Milton, Dryden, Shake-speare, Carlyle, and other distinruished literary men, and of the places made famous in the writings of Dickens and Thackeray. He described the old tower built by William the Conqueror, Westminster Abbey, with tombs and monuments, and the

British Museum, containing the second largest library in the world. One of the most interesting parts of the lecture was an account of the "Queen's Jubilec" on the 60th anniversary of her reign. The 22nd day of June, 1896, was the great day, and Mr. Raper was fortunate enough to be in London at the time. It is estimated that seven and one half million

people were in attendance upon this great event. Next, a fine account of the speaker's trip to the highlands of Scotland was given, in which were described Ab-bott's Ford, the home of Walter Scott, the famous lakes, rugged scenery and places visited, the speaker remarked hat Scotland was the most charming and inspiring. The lecture was highly appreciated

Last year it was talked that the Postal Telegraph Co. wanted to extend its line from Raleigh to Winston-Salem, but that the Southern reused to allow the Postal a right of way along its line. The telegraph people entered suit and the Asheville Citizen says that Judge Simonton has filed his opinion in the case in which he holds with the plaintiff and directs that commissioners be appointed to assess damages in accordance with section 1945 of the code of North

Carolina. The plaintiff sought to condemn right of way along the line of the Southern in certain counties of the State in which the Postal Company desired to erect poles for a parallel telegraph line. It is presumed that the case will be appealed.

A White Man Named Puckett, for an Attempted Assault.

A drummer from Mt. Airy informed a SENTINEL reporter Wednesday, the 14th inst., that a white man attempted to assault two white ladies in that town on Tuesday and that a brother of one of the girls got a crowd of men, followed the assailant and shot him dead. The drummer could give no further particulars.

A telegram was sent to the Mt. Airy News and the following reply was received:

that the trouble occurred near Friend's

Mission, about ten miles from Mt.

Airy. He says only one man has

been hung in Patrick and the slowness of the courts, he thinks, is responsible for the action of the men who killed Puckett. From another source it is learned that Puckett, about a year ago, was discharged from a prosecution for touse-breaking upon the plea of lunacy. He was sent to an insane asylum, but

scaped in a short time, and has since been going at large, While he was on trial for attempting o assault the two ladies Puckett was taken from the custody of the deputy sheriff by a mob, carried a short dis tance, and shot to death. It was all done in the day time and no attempt was made at co of the participants are well known. No been made as yet, The ouble. strongly approves of the action of the
