### CZAR IS VICTORIOUS

Wins Completely In First Clash With The Russian Douma.

National Assembly Does Not Take Action Resenting His Refusal to Receive Delegation But Quietly Proceeds With Business.—This Is Regarded As a Virtual Surrender to the Czar.

ST. PETERSBURG, May 21.—Emperor Nicholas has won an unequalled victory in the first open clash with the Douma. Deputies today in the face of a direct refusal of the Czar to receive deputation from the Douma to present answer to address from the throne, which was characterized as a direct challenge to no assembly, hauled down their flag, so to speak, and refused to accept the invitation to fight. In view of this fact, extended caucuses were held yesterday by Constitutional Democrats to decide what course should be taken by the Douma. The action today is significant. The surrender of Douma on this vital point, namely right of representatives of people to address the Czar directly, has aroused greatest discussion and brought great criticism upon deputies. The general public is indignant to think Douma has quietly swallowed insult from the throne and there can be no denial of the fact that prestige of Douma among people has been endangered by its surrender. The populace which has looked to deputies to uphold contention of supremacy of people is disgusted that no fight was offered when direct challenge was offered by the Czar. He was undoubtedly influenced to take the course he did in directing that reply of Douma must be transmitted to him through ministry of court.

It was expected a general outcry against the Czar would be raised when Douma met this morning. Instead deputies passed a resolution to proceed with "order of day," thus ignoring the slight of the emperor.

### MR. CHANDLER AND HIS PRESENT JOB.

WASHINGTON, May 17.—Since ex-Senator Chandler has appeared in the role of enemy of the administration by accusing the president of being a juggler of the truth speculation has been busy as to what measures the executive would take to "get even," at least what would happen to Chandler. Some reckon it would be his official beheading as president of the Spanish Treaty Claims Commission.

Chandler's job is absolutely at the mercy of the president. The president could remove him but it is understood he will not revenge himself in this way. Perhaps he would do so if his arch enemy had a long tenure of office but there are only three and a half months longer for the commission to serve. It is hinted that Chandler might welcome his removal as it would give him an opportunity to be more outspoken.

### FORSYTH SUPERIOR COURT.

Mr. R. S. Galloway Chosen Foreman of Grand Jury.—Large Docket. From Monday's Daily.

Forsyth superior court convened today. Judge R. B. Peebles is presiding. There are more important cases on the docket than at any court held in this county in several years. It is supposed to be a two-weeks' term but as it conflicts with Ashe court it is not known yet what arrangement will be made for next week. Judge Peebles is scheduled to hold both courts. It is thought now that the trial of Sam Kobre, William Pleam and J. E. Whitebeck, charged with the murder of Henry Kobre, in this city, January 19, will be heard this week.

The following were drawn and sworn in as grand jurors for this term: John W. Shamel, Chas. A. Jones, R. L. Finch, G. C. Hine, W. A. Lemly, R. C. Chick, Austin M. Charles, Robert R. Crowder, J. M. Greenfield, Julius F. Lashmit, J. A. Southern, D. A. Smith, Simeon G. Nelson, W. H. Leak, R. S. Galloway, Jas. W. Schouler, John A. Watkins and R. J. Hester. R. S. Galloway was chosen as foreman.

The following were excused from service for the week: W. V. Bodenhamer, W. A. Whitman, W. H. Goslen, Watt Martin, Ernest Transon, J. M. Rogers and N. L. Cranford, J. M. Greenfield and W. H. Leak, of Kernersville, were excused by the foreman.

Judge Peebles' charge to the grand jury was brief but practical.

### HACKETT GETS IT.

Carries Watauga Democratic County Convention Almost Unanimously.

Now Seems to Be a Sure Winner.—Already Has 111 Out of a Necessary 154 Instructed.—Forecast on Vote in Remaining Counties.

Telegraph and telephone messages just received from Watauga county state that at the Democratic county convention held at Boone Monday Mr. R. N. Hackett, of Wilkes, received an almost unanimous endorsement for the Democratic nomination for Congress.

Thus far only Stanley, Rowan and Watauga have held conventions and Hackett has received from these counties 84 instructed votes, while the two opposing candidates have received together only 11 votes. Add the vote of Wilkes, conceded to Hackett, and he already has 111 votes sure, of the 154 votes needed to nominate.

The Sentinel has gleaned information from reliable sources in all the counties, and, conceding Iredell, Caldwell and Ashe to their respective candidates (and Hackett really has strength in them all) and compiling the vote of Surry, Alleghany, Cabarrus and Alexander, giving the opposition about all they can claim, and the first ballot in the convention when it meets on June 14 will be: Hackett 188, Armfield 54½, Bowie 36½ and Newland 28.

So it seems that unless something unusual happens the "tall sugar-tree of the Watauga," "drummer boy," "great martyr," or whatever you may choose to call him, will be compelled to meet on the stump during the hot summer and fall months the favorite orator of the great State of Wilkes.

### DR. LILLY'S SERMON.

Delivers Splendid Discourse Before Graduating Class of Peace Institute.

RALEIGH, May 21.—The baccalaureate sermon for the Peace Institute commencement was delivered yesterday morning at the First Presbyterian church by Rev. D. Clay Lilly, D. D., pastor of the First Presbyterian church of Winston-Salem. There was an audience present which taxed the seating capacity of the spacious edifice and the discourse was a splendid one.

Dr. Lilly chose for his text Ephesians 3:19, "That ye might be filled with all the fullness of God."  
Dr. Lilly opened his discourse with a comparison of a bird of beautiful plumage and abounding life with a bird of dirt in the road. The bird, he declared, fills the eye with gladness and pleasure whereas the bird is lifeless, worthless thing appealing to no human sense.

He impressed the thought that the idea that God has for human life is as far above that entertained generally by man as is the bird life above the clod. The human life he declared to be of most interest in all creation and in close touch with God. He gives life and health to fowls of the air because it is their need. Surely then human needs will never be unsatisfied if the human power to know what is good and seek it at the hands of God is exercised.

He charged the young ladies that God has for them all they need in order that God's purpose for them shall be fulfilled; that God's Providence was working in their lives in their having attended Peace Institute as in other affairs of life and if their spirits were in the proper attitude all these dispensations would be toward the perfecting of their spiritual lives.

Dr. Lilly besought the young ladies to strive for the fullest achievement which God has set for them. "There is a measure set for each one and may you be so filled as to measure up to the fullness of God's conception of your possibilities," said he.

The speaker warned his hearers against the danger of their own ideals of life being realized, charging that the best of these was sordid and earthly, but may, instead, the aspirations of God for each life be attained. He pleaded that the thought of God be substituted for the individual's thoughts.

### HOUSE MUST ACT

Rate Bill Has Been Referred Back To That Body By The Senate.

House Will Either Concur In Senate Amendments And Pass Bill In Present Shape or It Will Be Referred to Conference, Latter Course Being Probable.

WASHINGTON, May 21.—The railroad rate bill, as it passed the senate, was sent to the House at 12:15 today. The significance of the incident was lost on the galleries as well as on most of the members of the House. The Senate messenger read it by number, "H. R. 12987" as well as by title and announced that concurrence of the house was requested in the Senate amendments to the bill. It was carried to the speaker and constructively will "lie on speaker's table" until discussion shall have been reached on the course now to be pursued.

The committee on interstate and foreign commerce at its meeting this evening may agree on a program, although it is generally believed some time will first be devoted to conferences. There have been persistent rumors that the House may concur in amendments, thus obviating necessity of sending the bill to conference of two houses, but Chairman Hepburn deprecates such statements. In the opinion of Speaker Cannon a conference in the end will be necessary.

### CHINAMAN SUICIDES.

Sim Lee Takes His Life in Peculiar Manner in Greensboro.

GREENSBORO, May 21.—Nobody here ever heard of a Chinaman committing suicide before, but at least five thousand citizens, men and women viewed the dead and hanging body of Sim Lee, proprietor of the principal Chinese laundry here, yesterday afternoon. About six o'clock yesterday afternoon two boys came running out of the alley at King & Kimball's law office in front of the court house, white as sheets, declaring there was a dead man hanging in the ware-room in the rear. Investigation proved that it was the Chinaman, whose laundry establishment was in front of the warehouse, facing the federal court building, on East Market street. The body was stiff and stark, every particle of clothing being just from a store, even to his shoes being new. He had taken a piece of iron piping, tied a silk scarf around it, poked this through a crack in the planks of the loft, turned the piping, stood on a cracker box, and with the noose around his neck, stepped off, the step being not over twelve inches, his feet nearly touching the floor and resting against the side of the box. He must have choked to death without a struggle or effort. His brother, who is a partner in the laundry, was soon found, and his excited astonishment and grief was touching. He said that "Sim" had been sick with consumption for some time and a few weeks ago his physician told him he could not live long and this preyed on his mind. He had been arranging to go to Washington for several days and from there to New York to be nearer home when he died, and Saturday said he believed he would go to Washington on the midnight train last night, that he left the laundry about midnight, after all the work was over, but did not say good-bye. Thinking that he had gone to Washington on a sudden notion on the 1 o'clock train Saturday night or Sunday morning, he had not felt troubled about his absence. Coroner Turner pronounced death from suicide after examination, from the condition of the body, death having occurred between midnight and day Sunday morning. The Chinaman in the city soon gathered, and had an undertaker to place the body in a casket. Examination satisfied them, they said, that Sim had done his own shrouding and would not like to have anything done further than this. Every stitch of clothing on the body was brand new, even to the silken scarf which made his hangman's rope.

The remains were on a fast north-bound train within two hours time from the time the body was cut down. The body will be taken to New York, there embalmed and returned via San Francisco to his native land in China for its final rest. Sim Lee was 25 years of age, was well thought of and had made a comfortable fortune.

The body being found right in the heart of the city, within fifty feet of the street car junction at Market and Elm street crossings and on Sunday afternoon, made it natural for crowds to view the gruesome sight. It was an hour before the coroner came, and the body while hanging was viewed by crowds of curious people, many women and children taking a look.

Nearly Fifty Others Badly Injured By a Boiler Explosion Today.

NEW YORK, May 22.—The explosion of a boiler in the New York Glucose Works at Shadyside, N. Y., this morning, followed by fire, resulted in the death of at least one person and fifty injured, some of whom will die. Reports say more bodies are in the ruins. Five hundred men were at work in the building when the defective boiler exploded. A roll of those employed is being taken to determine just how many fatalities. The four-story brick building, 100x200 feet, was completely wrecked. The out buildings were blown to pieces. Calls were sent to nearby towns for ambulances and the police and sailors of warships anchored nearby in the Hudson river were asked to aid in the rescue. Hundreds of employees had just settled down to their daily task when the explosion came. Fire immediately followed the explosion and scenes of the wildest excitement ensued. Those who escaped set to work to extinguish the flames and rescue the unfortunate fellow workers who were injured or pinned down in the ruins. The work of rescue was retarded by cries of hundreds of women and children who insisted on entering the wrecked building to search for husbands and fathers. Just west of the boilers where the greatest damage was done there were fully one hundred men at work. Hardly one escaped without injury.
