WINSTON-SALEM, N. C., THURSDAY, JUNE 14, 1906.

PRICE 5 CENTS

AMERICA TO ACT.

Join In The European Movement To Suppress The Anarchists.

England And Switzerland Probably Hold Conference To Consider Means of Ridding Those Countries of Anarchists.—Will Recommend Congressional Action.

Geneva, Switzerland, June 7.—A national conference to discuss means for dealing with anarchists is in session in the city of Geneva, Switzerland, and in the most part, as these are the only countries where anarchists receive protection, an effort is to be made to induce these three countries to join the world for a suppression of anarchism. An informal exchange of views is now proceeding between delegates of each country.

Washington, June 7.—It is possible that congressional authority required before the close present session of Congress to the government to take part in international conference, such as suggested from Geneva, is no question that deep efforts is held by this government to suppress anarchists of all types and to prevent such as that recently committed.

The present immigration laws are difficult for European anarchists of known tendencies to the use of violence to find their way into this country and it is difficult for those who had been expelled from this country to return. The States here would either be at the port of embarkation or point of arrival here. The system of inspection of immigrants into this country is regarded as

AMERICAN TO ACT AS CHINA'S REPRESENTATIVE

Washington, June 7.—John W. Foster, former secretary of State, has been appointed by the Chinese government as its representative at the Hague conference.

It is said to be one other case where the Chinese government has delegated to a citizen of a country such important diplomatic functions. That was in 1872 when Burlingame resigned his American minister at Peking to make negotiations of a commercial treaty for China.

HE DISCUSSES AGRARIAN PROBLEM

Petersburg, June 3.—Dr. J. W. B. of agrarian problem is claimant of domain to practical solution of all other subjects. Experience has been brought to the laborer by the flood which has been flooding their fields demanding that they attend to the agrarian question. It is also insisted that the burden be given to relieve the farmers. The effect of this on part of the big body of farmers has been to stir labor departmental exertions to see that they shall take some definite action reforms which will benefit the farmers. Every other subject side-tracked to allow debate on agrarian troubles to proceed. A vote was made today to limit time for agrarian in order to expedite work on other matters.

IS POSSIBLE FUEL FOR WARSHIPS

Washington, June 9.—The navy department has decided to make use of oil as a possible fuel for warships. It is proposed to use kerosene in practical demonstration arrangements are being made out that vessel at Mare Island for that purpose.

Accessions to Association. Merchants Association held a meeting last night. There were six accessions to the organization. Principally routine business was transacted. The delegates of the association and perhaps some of the merchants will leave on Monday next for Morehead City for the annual meeting of the Carolina Retail Merchants Association.

SEVERAL ARE KILLED

Cyclone Swept Southern Minnesota and Wisconsin Last Night.

The Exact Number of Dead Is Not Known, Though Four Persons Are Known to Have Been Killed And Many Injured, Some of Them Fatally.

LACROSSE, Wis., June 7.—Daylight this morning revealed a scene of devastation along the path of the cyclone which swept Southern Minnesota and Wisconsin last night.

Between Freeburg and Caledonia, the wife and two children of Peter Meyer were killed; six members of the family of C. Z. Inglett were injured, some perhaps, fatally and the entire family of Lieutenant J. R. J. and scores of farm houses were demolished.

Indications from present incomplete reports indicate that many others were killed and injured.

Near Stoddard, Wis., a man named Halverson was killed and the entire Sheek family injured.

Many bridges in the path of the storm were swept away.

PLOT BY THE BOERS TO ESTABLISH REPUBLIC

LISBON, June 7.—Rumors of a plot to establish a republic in Portugal which have attracted a great deal of attention, have resulted in authorities taking active steps to suppress the scheme.

General Pinaur who took active part in the Anglo-Boer war was the leader of the movement. Pinaur had been engaged by the Portuguese government to command a column of Boers in the Anglo expedition against the revolted Gannam tribes. The conspiracy was then formed for Boers to establish themselves in districts of Humbe, Chibia, Hulla and Lungo and set up a republic. It was the intention to elect General Pinaur president and establish a capital at Arkamedes. The Boers believed Portugal would not go to the great expense of fitting out an expedition to expel them, especially as they could count on support of native tribes and that the government would therefore come to a friendly agreement with them. However, the plot was discovered in time and steps have been taken to prevent it from being carried out. General Pinaur and several other Boers who were concerned in the plot have taken refuge in German Africa.

PIRATED GIVE TROUBLE.

LISBON, Portugal, June 11.—Reports received by the government from Macao, Portuguese China, state that pirates craft infest the sea in that neighborhood. A number of trading steamers and small vessels, it is reported, have encountered the pirates to their own loss. Preparations are now being made to sweep the sea robbers from the ocean. The Portuguese sailing vessel Carolina was one of the victims. She was attacked and robbed of 1,200 pounds and cargo lost. Seven British vessels complained of being pursued and fired upon by pirates. Orders have been telegraphed to the Portuguese cruiser at Timor to proceed immediately to the scene.

WILL GO TO MOREHEAD.

North Carolina Division, United Confederate Veterans, To Go Into Camp There After State Guard Encampment.

RALEIGH, June 11.—Governor Glenn this morning, at the request of General Julian S. Carr and Major H. A. London, granted permission for North Carolina Division, United Confederate Veterans, to go into camp on the state camp grounds at Morehead right after the encampment of the North Carolina Guard, August 7. As much as possible of the encampment equipment will be left for the old soldiers.

MEN WOULD NOT WORK.

One Ohio Mining Company Tried To Resume Operations Today But Without Success.

DHLONVILLE, Ohio, June 11.—The attempt of M. A. Hanna Coal Company to start their mines failed. Not one miner responded to the entreaties of the company.

Early this morning there was shooting in valley of mine tipple. Reports say forty shots were fired, but the watchman did not respond. The superintendent says the shots were to intimidate those who intended returning to work. Superintendent Hornick says strike breakers will be deported and work immediately resumed in all the mines.

FAIRS DECIDED UPON TODAY.

At Meeting of Secretaries of Various Fair Associations of the Two States Held Here This Morning, This and Other Matters Were Considered and Disposed of—"Southern Race Circuit" Organized.

From Friday's Daily. A meeting for the organization of a Southern Race Circuit was held this morning at the City Hall, the objects of the meeting having been to avoid a conflicting of dates on the part of various fair associations in Virginia and North Carolina to adopt purses and classes for races which will be nearly uniform, to employ a suitable starting judge, to arrange for attractions to go through the circuit, and to consider other matters of mutual advantage.

The following were present: Col. G. E. Webb, representing the Forsyth County Fair Association; J. L. King, representing the Greensboro Association; Cyrus T. Fox, manager of the Radford, Va., Association; Dr. R. P. Copenhaver, secretary of the Tazewell, Va., fair association; J. P. Carrico, President of the Galax (Va.) Association; and C. W. Greenwell, assistant secretary, Charlotte, N. C. Mr. Fox was also authorized to represent the fair association of Roanoke, Va. It is understood that Charlotte, N. C., will also come into the circuit, and possibly two or three other places.

Col. G. E. Webb was chosen chairman of the meeting, and Cyrus T. Fox, secretary.

Dates for the several fairs were selected as follows: Galax, Va., September 5, 6 and 7. Radford, Va., September 11, 12, 13 and 14. Tazewell, Va., September 18, 19 and 20. Roanoke, Va., September 25, 26, 27 and 28. Winston-Salem, N. C., October 2, 3, 4 and 5. Greensboro, N. C., October 9, 10, 11 and 12. Charlotte, N. C., October 16, 17, 18 and 19.

Cyrus T. Fox, who was made the circuit secretary, was authorized to correspond with several licensed starting judges with the view of obtaining a competent official for all the places in the circuit.

There was an expression of opinion as to classes and purses of the fairs. An average of \$100 for each class was considered quite liberal. Some classes for local horses can be kept under that figure, while the free-for-all can be made as much as \$400 or \$500, and the average still be not exceeded.

It was agreed that each association should arrange its race schedule as soon as possible, and forward the same to Secretary Fox. The schedule will be completed and a revised schedule will be prepared to embody the features of each association's schedule and then be returned for approval. While it is not expected that each association will have exactly the same classes and purses, it is hoped to make them as nearly uniform as possible. The aggregate amount of purses at each place, it is expected, will range from \$2,000 to \$3,200.

POLITICAL NOTES.

Mr. Jesse J. Adams Will Be A Candidate Before The Democratic Convention.

He Will Contest for the Democratic Nomination for Sheriff—Already Two Candidates in the Field—Very Little Interest Being Manifested in Convention for Selecting Delegates to Various Conventions—The Convention for Nominating County Candidates Will Not Be Held Until August.

A new candidate has entered the political field—and he is none other than Police Officer J. J. Adams, who announces that he will enter the contest for the Democratic nomination for Sheriff. The announcement of Mr. Adams' candidacy was quite unexpected and caused considerable talk among those who are keeping tabs on the political situation in the county. Mr. Adams was a member of the police force of this city for many years and has a large following in the city and will no doubt make it interesting for the other candidates for this office. So far there were only two named candidates for this office, Deputy Sheriff J. T. Thompson and Mr. J. E. Zigler.

Politicians and politics have had a dull week for some reason or another. One politician is authority for the statement that the hot weather has had something to do with this apparent inactivity, but others say that each candidate is waiting for the other to show his hand.

The county convention for the selection of delegates to the State, judicial and congressional conventions, will meet the latter part of the month. Very little interest is being taken in this convention, however, and it is very probable that Forsyth delegates to the State convention will go unrepresented. The only contest before the State convention will be for the office of railroad commissioner and it looks now as if McNeill will be nominated on first ballot to succeed himself. As there is no opposition to Congressman W. W. Kitchin or Solicitor Graves the congressional and judicial conventions will only be formal affairs.

The real—the red-hot—convention, for the nomination of county candidates, will not be held until August, and it promises to be in keeping with the weather of that period. Predictions as to the winners are of course being made, but as hardly any two men are able to agree on the winners it is useless to give any tickets that the wise-acre say will be nominated.

"THIS IS SO SUDDEN."

Thus Spake Bryan When Informed That Several State Democratic Conventions Had Endorsed Him For President.

BERLIN, June 11.—"This is so sudden," said William J. Bryan with a laugh when told today of his endorsement by the recent Democratic conventions for the presidency in 1908. "This is the first announcement of the news to me," Mr. Bryan continued. "I have been off the main caravan route for some time and have been absorbed in what I have seen and have been doing." As to the possibility of his nomination he had little to say, declaring it is too early to speak of that question.

NEW MASONIC OFFICERS.

At the regular meeting of Winston Lodge No. 167, A. F. and A. M., Monday night, the following officers were elected: Worshipful Master, J. D. Longenour; senior warden, C. A. Jenkins; junior warden, R. E. Johnson; treasurer, R. E. Transou; secretary, T. L. Farrow.

TROOPS WITHDRAW SEEKING A REMEDY

Those That Have Been Guarding Ohio Mine Property Leave. House Committee on Agriculture Is Considering Proposed Laws.

Operators Appear Surprised at Orders Withdrawing Troops, Saying They Had Expected to Resume Work Monday In Spite of Strike in Ohio Coal Fields.

DILLONVILLE, Ohio, June 9.—In accordance with orders issued last night by Adjutant General Pughes all the troops that had been guarding the property of coal companies are returning home today.

Operators say they cannot understand why the troops should be taken away at such a critical time when every arrangement has been made to resume work Monday. Company guards are being reassembled. Guards are obnoxious to the strikers and with their return to duty trouble is anticipated.

CARRIED TO RALEIGH.

Jim Sanders, Accomplice in Attempted Criminal Assault on Selma Lady, In Wake County Jail.

Special to The Sentinel. RALEIGH, June 12.—Jim Sanders, one of two negroes, who attempted to criminally assault Miss Pearl Jones, night operator for the Southern Bell telephone exchange at Selma Saturday night, was brought here this morning and committed to Wake jail for safe keeping. There was no overt act toward lynching the negro, but reports were flying around of such a character that the authorities deemed it best to get him out of the way. Deputy Sheriff Sanders drove with the negro through the country, a distance of 27 miles, to Raleigh, rather than to attempt to bring him publicly on his train.

Miss Jones, it will be remembered, mortally wounded Merritt's accomplice, Bud Richardson, when she discovered the negroes prowling in the back lot and Richards made a confession that Merritt had been there twice before for the purpose, but could accomplish nothing by himself, therefore he insisted upon Richardson going with him. In the estimation of the public Merritt is gully. He is about 16 years old and of ginger cake color.

Governor Glenn's condition is reported to be unimproved this morning. He has been able to sit up very little yesterday or today. He is weaker than at any time since he has taken sick a week ago.

WILL HAVE AN ELECTION.

Enough Signatures Secured in Raleigh For Election on Question of "Dispensary" or "Prohibition."

RALEIGH, June 11.—Rev. S. J. Betts, who has been working up petitions for the calling of an election in Raleigh on "dispensary" or "prohibition" in defiance of the opposition of many of the citizens who led the fight against the open saloons and in favor of the present dispensary two years ago, announces that he now has all the signatures necessary to force an ordinance to call the election. At his request Mayor Johnson has made an order for a special session of the Aldermen Monday night to receive the petitions. Mr. Betts claims he has 100 names on the petition.

ADDICKS WANTS IT.

Still A Candidate for the Senate, Altho From Delaware.

By Wire to The Sentinel. DOVER, Delaware, June 12.—"I will be a candidate for United States Senator at the next regular session of the Delaware legislature," declared J. Edward Addicks following last night's caucus which nominated Col. Henry A. Dupont. Addicks further said: "I will be elected junior United States senator from Delaware in January, 1907. Colonel Dupont and I reached an agreement some time ago by which we were to stand for nomination before the caucus. The successful man was to receive the support of the other in 1906. Senatorial warfare in Delaware is at an end. Resumption of caucus rule will prevent another deadlock in the state." Asked what would become of Senator Allee under operation of Dupont-Addicks combine Addicks said, "Oh, Allee is eliminated in every contingency."

LARGE DEATH LIST.

About 356 Persons Killed or Wounded in Warsaw, Russia, During Past Six Months.

WARSAW, Poland, June 12.—The prevalence of disorders and activity of revolutionaries is well illustrated in reports of the Warsaw Ambulance Society for the last six months. According to this report 356 persons were killed or wounded during the period mentioned by bombs, fire arms or daggers in Warsaw. Of these victims of violence 109 were killed instantly, 109 died in hospitals. Of the killed 31 were women. As a result of depredations of terrorists and robbers a reign of terror practically exists. Policemen and gendarmes dare not quell murderers for fear of being killed and higher officials are too lazy and corrupt to make any effort to protect lives and property of citizens so that there is no guarantee of safety.

A penny saved is a penny earned, but in a fool's pocket the penny is burned.

BOTH EXPECTED TO DIE.

Man in Baltimore Shoots Woman And Then Shoots Himself.

BALTIMORE, June 12.—Charles Boom, aged 22, shot Mrs. Anna Witz, aged 23, here this morning and then sent a bullet into his own head and another under his heart. The woman was shot in the right temple. Both are in a precarious condition. The couple came here a short time ago from Staunton, Va., where the woman has a husband. A quarrel preceded the shooting.

Mr. Huff's Office on Wheels.

Mr. E. K. Huff, a well-known carriage painter and trimmer, of Kernersville, is an artist. He recently completed a handsome studio, or an "office on wheels." Mr. Huff, who is in the employ of Nissen & Roan of this city, has his studio, which is a beauty, at the corner of Third and Elm streets and in this he makes his home during the week, spending his Sundays at Kernersville. The studio is entitled to the many compliments bestowed by all who have viewed it.

HOUSE COMMITTEE ON AGRICULTURE IS CONSIDERING PROPOSED LAWS.

These Deal Especially With Inspection of Packing Houses and Stock Yards—Question As To Who Shall Pay the Cost of Inspection.

WASHINGTON, June 11.—The committee on agriculture went into executive session this morning to consider legislation designed to correct evils recently complained of in packing house business.

There are three distinct measures before the committee, the Beveridge amendment which places the cost of inspection on packers, the Wadsworth substitute which provides inspection at government's expense and a compromise proposition embodied in bill suggested by Judge Cowan, representative of cattlemen's interests. The latter's proposition is that the government appropriate two million dollars this year for inspection and that next year, if sufficient amount is not appropriated, the secretary of agriculture may make up the deficit by assessing fees on the packers.

OYSTER CULTURE IN N. C.

Report Dealing With This Matter Has Been Recently Issued.

There has recently been issued by the North Carolina Geological Survey a preliminary report on oyster culture in North Carolina. The main object of the present paper is to answer, as far as practicable, certain questions that have been raised regarding oyster cultivation in North Carolina. The questions that are discussed in detail in this paper are:

1. Can oysters be profitably cultivated in North Carolina waters?
2. Is oyster cultivation now an industry of any importance in North Carolina?
3. Can the State by investigation or legislation encourage the development of this industry?

The first question is answered in the affirmative, although this preliminary report does not go into a detailed description of the experimental plantings of oysters that have been made in various parts of Pamlico Sound. In a later report there will be taken up the results obtained from those experimental beds that have been kept under observation and visited at intervals of a few months, regarding the set of "spat," rate of growth, expansion of bed, and other biological and physical conditions. The second question would have to be answered negatively, not because the oyster cannot be profitably cultivated, but because the planted is protected. The third question, answered in the affirmative, is treated at some length and the fundamental legislative conditions that seem necessary for the building up of the oyster planting industry are indicated.

The cultivation of the oyster offers employment and profit to individuals who will undertake planting. It will be not only a source of direct revenue to the State, but indirectly through the resulting increase of taxable property, add cause a large revenue. At no time in the history of the State has there been such a good opportunity as at the present time for the building up of a remunerative industry in the cultivation of the oyster and this should, within the next few years, become a profitable business throughout many districts along the coast of North Carolina.

There will be published later in the fall a more exhaustive report on oyster culture in North Carolina, which will describe in detail the results of the experiments made during the past three years.

CASE OF INFANTICIDE.

Body of White Male Infant Found In Small Stream in South Greensboro.

GREENSBORO, June 11.—Yesterday afternoon some children who were catching crawfish in a small stream that runs through Douglass Park in South Greensboro, found lying in the water, partly under the bank, the fully developed body of a white male infant. Information of the discovery was soon furnished the police. They found the body nude, and the coroner's examination showed that the infant was born alive and must have been cast in the water Saturday night or afternoon. Efforts are being made to locate the authors of this horrible crime, but there are yet no clues to the perpetrators.
