PRICE 5 CENTS

CUBAN REVOLTS AGAINST PALMA

Separate Revolutionary Outbreaks Have Been Announced.

One Gives Cause for Apprehension to Disturbance of Peaceful Conditions on the Island.—United States May Take a Hand if Normal Conditions Are Not Restored Soon.

NEW YORK, Aug. 21.—Dispatches here today indicate that there are present uprisings against Palma regime in three parts of Cuba. How serious any of them are yet clear but the movement of General Quinton Bandera is regarded as threatening as he has 50 men. One other attack, rebel Commander Pine Guorra is to be making on the town of Del Rio, seems to many familiar with Cuban affairs to be somewhat alarming aspect. From 500 to 1200 men and the defended by 200 rural police. There are two disturbances in Sabeta but little news of the extent of revolt there has reached here.

It is developed that lives and property, not only of Americans but lives are really endangered and the Cuban government is unable to cope with the disturbance. U. S. troops will be dispatched to the available port where marines are landed and sent against the revolutionists. According to official administration it would not be necessary for the United States to intervene. It is regarded that ample authority exists under general treaty with Cuba for this government to intervene at any time if own volition should it consider this sufficiently grave.

STILL AFTER ICE MEN.

Them Takes Stand and Makes Payment as to Price Paid for Ice Dealers and Also Price It Was Paid For.

LEDO, O., Aug. 15.—The examination of witnesses was continued to over the interstate commerce commissioner, H. P. Watters, one of owners of the Michigan Lake Ice company and one of the ice men sent to the workhouse by Judge Ide for conspiracy in restraint of trade, testified that he bought ice from Toledo by the railroads and he paid, this year, \$1.15 a ton, included.

The same ice was sold to the city in Toledo for ten dollars a ton. The combination, the testimony of more than ordinary interest. The number of witnesses were but until Watters took the stand important was elicited.

Several witnesses were told by Commissioner Clements to forward certain documents and records to the commission at Washington.

LOS ANGELES 125 YEARS OLD.

Event Was Duly Celebrated By Citizens in a Most Enthusiastic Manner.

LOS ANGELES, Cal., Aug. 15.—Los Angeles is one hundred and twenty-five years old today and the citizens celebrating the anniversary in an elaborate manner. The celebration is under the direction of Father Juan Berra, pastor of the Plaza Church, who has always taken a great interest in the early history of this city. There will be a historic pageant, old time games will be played, the people, dressed in the hand-made costumes of a century and a half ago, will dance and amuse themselves after the manner of their ancestors.

August 15, 1731, Felipe de Neve, governor of Alta California, came to the San Gabriel Mission to the settlement of the name of Ey Pueblo de Santa Senora, la Reina de Los Angeles—the town Our Lady, the Queen of the Angels. This name was later abbreviated into Los Angeles.

Senator Simmons in Washington.

Senator F. M. Simmons, of North Carolina, who dropped into Washington yesterday afternoon, is a guest at the Ebbitt House. The senator at Democratic congressional headquarters for an hour, where he made statement that North Carolina will redire Spencer Blackburn, the Republican from that State in house, and one of the very few from the entire South, and send a delegation to Washington. The Democratic party in his state, Senator Simmons says, is in fine shape and being harmoniously for every man a ticket, while the Republicans are divided by factional quarrels, especially in the Eighth district, where Blackburn is fighting for re-election.

Three Blockaders Caught.

GREENSBORO, Aug. 16.—Deputy Sheriff J. M. Bailey returned last night from a trip into Rockingham county, near the Stokes county and Virginia line. He arrested three men illicit distilling. Two of them are bond, and one was placed in jail.

Business men who cling to ancient traditions are apt to be left at the post. Religion, when used as a cloak, is so warm.

THE PEONAGE CASE

An Italian Comes Here And Holds Conference With District Attorney.

Goes to Marion in Search of Evidence for the Department of Justice Against the South And Western Railroad Company And Its Employees.—To Try Only Suits Against Revenue Officers at Next Term of Federal Court at Greensboro.

In an interview today District Attorney Holton stated that the cases against the indicted revenue officers, which were not concluded at the last term of the federal court at Greensboro, would be the only ones tried during the session which convenes on Monday, September 3. There are many witnesses to be examined and it is not believed that any time will be left to hear any other cases on the docket.

Domenico J. Andreaccio, an Italian, was here yesterday in conference with District Attorney Holton in regard to the indictments for peonage against the South and Western Railway Co., its overseers and other employees. Andreaccio was sent out by the Department of Justice at Washington to make an investigation and secure testimony for the prosecution. He went to Marion last night to carry out instructions of the department. The preliminary hearing is set for next Saturday before a United States commissioner.

District Attorney Holton will be present and represent the government.

CASES ON MAYOR'S DOCKET SET FOR TODAY

E. W. Carter, a white man, walked into the police station this afternoon and pointing to his forehead and nose asked acting chief Thomas to see where Lee Holloman struck him with a crutch. Carter explained that he was on Masten's corner when Holloman walked up and told Carter to pay him that 85 cents he owed him or take something else. Carter said he replied that he could not pay him then, but would later; that Holloman then raised one of his crutches and began using it on Carter's head. Holloman was recently shot by a woman and his injuries are such that he has to use crutches in walking. Carter and Holloman were cited to appear before the mayor at 4 o'clock this afternoon.

Ran Smith was arrested today on the charge of stealing a pair of shoes from Jim Pierce.

Jim Clark is to be given a hearing before the mayor this afternoon. He is accused of stealing a pistol from R. W. Elliott.

The trial of George Penry, colored, charged with stealing a purse from the store of the J. W. Hester Co. last Friday, was set for this afternoon.

POSED AS A RICH MAN.

Bridegroom Fooled His Wife, But Not the Police.—Reported Loss of \$16,000.—After Telling a Mysterious Story of Being "Doped," Taken to Tenderloin and Fleeced, L. B. Hickman Admitted That He Had Not Been Robbed.

BALTIMORE, Aug. 17.—Claiming to have been "doped" in one of several saloons in the redlight district yesterday morning, L. B. Hickman, of 232 North Carey street, accompanied by Mrs. Hickman, came into detective headquarters in the court house late this afternoon.

Hickman said that after being "doped" he was induced to withdraw \$16,000 from the National Marine bank while in a dazed condition, and that he was later enticed down the Shell road to one of the numerous resorts that flourish near Back and Middle rivers, where he says he was robbed of a little over \$16,000.

The police was dubious about Hickman's story, as the officers of the National Marine bank said that the name of L. B. Hickman is not on the bank's books.

Hickman was sweated tonight at headquarters, and, after close questioning, he reduced his loss first to \$1,600, and then to \$600. Finally he confessed he had lost nothing at all.

It appears that, prior to his marriage a short time ago, he led his wife to believe he was very wealthy. Since then, however, he has shown no evidence of being well fixed, and, becoming suspicious, the bride insisted upon seeing the color of his coin. He withstood the demand until yesterday, when he promised to make good.

The presumption is that he adopted the robbery plan of satisfying his wife, and it would probably have worked had not the police been too inquisitive.

When reporting his imaginary loss, Hickman told a mysterious story, while his wife wept bitterly by his side. He said that the effects of the powerful drug given him while in the uptown Tenderloin were so severe that when he awoke at 10 o'clock last night he took a Back or Middle River car, transferred to a Carey street car, and arrived home in a dazed condition, hardly conscious of his great financial loss.

Charity doesn't cover many sins unless it begins at home.

TWO THOUSAND PERSONS KILLED IN EARTHQUAKE AT VALPARAISO

PROPERTY LOSS CAUSED BY DISASTER AGGREGATES ABOUT THREE HUNDRED MILLIONS.

One Hundred Thousand People Are Now Facing Starvation—Fire Followed Close Upon Earthquake Shock In Capital of Chile—Several Hundred Shocks Have Been Felt There—Catastrophe Greater Than Recent One at San Francisco.

(By Publishers' Press.)
VALPARAISO, Chile, Aug. 20.—Two thousand dead in the ruins at Valparaiso, an army of a hundred thousand refugees facing starvation in the hills and property valued at \$300,000,000 destroyed—is the situation in Chile's earthquake-wrecked city today.

There is no food to be had in any large quantity, except from stray ships that enter the Chilean ports. The government has ordered cruisers to take aboard foodstuffs and start immediately to relief.

Every building in the city was damaged and many burned after the first severe shocks.

Martial law has been declared. The earth continues to tremble and workmen are yet afraid to clear away debris.

Information from mother affected places (this of the ruin but there is no definite estimate of the loss of life except at Santiago where it is reported the death list is fifty-five. Numerous small villages are reported in ruins.

All things considered the disaster is greater than the San Francisco catastrophe. There is infinitely more suffering.

Eighty-two shocks occurred Thursday night, and 300 more since then. The great fires which raged since Thursday night are gradually dying out.

Relief Measures Discussed.

WASHINGTON, Aug. 20.—The National American Red Cross Society has requested the State Department to inform it of the extent of the Chilean earthquake and of advisability of appealing to this country for relief for the sufferers in that country. On account of meagre reports received in Washington the Red Cross hesitated to take any steps previous to this time. Assistant Secretary of State Bacon is a member of the executive committee of the Red Cross Society.

Report Received Saturday.

WASHINGTON, Aug. 19.—Official advices reached the State Department today regarding the Valparaiso earthquake, but they gave information similar to that already contained in press dispatches. Under today's date.

Mr. Hicks, the American minister at Santiago, cabled that 50 deaths were reported at Valparaiso and immense destruction had been caused by fire and that many towns have been wiped out. He added that there is universal mourning. He said it was reported that at Santiago there were 30 deaths and much destruction of property.

The State Department also announced that Minister Hicks, "under date of the 18th, reports that on the 16th there was a frightful earthquake with loss of life, many buildings being destroyed, and shocks continued until the date of the telegram; that the legation was safe; that the houses in the towns were deserted and thousands of people had slept two nights in the plazas and parks."

Cable advices were received at the Chilean legation today, dated Santiago, Chile, August 18, stating that the earthquake in that city was very severe, but that there were few casualties. Up to the time of filing the dispatch, which the charge d'affaires believes was Saturday evening, no news had been received in Santiago from Valparaiso on account of the interruption to the railroad and telegraph lines.

A dispatch to the State Department from the American legation at Quito, Ecuador, states that a report has been received there that an earthquake visited Valparaiso, but the dispatch gave no details. Another dispatch to the State Department came from the American consul general at Iquique, Chile, who reports that Valparaiso is in ruins from an earthquake and is on fire. He stated that at the time of the filing of his dispatch there was no communication with Santiago and no further details were obtainable. The date of his dispatch is in doubt.

Mr. Buchanan, the head of the American delegation to the Pan-American Congress at Rio, cabled the State Department today saying that no information had been received at Rio concerning the earthquake, and asked the department for news. Acting Secretary Adee cabled the information contained in the dispatches from Minister Hicks at Santiago.

PUBLIC HIGH SCHOOL BEING ENDORSED

The resolution adopted by the county school board at its last meeting favoring the establishment of a public high school, is being received with favor. It has been suggested that county board could not do better than establish the proposed school in connection with the West Salem school, which, it is claimed, has the largest and best equipped building of any free school in the county.

The Winston school board has also been agitating the question of erecting a new and modern building for a high school. If the plan is carried out it is argued that the county board could make terms with the graded school commissioners to run the county high school in connection with the one in the city.

DOWIE AND VOLIVA ARE STILL "AT OUTS"

CHICAGO, Aug. 21.—Peace negotiations carried on in Zion City between Dowie and Voliva have been declared off. A statement to this effect is given out by Dowie. "All attempts at negotiations have ended in failure I made a proposition but Voliva and his adherents refused to consider it. Then I offered to consider a proposition from them but it was twice stated they had none to offer, hence the negotiations closed."

Just what Dowie's proposition was neither of the principals in the controversy nor John C. Hatley, who has acted as intermediary, in the affairs, would say.

HEART ON RIGHT SIDE.

Newspaper Man of Curious Physical Make-Up Dies of Appendicitis.

RICHMOND, Va., Aug. 18.—J. W. Taylor, Jr., of Onancock, died in Salisbury, Md., yesterday, following an operation for appendicitis, was twenty-one years old, and since his fifteenth birthday has been widely known as a newspaper correspondent.

As a boy his physical attributes were no less remarkable than his mental gifts. His heart was on the right side of his body. Until his fourteenth year he was subject to numerous attacks that kept him physically at low ebb. It was feared that he would not live to manhood. He regained his health and reached nearly 200 pounds in weight. He was the only son of his father, T. W. Taylor, of Onancock, who was at one time collector of the port of that town.

NEW MEMBER SALEM BOYS' SCHOOL FACULTY

Mr. Clarence H. Whitlock will succeed Mr. Fred Brower, who holds a position with the Wachovia Loan and Trust Co., as a member of the Salem Boys' School faculty. Mr. Whitlock comes highly endorsed by the faculty of Guilford College, from which institution he graduated. He was last year principal of the Lewisville Academy, and was popular with patrons and pupils.

The Sentinel learns that the enrollment of pupils for the opening Monday is quite encouraging. For a number of years this school has drawn to its upper classes large numbers of young men, who find in its business course a fine preparation for active life. Professor Brower reports the demand for graduate from this department, as book-keepers and stenographers, greater than the supply. Not only in the upper grades is the enrollment going on, but quite satisfactory additions are being made in the lower grades. Parents are recognizing the superior advantage of having their younger children placed where there is not such congestion of numbers as to preclude individual effort for each child.

TELEPHONE PROBLEM BOTHERING RALEIGH

RALEIGH, Aug. 21.—Secretary J. E. Pogue, of the North Carolina State Fair, says there is every indication now that the effort being made to induce William Jennings Bryan to come to Raleigh as the guest of honor for the State Fair in October, will be successful. A delegation of not less than two hundred of the foremost citizens of the State will go to New York for the great reception and the matter of the visit to Raleigh will be urged upon the distinguished statesman.

Preparations for the fair are well under way. Very considerable improvements are being made in the buildings and grounds, including a system of water-works that has been badly needed for many years. A number of counties have signified their intention of having county exhibits and entries and applications already in hand assure the most complete and attractive displays in the history of the State Fair.

It's easy to see the point of a joke that is on the other fellow.

Some ambitious people rise from nothing to something worse.

The first of the United States—matrimony?

DOBSON IS NAMED

Surry Man Nominated For Solicitor By Republican Judicial Convention.

Only About Half of the Counties in the District Represented.—Nominee Was Not Present.—Had No Opposition.—Major J. E. Alexander Presided in Absence of Chairman.—W. W. Hampton New Chairman of Executive Committee.

The Republican judicial convention for this district was held at the court house Saturday. In point of attendance it was a tame affair, only about half of the counties being represented. Mr. John Dobson, of Rockford, Surry county, was nominated for solicitor, to oppose the present incumbent, S. Porter Graves, of Mt. Airy. Mr. Dobson was not present, hence there was no speech making. The convention was called to order by Maj. J. E. Alexander, who presided over the deliberations. He was delegated to do this by Chairman Numa Reid, chairman of the executive committee, who was prevented from being present by sickness.

Mr. Dobson's father was solicitor of this district for several years before his death. Mr. W. W. Hampton, of Dobson, Surry county, was elected chairman of the new executive committee and, it is presumed, will manage Mr. Dobson's campaign.

Mr. Dobson's name was the only one presented to the convention, hence he was nominated by acclamation.

MR. GEORGE P. PELL IS A CANDIDATE

RALEIGH, Aug. 21.—The question of who will succeed J. Crawford Biggs as supreme court reporter after he goes on the superior court bench next year is looming up now as the date for the convening of the fall term of the supreme court approaches. It will probably be some time after the court convenes before the election of Mr. Biggs' successor is held. Already there are numerous candidates. Among the Raleigh lawyers who are aspirants are Perrin Busbee, R. T. Gray, A. J. Field, and others. It is probable also that J. L. Sewell, assistant clerk of the supreme court, will be a candidate. He was in the race a year ago when Mr. Biggs was elected. Mr. Geo. P. Pell, of Winston-Salem, is in the race and will be a strong candidate. He was clerk to the code commission in the recent codification of North Carolina laws and did especially creditable work in that connection.

NEWS ITEMS REPORTED FROM GREENSBORO

GREENSBORO, Aug. 20.—The Gate City Guards left last night on a special train for Chincoteague Park to take part in the military maneuvers this week. Three other companies, from Burlington, Reidsville and Lexington also went on the same train. The other two divisions of the North Carolina Regiments went from Raleigh via the Seaboard Air Line Railway. The companies will break camp next Saturday night and reach home next Sunday. The battalion that started from here was accompanied by several of the regimental officers, including Col. Craig and Major Albright.

Jim Marrow, a restaurant keeper on Davis street, was arrested Saturday night charged with retailing whiskey. He gave a cash bond of fifty dollars for his appearance at mayor's court this afternoon. The police say that they have evidence sufficient to convict the negro. When he was arrested a small quantity of whiskey was found in the restaurant.

\$60,000 FIRE AT THE U. S. SOLDIERS' HOME

NEWPORT NEWS, Va., Aug. 21.—The large kitchen at the National Soldiers' Home near Hampton was destroyed by fire early this morning. The loss was \$60,000.

Mrs. Flossie Styers Gets Divorce.

The Los Angeles (Cal.) Times, of August 7th says:

"Flossie Styers obtained a divorce from Robert W. Styers yesterday on his drunkenness and cruelty. They were married in 1900, and in more recent years the husband took to drunken ways and ill treated his wife. Twice he was arrested or threatened her life, and when he chased her with a knife and wanted to kill her he was put under a \$5000 peace bond which he could not furnish and had to serve six months in jail."

Mr. and Mrs. Styers left Winston-Salem about two years ago.

Fortune smiles on some people and laughs at many.

Honesty is the excuse of many a man for his poverty.

For that tired feeling policemen should give tramps arrest.

The first of the United States—matrimony?

SITUATION IS NOW IMPROVED

Advices From Valparaiso Say That The Worst Is Over There.

Fires That Raged in Different Parts of the City Are Out And Normal Conditions Are Being Restored.—Conflicting Statements As to Number of Those Killed.

SANTIAGO, Chile, Aug. 21.—The governor of the state of Valparaiso, in which is situated the city of Valparaiso, in an official report to President Riese today says the city is practically a total loss. The governor estimates the number of killed at 200 at the very least, and wounded at upwards of 800.

Temporary telephonic communication was established today between Santiago and Valparaiso. Newspaper Meurtrie of Valparaiso says damage has been underestimated.

It estimates the number of dead at 2500.

Situation Improved.

LIVERPOOL, Aug. 21.—Optimistic news is contained in dispatches received here today from Valparaiso, Chile, and the situation throughout the zone visited by the disastrous earthquake last Thursday night is apparently improving. Little damage was caused beyond Llaillar, half way between Valparaiso and Santiago. Earthquakes have ceased in Valparaiso and fires in various parts of the city are out. Military authorities have the situation under perfect control and prospects are very favorable for avoiding any scarcity of food and supplies.

Another Shock Reported.

LONDON, Aug. 21.—Another heavy earthquake struck Valparaiso last night, according to reports from Lima, Peru. Reports state that the town of Quillota, 26 miles from Valparaiso, with population of ten thousand, was destroyed. Lima experienced a slight shock this morning.

WILL URGE BRYAN TO VISIT STATE

RALEIGH, Aug. 21.—More than of Raleigh are still wrestling with the course of a triple telephone service—three separate local exchanges. There was a special meeting of Merchants' Association last night called especially for taking action looking to the adoption of one company for the local service. After a general discussion of the situation there was a long distance message from parties interested asking that final action be deferred until Tuesday, August 28th, and the request was complied with. No statement was made as to what additional proposition is pending. It is reasonably certain, however, that there is not a proposition for a fourth company. It looks now like the citizens generally will demand that the Southern Bell be retained with some satisfactory assurance that excessive rates will not be charged when they get the exclusive field as the Bell Company has a long distance service which the people of this city cannot afford to be deprived of or to have cut out of their residences or places of business.

TEXT-BOOK COMMISSION HEARING ARGUMENTS

RALEIGH, Aug. 21.—The state text book commission began today the hearing of argument by book publishers on the merits of the various books entered for adoption in the public schools of the State. It will require four days to give all a hearing. It will be September 1 or later before the adoption is finally made and then the books adopted must be gotten into the depositories the state ever in time for the opening of the schools.

CZAR'S ATTITUDE TOWARD REFORMS

ST. PETERSBURG, Aug. 21.—A high personage who has recently been brought into constant contact with the Czar but who refuses to permit his name to be used, in an interview with a press correspondent today, said: "The Czar has spoken to me freely regarding his desires for the future of Russia. Upon one occasion he said: 'I am a pure constitutionalist now. I am studying all varied constitutions, suggested by the several political parties. I think only a cabinet should be appointed which will likely enjoy the confidence of the duma but at the same time the cabinet must be responsible to me. I am inclined to favor constitutional democrats but cannot persuade them to work in harmony with me. I believe Russia will avoid a bloody revolution as the troops are loyal. If the fight turns against us, however, then let the revolution devour us all, for I have done all possible.'"

If a man is too lazy to work, he sets himself up as a philosophy dispenser.
