Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipabreath or dull your head; no constipa-tion, billous attacks, sick headache, colds, rheunatism or gassy, acid stom-ach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin porces do not absorb impurities into the blood, while the bowel porces do, says a wellknown physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a class of hot water with a teaspoontal of limestone phos-phate in it. This will cleanse, purify

Education not to Suffer in Stricken Counties Because of Flood.

Raleigh, Aug. 12 .- "It looks like the by the officers the car was searched bution to the flood relief fund of the Lord takes care of the school children and the school buildings," remarked Superintendent of Public Instruction J. Y. Joyner yesterday atternoon after hearing the reports of county superintendents of public

schools in the flood-stricken countles. "Some years ago when you were in our section," rejoined one of the county superintendents, "you advised us to build every school house upon a hill. We did so, and as a result only a few school houses, relatively our speaking, were carried away by the

Dr. Joyner was agreeably surprised at the smallness of the damage to pub-lic school building plants. Several thousand dollars, he believes, will cover this damage, and that of buildings which sustained some damage without being entirely carried away. The worst damage to education in the stricken districts was from the reduction in the school income resulting from the great reduction of values in the county following the ravages of the flood. But plans were set on yesterday by which it is believed there will be no cutting off of the regular

school term as a result of the flo indeed, buildings will be provided for entirely out of the loan fund so that none of the income of the various districts will have to be applied to building. With the aid of the receopts from the equalizing fund it is estimated that there will be no curtailment of income.

The school superintendents have been active in their counties in relief work and were in Raleigh to attend the meeting to expedite relief held here yesterday.

Among the superintendents here were R. M. Smith, of Caldwell county; W. H. Hipps, Buncombe; T. L. Sigmon, Burke; C. M. Dixon, Ashe; Frank A. Edmonson, Avery; Bryon Conley, McDowell; W. R. Hill, Rutherford; J. H. Allen, Surry; Wright, Wilkes; W. S. Shitle, Henderson.
