Tokio, July 28.—The Japan government has received a commis-cation from the United States po ication from the United States point-ing out, among other things, that America is unable to recognize Ja-pan's occupation of the northern half of the island of Saghélien. The Nichi Nichi says of the nature of the protest, however, that the impression exists here that the communication is not really a protest, but rather an exposition of the American visupoint on occupations of Russian territory, with something of America's atti-tude towards the territory to be oc-cupied. It is apparently felt hare that any should emanate from Washington and not Tokio.
