## Concessions For Returning Boys To Working Field

Some Labor leaders are beginning to think that: It would be a grand idea for every Labor union to adopt the following policy: 1—Every returning soldier who can show an honorable discharge from our country's

armed forces should be eligible to join a union without paying an initiation fee; 2—Every union member joining the armed services shall be considered a member in good standing throughout his period of service and until such time as he gets a job after honorable discharge and then resumes his dues payments and other union obligations.

The greatest mystery is death.

To Our Boys Overseas!

IT'S SO EASY to send a gift of RALEIGH cigarettes to the boys overseas from your own union. Simply send your order to us. We dispatch the cigarettes, transportation free, to any Army Port of Embarkation in the United States. The Government ships the RALEIGHs to foreign points—to the soldiers in the battle lines. A gift of concentrated contentment!

OUR SERVICE covers case orders, at \$25 a case of ten thousand RALEIGHs—50-200's cartons. One million, one hundred thousand for \$2500. That is economical buying, 45¢ per carton.

A HIGHLY PERSONALIZED GIFT can be made with orders for five cases or more. On each package of 20 cigarettes we place the name and address of your group. On Each 200's carton will be enclosed your message of greeting. With each ten-case order, we include an extra case without charge as our donation.

## SAVE GAS

... IN COOKING ... HEATING ... WATER HEATING.

The existing shortage in fuel oil has a direct bearing on the household use of gas because oil, as well as coal, is used in making the gas that cooks your meals and performs so many other tasks in your home. The United States War Production Board has asked us to appeal to our customers to help make sure that there is plenty of gas for war needs by holding down their home use.

### 7 ways to SAVE GAS in your home - - -

- NEVER USE YOUR GAS RANGE OR OVEN TO HEAT THE KITCHEN.
- Adjust and clean burners so flame is blue (not yellow).
- Cook as many one-burner meals as possible. Don't let flames lick around edges of cooking utensils. Don't turn on gas until it is needed; turn off as soon as cooking is finished.
- Plan complete oven meals. Cook vegetables in small amounts of water (this also preserves vitamins). Roast at low temperatures (this also prevents meat shrinkage).
- Keep door of gas refrigerator closed when not in use. Never store warm food in refrigerator.
- Don't let hot water faucets drip. Repair leaky faucets promptly. Don't use water hotter than necessary, nor hot water when cold will do. Don't let hot water run while washing dishes.
- Keep room temperature at minimum necessary for health and comfort. Make the house airtight through insulation, storm windows, weatherstripping and caulking. Reduce night temperature to 65 or lower.

## HITLER UNABLE TO REPLACE MACHINERY

From thousands of business reports still published in Hitler's Reich, one gathers that the main source of declining efficiency is to be found in the increasing inability to replace machinery and plants to a satisfactory extent. Wear and tear on machinery and plant is not made good. The most serious limitation on Nazi industrial output, aside from manpower, is Germany's inability to increase the output of coal, iron and steel. Despite all desperate measures to boost production, output has remained stagnant in the Nazi coal mines. Incapacity to lift coke supplies has hit the iron and steel industries. In agriculture, the strain is no lighter. A shortage of feeding supplies has compelled the Hitler authorities to order a reduction of the average weight of pigs from 150 to 100 kilograms. The acute lack of feeding stuff has further forced the increased slaughter of cattle and pigs. The resulting reduction of supply is bound to spell disastrous consequences for the German people who are the heaviest consumers of pork and allied products.

CARRY a message to Garcia.  
Elbert Hubbard

At the beginning of the Spanish-American war Andrew Sumner Rowan pushed through Cuban jungles for three weeks to bring a message from President McKinley to the insurgent leader Garcia, then in the mountains out of reach by mail or wire. Elbert Hubbard made the phrase "Carry a Message to Garcia" immortal in his magazine the Philistine.

Paint for PROFIT

Some folks complain they can't sell or rent their property. The reason usually is—they have let their property "run down." That's a fatal business mistake in these days of keen competition and can only result in lowered selling or renting value.

Who people refuse to let this happen. They're taking advantage of our present prices of materials and labor, and are having their property PAINTED NOW!
