

"We Are Americans First and Trade Unionists Second"

WILLIAM GREEN, PRES. A. F. OF L.

THE NAZI SLAVE LABOR SOCIETY

Increased resistance against the Nazi forced-labor decrees in Occupied Europe has focused attention on one of the biggest manhunts in all history. It is the Nazis' ruthless search through Europe for more and more labor for the German war machine.

In the process of obtaining this labor the Nazis have created a vast slave society. Millions of workers are laboring for Nazi "masters" in the occupied countries, building fortifications and roads and working in the factories and in the fields. Millions have also been shifted from one end of Europe to another, and other millions of workers have been transplanted to Germany to work under the "blood hierarchy" based on Nazi racial myths.

The report issued by the Office of War Information, Foreign Service Division comprising thirteen pages and may be obtained by writing this agency at Washington, D. C. It is a valuable and instructive document, the story of the Nazi slave-labor society. It is issued by the Office of War Information on the basis of material reaching the OWI and other Government agencies. The report tells how the Nazis obtain their slave labor, how they treat the workers, how the workers are tricked, how they are exploited, how they resist.

This slave-labor society is part of what the Nazis call their "New Order."

United for \$4,000,000 War Relief Drive

All unions in New York City, AFL, CIO and Railroad Brotherhoods, are united in the New York Labor War Chest to raise \$4,000,000 for war relief, community welfare needs and special aid to the fighting labor forces in Axis dominated countries. Matthew Woll, AFL Vice-President and Chairman of United Nations Relief, AFL, Labor League for Human Rights, joins with Frank S. Columbus, New York representative of the Railroad Brotherhoods and Sidney Hillman, President of the Amalgamated Clothing Workers, CIO, in launching the joint campaign.

PAT ON BACK FROM TRUMAN SENATE COM.

WASHINGTON, D. C. — The Senate Truman Committee investigating the war production program praised labor for its "excellent job" in the committee's latest report.

"The great labor organizations," the committee testified, "have done an excellent job. War material of almost every description is rolling off the production lines at rates which the committee is confident have not been and cannot be equaled by our enemies."

"This production has been achieved without sacrificing quality, and our armed forces today have the best equipment in the world."

N. C.'s Balance In Compensation Now 49 Million

All the money the state collects toward unemployment compensation is deposited to the credit of North Carolina in a trust fund in the United States Treasury, from which amounts may be withdrawn as needed to pay benefits. At the first of this year North Carolina's balance on deposit amounted to some \$49 millions. Compared to her state funds in the national treasury, North Carolina's balance per covered worker that it insures, is about 30 per cent below the average. The Federal Government pays all the administrative costs of operating the state Unemployment Compensation Commission.

The population of Corpus Christi, Tex., new naval air center, has more than doubled since the 1940 Census, reaching an estimated 119,000 on May 1, 1942.

It takes both . . . ham and eggs go together for a meal. War Bonds and the Victory Tax go together for money to win the war. Buy More War Bonds.

Yessir Guys . . . it's the JIVE-FIVE . . . a Suit That's Really Flexible!

\$24.75

So long as we have held fast to voluntary principles and have been actuated and inspired by the spirit of service, we have sustained our forward progress and we have made our Labor Movement something to be respected and accorded a place in the councils of our Republic. . . . No lasting gain has ever come from compulsion. If we seek to force, we but tear apart that which otherwise, is invincible.—Samuel Gompers.

Simple Electric Cooking Rules for Retaining Vital Vitamins

Use little or no water so as to hold to a minimum the dissolving and loss of water-soluble vitamins . . . Start fast, cook quickly reducing time vitamins and minerals are exposed to heat, liquid and air . . . Avoid violent boiling with its vitamin destroying effect by accurate heat control . . . Cover utensils and don't stir, because air destroys certain vitamins. Even distribution of controlled heat prevents scorching.

Helpful Hints How to Make Your Electric Range Last Longer

Use oven or thrift cooker to prepare entire meals that cost less and require less Electricity. . . . Wash outside of range only when cool. Use warm soapy water, rinse and dry — wipe oven after use with damp cloth . . . Wipe up spilled food before it dries or damages wiring. . . . Keep drip pans clean.

★DUKE POWER CO.★

DON'T BE MISLED

THERE IS NO PAINT SHORTAGE
NO BAN ON PAINTING.

Contrary to recent rumors, there is no shortage of paints, varnishes, enamels or lacquers. We have adequate stocks of the same kind and high quality of paint products as we had a year ago, and anyone is free to purchase them without requisition or priority order.

There are no Government restrictions whatever to prevent property owners, landlords and property managers from doing their usual maintenance and repair work, including painting.

PAINT MAKES THINGS LAST LONGER
Paint prevents rust and decay as well as lessens fire hazards. Paint is a morale builder—make the premises more cheerful, and livable—makes interiors more healthful.

IT IS PATRIOTIC TO PROTECT WITH PAINT
Talk it over with us. We will be glad to recommend a reliable painter.
