The Labor Journal is true to the American ideals of WAGE EARNERS; Men and women spend your wages in the city where you live, always remembering that "The Dollar That Goes the Farthest is the Dollar That Stays at Home."

The Labor Journal will not be responsible for opinions of correspondents. If you do not get your paper drop a postal to the Editor and he will see that you do.

We believe in American business and American Workers. We believe that a just share of the profits which the workers help produce should be given the worker, for without this benefit, lasting prosperity cannot be assured.

BIBLE THOUGHT

"I am crucified with Christ: nevertheless I live; yet not I but Christ liveth in me: and the life which I now live in the flesh I live by the faith of the Son of God, who loved me, and gave himself for me."—St. Paul to the Galatians.

CHARLOTTE SAVED AGAIN!

Yesterday's election ended one of the warmest local political fights seen in Charlotte in many years, and while the "majority of candidates who would have handed Charlotte over to vice and corruption, lock, stock and barrel," were defeated, five of them survived. The "corruptionists" gained the office of Mayor. The above is all pre-election talk, and today they are all HONEST MEN and LOYAL CITIZENS again—and Charlotte will go on—a well-governed and a good city in which to live; time healing the wounds made in the political battle, even though a few scars and unpleasant memories may be left.

"BURIED DEAD IN MORNING; SOLD BONDS IN AFTERNOON"

The patriotism of American workers in 1917-1918 is recalled by the Office of War Information.

During the Third Liberty Loan Drive, the Office of War Information states, a Washington newspaperman thought up the idea of "matching the President." When President Wilson bought a bond, each American citizen was urged to match his purchase. And the American workers came through.

"The Fourth Liberty Loan," the OWI continues, "was notable, not only for the results it obtained (the people subscribed almost \$7,000,000,000 although only \$6,000,000,000 was asked for), but also for the obstacles it overcame. The influenza epidemic swept through the country. One author says: 'The workers buried their dead in the morning and sold bonds in the afternoon.'"

This war the need is greater than ever. Are you buying all the bonds you can?

THIS IS MY WAR!

By NICHOLAS J. RICHARDS

This is my war! If I now fail—
The conflict lose—Of what avail
Will be my wailing at the end,
Because I would not comprehend.
Or wrench aside my self-made veil?

The task is mine! On a small scale,
My strength employed, though weak and frail,
If multiplied, will haste the end—
THIS IS MY WAR!

I dare not flinch! I must assail
The force of WRONG on height or vale!
If I my zeal with others lend
My breaking back with others bend,
I'll share with HIM the Holy Grail—
THIS IS MY WAR!

'NUFF SAID, MR. DOOLEY

The sponsors of the anti-labor bills passed in Colorado, Texas and other states, like the Congressmen who voted for the Hobbs bill, all say they're for unions "if properly conducted." On this, page Mr. Dooley:

"Shure, said Mr. Dooley, "if properly conducted. An' there we are; an' how would they have them conducted? No strikes, no rules, no contracts, no scales, hardly any wayges an' dam few members."

The Colorado act outlaws strikes, provides for only plant agreements, forbids court enforcement of existing contracts, insists on the open shop, and provides for heavy fines for individual members for violations of the law by the "labor corporations"—the law's Fascist name for its "properly conducted unions."

'Nuff sed, Mr. Dooley!

**Auto Wreckers
Moving Scrap**

Auto wreckers moved 3,750,000 net tons of scrap iron and steel during 1942, according to Paul C. Cabot, Director of the WPB Salvage Division. "Never before in the history of the auto wrecking industry has so much scrap metal been moved as quickly," Cabot said. "The contribution made to the war effort is substantial enough quantitatively, but the most important part has been the fact that wreckers worked under the most extreme difficulties."
