From Orchard to Cupboard

By BETTY BARCLAY

With orchards ablaze in full glory all over the country, homemakers look at all this magnificent splendor with a mental picture of the jelly glasses that will soon house this summer-time "treasure" for the cold, winter days to come.

These fruits in all their rich, ripe flavor are yours to claim, for the makers of commercial pectins have worked out a group of special "small quantity" recipes in their laboratory kitchens that require only a minimum of sugar. Now isn't that news? So don't allow that jelly cupboard to become bare. Fill it with a few jars of neatly labeled, bright topped jams and jellies. You can bet your family will sing your praises 'long about next December.

Plum Jam 2 1/2 cups prepared fruit\* 2 1/2 cups sugar 4 1/2 tablespoons (1/2 package) powdered fruit pectin\*\*

To prepare the fruit. Pit (do not peel) about 1 1/4 pounds fully ripe plums. (Sour cherrystone plums give best color and flavor.) Cut in small pieces and crush thoroughly. Add 1/2 cup water; bring to a boil and simmer covered, 5 minutes. Measure 2 1/2 cups into a large saucepan.

To make the jam. Measure sugar and set aside. Place saucepan holding fruit over high heat. Add powdered fruit pectin and stir until mixture comes to a hard boil. Add sugar at once. Bring to a full rolling boil and boil hard 1 minute, stirring constantly.

Remove from heat, skim, pour quickly into glasses. Paraffin at once. Makes about 4 six-ounce glasses.

\*NOTE: 1/2 cup is 2 tablespoons. \*\*Mix contents of package thoroughly before measuring.
